Who doesn't know Doraemon?Doraemon , a cat robot from the 22nd century, is sent to help Nobita Nobi, a young boy, who scores poor grades and is frequently bullied by his two classmates, Gian and Suneo. So that his descendants can improve their lives, Doraemon is sent to take care of Nobita by Sewashi Nobi, Nobita's future grandson. Doraemon has a four-dimensional pouch in which he stores unexpected gadgets that improve his life. He has many gadgets, which he gets from The Future Departmental Store, such as Bamboo-Copter, a small piece of headgear that can allow its users to fly; Anywhere Door, a pink-colored door that allows people to travel according to the thoughts of the person who turns the knob; Time Kerchief, a handkerchief that can turn an object new or old or a person young or old; Translator Tool, a cuboid jelly that can allow people to converse in any language across the universe; Designer Camera, a camera that produces dresses; and many more.Nobita's closest friend and love interest is Shizuka Minamoto, who eventually becomes his wife in the future and has a child with him named Nobisuke Nobi (the same name as Nobita's father). Nobita is often bullied by Takeshi Goda (nicknamed Gian), and Suneo Honekawa (Gian's sidekick), but they are shown to be friends in some of the episodes. In most episodes, a typical story

consists of Nobita taking a gadget from Doraemon for his needs eventually causing more trouble than he was trying to solve. Here Are 49 Images of Doraemon and his team. Grab this book for your kids and let them enjoy by coloring those fantastic pages. Thank you. Here are six learning benefits of colouring in activities.

1. Fine Motor Development: Colouring helps children develop good finger grip. It provides an opportunity to practice holding a pencil the correct way and aids in developing those fine motor muscles in their hands, fingers, and wrist.
2. Concentration: Children's length of concentration develops and improves over time. Colouring requires good concentration and this type of focusing on one task can help a child develop his or her overall concentration levels.
3. Colour Recognition: Colouring in activities encourages colour awareness. Using different colours gives children an opportunity to explore different combinations and lets them see how they can change the appearance of the picture. It is great also for gaining awareness of the lesser known colours.
4. Hand & Eye Coordination: Colouring in assists in the development of hand & eye coordination as the child learns to colour within the specified area. Watching and doing and coordinating both actions is a developing skill when colouring in. When children first start colouring they will have a tough time keeping within the lines but as they progress their skill will increase. Staying inside the lines takes considerable skill and when they master it they gain a sense of pride and achievement.
5. Sense of Pride and Achievement: We need to give young children every opportunity to gain self-confidence and a sense of self-worth. If they can create something that is aesthetically pleasing, then this will help in the positive development of their personality.
6. Creativity: Colouring in stimulates creative thinking. Children

can develop a drawing style and enjoy making an imaginary world. Children learn to plan as they decide the colours they will use in their picture and then what order they are going to colour things within the picture. As their confidence grows, they are more likely to take risks and experiment with colour, patterns, and special effects with pencil or marker strokes. Colouring in has an important place in child development and can easily be incorporated into a child's day. It provides an opportunity to practice and develop many skills such as concentration, fine motor and coordination for early writing skills and correct finger grip. It also gives the experience of creativity, colour awareness and developing a sense of achievement.
