Drag Racing in the 1960s Doug Boyce, 2021-03-15 The 1960s were a fascinating decade on the race scene. Relive the memories today through this wonderful new book. Drag racing has a long and storied history. Many have said that the first drag race happened shortly after the second car was made. While that may or may not be true, racing prior to World War II was mostly centered around dry-lake activities and top-speed runs. After the war, drag racing became organized with the formation of the NHRA, and during the 1950s, many tracks were built across America to accommodate the racers. Technology in the 1950s centered on the manufacturers updating old flathead designs into newer overhead-valve designs, and the horsepower race really started to heat up. In many forms of racing, the 1960s brought technological evolution. The decade began with big engines in even bigger stock chassis and ended with purpose-built race-only chassis, fiberglass bodies, fuel injection, nitro methane, and blowers. Quarter-mile times that were in the 13-second range in the beginning of the decade were in the 7-second range by the end. New classes were formed, dedicated cars were built for them, and many racers themselves became recognized names in the sports landscape. In *Drag Racing in the 60s: The Evolution in Race Car Technology*, veteran author Doug Boyce takes you on a ride through the entire decade from a technological point of view rather than a results-based one. Covered are all the classes, including Super Stocks, Altered Wheelbase cars (which led to Funny Cars), Top Fuelers, Gassers, and more.

Match Race Mayhem Doug Boyce, 2017-06-15 Drag racing is a very regulated sport. In the history of the NHRA, IHRA, and other sanctioning bodies, many classes existed in an effort to make sure the cars racing against each other are as equal as possible. It is a noble, if not futile, pursuit. You have two cars facing off that have very similar statistics in terms of weight, transmission type, fuel type, estimated horsepower, and all other sorts of measurables. The byproduct is that often the races that were fair were not the races that the fans wanted to see. During the golden age of drag racing, fans didn't care as much about class racing as much as they wanted to see scores settled, rivalries battled, and interesting match-ups. There were the manufacturer rivalries, Ford versus Chevy, Chevy versus Mopar, Mopar versus Ford, as well as numerous driver rivalries. Match races were also a great way to feature wildly popular cars that no longer had a class in which to compete, yet the fans still wanted to see them. So popular and intense were these races that many track promoters didn't bother to promote class racing at all. Instead, they used the match races as headliners, similar to the marquee at your local arena or a billboard in Las Vegas, all resulting in putting more fans in the stands. And the drivers loved it too. Although the prize money for national events was fairly average for the day, the extra appearance fees and prize money to lure the most popular match racers to events increased the driver's take exponentially. Many of the most popular pro drivers quit class racing altogether just to go match racing. Veteran drag race author Doug Boyce tells the tale of the history of match racing through the cars, the drivers, the events, the classes, the rivalries, and everything else that was fun about match racing during the golden era. It's all here, complemented by wonderful vintage photography provided by fans and professionals in attendance. If you are a fan of any class of drag racing, from any era, *Match Race Mayhem* is a fun addition to your racing library. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

Top Fuel Dragsters: Drag Racing's Rear-Engine Revolution Steve Reyes, 2016 In general terms, drag racing is the fastest form of motor racing; within drag racing, Top Fuel is the fastest of the classes. Top Fuel has always been the leading class in terms of technology, cost, excitement, and speed. Over the years, technology has changed greatly. What started out as a flathead engine, four wheels, frame rails, and a steering wheel has morphed into technological wonders producing horsepower figures in the thousands and running supercharged nitromethane cars over the quarter-mile in the 4-second range. Industry legend and veteran journalist Steve Reyes was there through all the technological changes; he has the photos, anecdotes, quotes, and tales of the era. He discusses it all, including the experimentation that led to incredibly exciting racing and wild mishaps. Join him in the pages of this book where he shares all the stories of this incredible racing era.

Chevy Drag Racing 1955-1980: A Celebration of Bowtie's Success at the Drag Strip Doug Boyce, 2020-03-15 Relive the glorious first 25 years of Chevy drag racing in this comprehensive and nostalgic history. With the introduction of Chevy's OHV V-8 in 1955, the brand's domination on the drag strip immediately snowballed. Drag racers loved the compact V-8. It was lightweight, revved high, and responded like no other engine previously produced to modification. Chevy saw a record year in sales in 1955, thanks to a combination of a restyled body and the new mill. It was the age of ingenuity, and those who could get their hands on the new engine were swapping it into engine bays that once housed other weaker mills. Ford's flathead, one that had dominated for so long, was rendered obsolete almost overnight. Chevy had a winner and dominated the sales charts for years to come. Aftermarket manufacturers got on board and offered up all the go-fast goodies needed to make Chevy a winner, no matter what category they ran. From Dragsters to Stock, Chevy's success was immediate. And it was a long-term success, thanks to a combination of years of great styling and a vast array of driveline combinations.

