The Dragon in Medieval East Christian and Islamic Art Sara Kuehn,2011-07-12 This book is a pioneering work on a key iconographic motif, that of the dragon. It examines the perception of this complex, multifaceted motif within the overall intellectual and visual universe of the medieval Irano-Turkish world. Using a broadly comparative approach, the author explores the ever-shifting semantics of the dragon motif as it emerges in neighbouring Muslim and non-Muslim cultures. The book will be of particular interest to those concerned with the relationship between the pre-Islamic, Islamic and Eastern Christian (especially Armenian) world. The study is fully illustrated, with 209 (b/w and full colour) plates, many of previously unpublished material. Illustrations include photographs of architectural structures visited by the author, as well as a vast collection of artefacts, all of which are described and discussed in detail with inscription readings, historical data and textual sources.

The Space of Religion Yoshiko Ashiwa,David L. Wank,2023-08-29 The Nanputuo Temple in the southeastern Chinese city of Xiamen has been a cherished site for the worship of the bodhisattva Guanyin for centuries. It was a center of modernizing Buddhism in the early twentieth century and a flagship for the revival of Buddhism after state suppression during the Cultural Revolution. The Space of Religion takes readers inside the Nanputuo Temple in order to explore the practice of Buddhism in modern China and the complex relationship between Buddhism and the Chinese state. Based on three decades of ethnographic research, Yoshiko Ashiwa and David L. Wank tell the story of Nanputuo against the backdrop of a dramatic stretch of Chinese history. They vividly depict episodes such as renovating the halls, reestablishing ties with overseas Chinese donors, conflicts with local government, revival of ritual life, reopening of its Buddhist academy, and the passion of the Guanyin birthday festival. To understand Nanputuo, Buddhist communities, and other temples in Xiamen, Ashiwa and Wank develop the concept of religion as a space constituted by physical, semiotic, and institutional dimensions. They also show how the Chinese state and Buddhism have each adapted to the other, as the temple has adjusted to government policy while the state has deployed Buddhism in its promotion of Chinese culture. This interdisciplinary book is both a theoretically generative analysis of religious spaces and an empirically rich account of the recovery of Buddhism in China after the Mao era.

The Heiress Jude Deveraux,2008-12-26 Jamie Montgomery, an impoverished Elizabethan knight, is elated when he is assigned to escort Axia, the Lancaster heiress, to the castle of her betrothed. If only she will fall in love with Jamie 00 as Jamie's devoted older sister predicts 00 the family's financial woes will be solved. But Axia, who has spent her life closely guarded by her father's servants, is not the shy, cosseted flower Jamie expects. She's a hoyden, hell-bent on enjoying her precious moments of liberty before her marriage to a man chosen by her remote, eccentric father. After curtly informing Jamie not to bother declaring his love for her -- as all poor, handsome men seem wont to do -- Axia makes his life a misery, sneaking off to the marketplace, nearly breaking her neck on a runaway horse, and doing everything possible to delay the trip. Though she dare not admit it, even to herself, Axia dreads being wed to a stranger. Suddenly Jamie realizes that he savors even her most barbed words life the rarest nectar..that he is falling desperately in love with this bold, maddening beauty. Paper Mache Dragons Dan Reeder,2014-09-04 People will tell you that dragons are imaginary, that they don't exist. Yet it seems that dragon lore appears in every culture in every part of the world. There's just something about these flying, flame throwing, fantastical animals that runs deep in the human psyche. We love them. We want them. And we shall have them?

The Black Dragon Chronicles II M. R. Lucas,2022-09-27 This tale of fantasy is a great adventure of warriors, good and evil, who fight to protect their Houses and loved ones. This story takes place in Canae, an ancient, mythical and magical land. Canae's world is inhabited by humans, elves, orcs, dwarves and other magical and nonaEURmagical creatures, both noble and common, good and evil. Though small in numbers, even dragons too live in this world. Canae is also a land of war where kingdoms battle for more land, wealth, power and glory. Similarly, many of the Canae noble Houses wage war, covert and overt, against each other to acquire greater glory, wealth and power. These noble Houses are controlled by powerful matriarchs who seek to protect and increase the glory of their Houses through directed family maneuvers. Protecting, preserving and elevating one's House is a critical priority for all family members. Even love may be sacrificed for the sake of one's House.Individuals in Canae too wage war, but these wars are very personal being that they are wars of the heart. Like wars between great kingdoms or armies, these wars can be short in duration, difficult, and painful. Yet, the fortunate ones' war of love can be a vital source of strength, hope, and happiness. These wars may even endure for centuries...

Tatsu the Dragon Helen Van Aken,2015-10-13 This multicultural children's book tells a mythical Japanese tale about dragons and adventure. Tatsu wasn't a real

dragon. Jiro and Zenji made him for a festival parade, out of bamboo hoops and cloth. But as soon as he was finished, he began to feel like a real dragon, even though he didn't have any wings. When the magic balloon man blew him up so he could slither around, and gave him a tin horn for a voice, Tatsu thought it was time for him to go out and rescue a beautiful maiden in distress. That was how he met Kiku and the wicked Chief Executioner; and how, in the end, he got his wings. Young readers can follow Tatsu on his adventures all over Japan, from the Fire Festival on an island in the Inland Sea (where he was mistaken for a fire demon), to the top of an erupting volcano, in an exciting story set in the authentic Japan of feudal times.

Women's Work: The First 20,000 Years Women, Cloth, and Society in Early Times Elizabeth Wayland Barber,1995-09-17 A fascinating history of...[a craft] that preceded and made possible civilization itself. –New York Times Book Review New discoveries about the textile arts reveal women's unexpectedly influential role in ancient societies. Twenty thousand years ago, women were making and wearing the first clothing created from spun fibers. In fact, right up to the Industrial Revolution the fiber arts were an enormous economic force, belonging primarily to women. Despite the great toil required in making cloth and clothing, most books on ancient history and economics have no information on them. Much of this gap results from the extreme perishability of what women produced, but it seems clear that until now descriptions of prehistoric and early historic cultures have omitted virtually half the picture. Elizabeth Wayland Barber has drawn from data gathered by the most sophisticated new archaeological methods—methods she herself helped to fashion. In a brilliantly original book (Katha Pollitt, Washington Post Book World), she argues that women were a powerful economic force in the ancient world, with their own industry: fabric.
