Commonwealth Caribbean Family Law Karen Tesheira, 2016-06-10 This important new text is the product of several years of research of the family law of fifteen Commonwealth Caribbean jurisdictions. It is the first and only legal text that comprehensively covers all the main substantive areas of spousal family law, including marriage, divorce, financial support, property rights and domestic violence. The rights of the statutory spouse in the jurisdictions of Barbados, Belize, Guyana, Jamaica, and Trinidad and Tobago are examined, thus addressing, on a jurisdictional basis, an important area of spousal family that is seldom covered in English family law texts. The book also covers the number and variations of divorce regimes applicable to the region – the matrimonial offence divorce model of Guyana and Montserrat, the English five fact model of Trinidad and Tobago, Dominica, Grenada, Anguilla, and St Vincent and the Grenadines, the hybrid model of Antigua and Barbuda, Belize and St Kitts and Nevis, and the no fault model of Jamaica and Barbados. This book will prove an indispensable resource for law students and legal academics, as well as for family law practitioners across the English-speaking Caribbean. Other professionals, including sociologists and social workers, will also find the book useful and informative.

Bibliographia Cartesiana Gregor Sebba, 1964-07-31 This book offers a new type of working tool for Cartesian studies. It presents the literature of the last 160 years in alphabetical order (Part Two), combined with a systematic analytical survey (Part One) and a detailed topical index to the whole (Part Three). This organization makes it possible to turn bibliography from a repository of references into a workshop of research. The systematic survey of Part One and the topical index of Part Three, together, offer a *mise au point* of Descartes studies over their full historical and topical range. The results have often been surprising and illuminating to the author, and if his experience is any guide, the reader, too, will begin to wonder about certain seemingly well-settled points, or marvel at the Protean shapes which our elusive philosopher assumes when mighty commentators force him to reveal his true nature. A work which has been in the making for fifteen years must show the traces of expansion in scope, and changes in evaluation. *Bibliographia cartesiana* amends my Descartes chapter in *A Critical Bibliography of French Literature*, v. 3, 1961 (see no. I9a), and supersedes an earlier version of Parts One and Two, published in 1959 under the main title *Descartes and his Philosophy*, v. 1 (set: no. I8a). Part I (Introduction to Descartes Studies) divides the field into eleven broad areas.