Accomplished racing author Doug Boyce takes a celebratory look at those years of success, with a focus on the first 25 years (1955 through 1980). Chevrolets gave rise to such stars as Bill “Grumpy” Jenkins, “Jungle Jim” Liberman, “Sneaky Pete” Robinson, “Dyno” Don Nicholson, Sox & Martin, Dick Harrell, Dave Strickler, and many more. World champs and fan favorites all drove Chevys. The success showed in the record books. No brand has won more races and events or has set more national records than Chevrolet. And unlike the other manufacturers, Ford and Chrysler, it was done with little to no factory support. Whether you are a hardcore Chevy fan or just love catching up on the history of drag racing during the golden age, this nostalgic look at Chevy racing history is sure to entertain for hours on end.

Shirley Shahan Patrick Foster, 2021-12-06 Meet drag racing legend and pioneer Shirley Shahan, the Drag-On Lady! As the first woman to win an NHRA national event when she was named Top Stock Eliminator at the 1966 Winternationals, Shahan blazed a trail for women in drag racing. During the golden era of drag racing, it was rare to find diversity in the sport. Shahan is what's commonly known as a living legend. In a career that spanned the 1950s and into the early 1970s, Shahan drove 1956 and 1958 Chevys and was one of the lucky few who was able to purchase one of the rare 1963 Chevrolet RPO Z11 Super Stockers. Later, when she was driving for Plymouth and Dodge, Shahan made the name Drag-On Lady both famous and feared. She then moved to American Motors and raced very successfully with the new SS/AMX. From 1958 to 1972, Shahan set records and won numerous awards. She was inducted into the International Drag Racing Hall of Fame, Super Stock Magazine Hall of Fame, and Mopar Hall of Fame, and she was honored with a lifetime achievement award at the Bakersfield racetrack. In addition, Shirley won the Top Stock category at the very first March Meet at the legendary the Famoso Raceway track near Bakersfield, California, which made her the first person (male or female) to do so. In 1966, she was the named one of Hot Rod magazine's Top 10 Drivers. She raced against the best drivers during the golden age of drag racing and more often than not blew off the doors of her opponents. She had a fierce passion for winning, and in this book, you'll feel what it was like to be behind the wheel as she steers you through her illustrious career. Fasten your seat belt; it's going to be a wild ride.

Quarter-Mile Mustangs Doug Boyce, 2022-05-15 Blast down the quarter mile in the first two generations of Ford's legendary pony car across all drag racing classes in Quarter-Mile Mustangs! Since first becoming a mass-market success in mid-1964, the Ford Mustang has made millions of passes down the quarter mile on sanctioned drag strips. With styling flared toward the youth, aftermarket parts manufacturers saw an enormous opportunity to produce go-fast components to aid in propelling Ford's pony car down the 1320. The success of these cars was immediate. In the hands of successful and seasoned pros, such as Gas Ronda, Bill Lawton, and Dick Brannan, Ford unleashed the devastatingly potent 1965 A/FX Mustang fastback, which was built by Blue Oval stalwarts Holman & Moody with the 427 SOHC (Cammer) engine that unleashed havoc on mother Mopar. From those very first factory drag cars through the fabled 1968-1/2 Cobra Jets, drag racing historian Doug Boyce highlights the many successes of pioneers, such as “Dyno” Don Nicholson, Les Ritchey, Phil Bonner, Hubert Platt, and Al Joniec. However, it's not just all doorslammers. As A/FX transitioned into Funny Car, a whole new chapter in Mustang drag racing was written with Mickey Thompson taking the reins and steering Mustangs to success throughout the late 1960s and early 1970s. The muscle car-era Mustangs joined the Mustang II and soldiered on the best they could as ever-changing rules hampered Ford's new pony body, with drivers Bob Glidden and Nicholson trying to squeeze every bit of performance out of the diminutive pony. Quarter-Mile Mustangs: The History of Ford's Pony Car at the Drag Strip 1964-1/2-1978 brings forth the most in-depth coverage of these cars at the drag strip. Don't get caught sleeping at the light!

