Dinosaur Rescue Jill Corby, Ann Johns, 1993 This reading scheme comprises eight titles that can be used alongside any other method of learning to

read. The books are intended for beginner readers and focus on phonics. The series introduces most of the 44 sounds in the English language - 26 initial sounds, digraphs (2 letters such as ch), phenomes (blends as in str), middle blends (oo) and final blends (ing). The first 100 most used words are introduced, repeated and carried over from book to book. A further 200 words are used and repeated a minimum of 3 times each in the story in which they first appear. Extra repetition is given in the activity books through a variety of reading, writing and other activities. Through their games and activities the reader is transported to a world of make-believe. Each book begins with pages introducing particular sounds which are then used in the story.
