- 🔍 **WHITE CROWS** T. J. MacGregor,2022-05-24 For psychic Mira Morales, it begins when a crazed woman accosts a jogger and demands to know where she can find Mira. In a confrontation, the lunatic is killed by the jogger and turns to stone before she hits the ground. Mira reads the body and makes a startling discovery. The stone woman is from 2144, where the descendants of climate change survivors—Normals and White Crows—live in a giant dome. Crows represent nature’s rapid evolutionary leap to save humanity by endowing people with extraordinary abilities. Normals outnumber Crows, who keep them enslaved. Now the dome is collapsing, and the Crows’ only hope for the future lies in returning to the past. Hundreds of them are on their way to Mira’s time. The invasion has begun.
- 🔍 **ANOTHER GIRL, ANOTHER PLANET** Lou Antonelli,2017-01-29 In an alternate 1980s, a Mars colony bureaucrat finds himself battling corruption, conspiracy, and undercover androids in this sci-fi thriller. Few people believe Dave Shuster’s stories about the red planet. But now government agents are eager to discuss a photo showing a graveyard on its surface, complete with crosses. Shuster claims that he once lived on Mars . . . in an alternate timeline. According to his story, he was a low-level bureaucrat in the administration of a joint US/Soviet colony. And things did not go well. During his posting, Shuster was caught up in a murder mystery involving the illegal use of robot technology. The Cold War had taken a very different turn—largely influenced by Admiral Robert Heinlein. When Shuster arrived on Mars in 1985, he was thrown into a power vacuum, force to fight a rogue industrialist with some help from unlikely sources in a society infiltrated by unnervingly realistic androids. This is his testimony.
- 🔍 **BATTLEFIELD NASA** James M. Verlander,2002-03 An interplanetary war, a long and fierce struggle between two alien races, is brought to present-day Earth, which must fight for survival as it is torn by the violence of alien technology. At the Johnson Space Center, the focal point of the battle, a small force of freedom fighters struggles to save themselves and Earth from alien enslavement. Seeker: A starship that lands at the Johnson Space Center. Miscalculation and mistake by her crew leads to deadly conflict with the Earthys. Don Wise: A NASA scientist who has just hours to determine what is truth and what is deception. Miscalculation on his part means captivity for all Earthy-kind, if not the death and destruction of everything he knows. Onna: An alien medical officer who exerts a strong influence over Don because of his infatuation for her. Admirals Agarian and Onrad: Remnants of the original officers who fought during the early days of the Kreb-Vera war. Lloyd Carrington: President of the United States, who must persuade the various Earth governments to join in a last, bold move to save Earth. Pazary: The alien commander upon whom lies the final decision that determines the fate of all Earthy life.

It examines atmosphere fundamentals, structure, and content. It explains specific situations occurring in the irregular atmosphere and for specific natural phenomena that affect optical ray and laser beam propagation. It emphasizes how to use LIDAR to investigate atmospheric phenomena and predict primary parameters of the irregular turbulent atmosphere and suggests what kinds of optical devices to operate in different atmospheric situations to minimize the deleterious effects of natural atmospheric phenomena.

- 🔍 **RECONCILIATION** Steve Stanton,2010-09-01 “Revitalizes the cyber-fiction genre with its vivid prose and believable characters . . . [This] should appeal to fans of Bruce Sterling and William Gibson” (Library Journal). Zakariah and Mia Davis have been infected with an alien virus that prolongs life—and as a result, their blood is a valuable black-market staple due to its rejuvenating effects. But the “eternal virus” has not affected their son Rix, and Zakariah is consumed with the search for an active sample to inoculate the teenager against mortality. To succeed, Zakariah surgically wires his brain for the global computer network, a virtual cyber-economy controlled by avatars. Busted for transporting grain without a permit, and on the run from the government and the Eternal Research Institute, Zakariah must travel off-planet through a commercial wormhole, alongside a woman who is seeking the source of immortality for her own purposes. Now, in the Cromeus colonies on the other side of time and space, Zakariah will risk everything to give his son eternal life . . .
- 🔍 **THE BLOODLIGHT CHRONICLES TRILOGY** Steve Stanton,2012-12-01 In a post-cyberpunk future, where global economic activity is carried out in a virtual-gaming realm, a new blood-transmitted virus has become a black-market staple due to its temporary rejuvenating effects, forcing infected “Eternals” into tightly knit underground communities where they must hack the V-net for basic food and shelter. In the first book of a series that “revitalizes the cyber-fiction genre with its vivid prose and believable characters” (Library Journal), Zakariah Davis and his wife Mia are among those infected with an alien virus that vastly prolongs life, and their blood has become a black-market staple due to its rejuvenating effects. Their teenage son Rix does not carry the eternal virus, and Zakariah is consumed by the search for an “activated sample” with which to inoculate him. In book two, Mia is murdered in retribution and the family is overcome by grief. Zak goes on a quest to contact her spirit in the afterlife while Rix wants revenge at any cost. Niko, the teenage clone of Zak’s dead sister, has received the eternal virus and been captured by “vampires” who drain her blood nightly for its rejuvenating effects. After Rix helps her to escape, she finds sanctuary at the bedside of her comatose progenitor, Phillip Davis, whose brain is being reconstructed in a clandestine neuroscience laboratory. Zak enlists the help of a famed lecturer on psychic research, Jackie Rose, and together they travel to the home of a Haitian shaman, Tono, a prophetic spiritual healer. Rix and Niko team up to find Mia’s murderer and finally confront her killer in the lair of the Beast who controls the V-net. In book three, the Eternals leader, Helena Sharp, begins to mysteriously degenerate, and the eternal community is thrown into chaos. When Niko discovers that her gifted daughter, Sienna, carries the future heritage of humanity in her augmented DNA, Niko travels home to confront Phillip. However, he has fully integrated his persona with the Beast, and with the aid of a charismatic avatar, he embarks on a program of manipulation and control that will redefine the boundaries of death and consciousness.