Dyno Don Doug Boyce, 2018-07-16 Many fans of drag racing consider the most interesting era to be from the 1950s through the 1970s, the years when the sport really took off. During that period, so much changed from a speed and technology standpoint that people often refer to this time as the golden age of drag racing. Drivers often became associated with a particular manufacturer, such as Chevy, Ford, or Chrysler through sponsorship, factory team rides, or sometimes simply their own preference. The more successful drivers became household names in the drag racing community. Chevy had Grumpy Jenkins, Pontiac had Arnie the Farmer Beswick, Mopar had Sox & Martin and Dandy Dick Landy, and Ford's most successful driver of the era was the legendary Dyno Don Nicholson. Nicholson's first wins on a national level were actually in the early 1960s in Chevrolet products. He became extremely successful on the match-race circuit. Then, in 1964, he switched over to Mercury with the new Comet after General Motors enacted a factory ban on racing activities. He won 90 percent of his match races that year. He stuck with Ford and Mercury products and won throughout the 1960s and 1970s, even after Ford also pulled the plug on factory team sponsorship. He made it to the final rounds in nearly 50 national events during that period, in addition to winning championships, awards, and match races along the way. If you are a fan of a certain era of racing, a Ford fan, or certainly a Dyno Don fan, this book will be a welcome addition to your library.

Gasser Wars Larry Davis, 2007-08 This book covers the cars, the drivers, and the evolution of the street classes. In the late 1950s, thousands of street legal hot rods participated in organized drag races across the country -- As the racers got more serious, these cars were street legal in appearance only. In reality they were full-on race cars, with blown Hemi engines, racing slicks, and raised front suspensions. Racers soon discovered that small, lightweight cars were the fastest, and the classic Gasser was born .

1001 Drag Racing Facts Doug Boyce, 2015 Spanning the 1950s through the 1980s, 1001 Drag Racing Facts is packed with well-researched drag racing facts that even some of the most hard-core drag racing fans might be surprised to

learn. Covered are all the popular classes of racing of the era, including Top Fuelers, Funny Cars, Pro Stocks, Eliminators such as Gassers and Altereds, Stocks, Super Stocks, and more. Fans of these legendary cars will appreciate the technical and entertaining information shared on every page about all of the great cars, teams, drivers, and classes. Author Doug Boyce is well known for his encyclopedia-like knowledge of drag racing facts. The detail in his previous books, such as Grumpy's Toys, Junior Stock and Drag Racing's Quarter Mile Warriors: Then and Now, proves he is up to the task of sharing everything you never knew about drag racing in the golden era. Whether you're an avid fan of nostalgia drags, a trivia buff who wants to stump friends, or simply a fan of the big and powerful drag cars of the 1950s through the 1980s, this book is an informative and entertaining collection of facts from one of the industry's most respected sources.

Slingshot Dragsters of the 1960s Photo Archive Lou Hart, 2005-10-16 In the early 60s, front-engine dragsters, or slingshots, featured tubular built chassis powered by a variety of power plants, consisting of small-block Chevrolets, Chrysler Hemi's, Ford, Pontiac, Cadillac, Oldsmobile, and Lincoln motors either fueled on Nitro Methane or pump gas. Wheelbases varied from 110 inches in 1962 to over 200 inches in 1969. During the early sixties, racing legend Big Daddy Don Garlits ran a series of Swamp Rat dragsters which not only dominated the quarter-mile, but many of his creations were made by using experimental aerodynamic parts to give better traction and faster speeds. During a fuel ban from the late 50s to the early 60s, many chassis builders utilized a two-engine power plant to gain more power that was lost due to running pump gas instead of fuel. One of the most popular twin-engine dragsters was the Fright Train, powered by twin small-block Chevrolets. The dragster was driven by 16-year-old Bob Muraviez who used the alias name of Floyd Lippencott, Jr. to fool his parents who did not approve of his racing. Near the end of the 60s, the Chrysler Hemi came to dominate Top-fuel racing, as it produced tremendous torque and horsepower. These dragsters were the quickest accelerating vehicles in motorsports. Elapsed times in the quarter-mile were ranging from the 8-second bracket in the early 60s to the low 7's late in the decade with speeds over 200 mph. In 1970 at the AHRA Nationals at Lion's Dragstrip (Long Beach, CA), Don Garlits experienced a violent clutch explosion that cut his dragster in two and severed a portion of Don's right foot. After being sidelined for several months, Don returned to racing with an innovative rear-engine, top-fuel dragster, which would eventually spell demise for the front-engine dragsters. Relive the 60s era of the front-engine dragster, nicknamed the slingshot for its aerodynamic design in crisp high quality color and black and white photos. Enjoy memorable moments from some of the famed drivers that are highlighted throughout this book.
