Common Lisp Recipes Edmund Weitz,2016-01-01 Find solutions to problems and answers to questions you are likely to encounter when writing real-world applications in Common Lisp. This book covers areas as diverse as web programming, databases, graphical user interfaces, integration with other programming languages, multi-threading, and mobile devices as well as debugging techniques and optimization, to name just a few. Written by an author who has used Common Lisp in many successful commercial projects over more than a decade, Common Lisp Recipes is also the first Common Lisp book to tackle such advanced topics as environment access, logical pathnames, Gray streams, delivery of executables, pretty printing, setf expansions, or changing the syntax of Common Lisp. The book is organized around specific problems or questions each followed by ready-to-use example solutions and clear explanations of the concepts involved, plus pointers to alternatives and more information. Each recipe can be read independently of the others and thus the book will earn a special place on your bookshelf as a reference work you always want to have within reach. Common Lisp Recipes is aimed at programmers who are already familiar with Common Lisp to a certain extent but do not yet have the experience you typically only get from years of hacking in a specific computer language. It is written in a style that mixes hands-on no-frills pragmatism with precise information and prudent mentorship. If you feel attracted to Common Lisp's mix of breathtaking features and down-to-earth utilitarianism, you'll also like this book.

Walt Disney Uncle Scrooge and Donald Duck: Treasure Under Glass Don Rosa,2015 In the latest volume of Don Rosa's Duck stories, Uncle Scrooge and the gang have undersea adventures.

**Creation, Translation, and Adaptation in Donald Duck Comics** Peter Cullen Bryan,2021-05-17 This book examines the scope and nature of Donald Duck and his family's popularity in Germany, in contrast to the diminished role they play in America. This is achieved through examination of the respective fan communities, business practices, and universality of the characters. This work locates and understands the aspects of translation and adaptation that inform the spread of culture that have as yet been underexplored in the context of comic books. It represents a large-scale attempt to incorporate adaptation and translation studies into comics studies, through a lens of fan studies (used to examine both the American and German fan communities, as well as the work of Don Rosa). This work builds on the efforts of other scholars, including Janet Wasko and Illaria Meloni, while expanding the historical understanding of what might be the world's best-selling comics. Peter Cullen Bryan is Lecturer at Pennsylvania State University, USA. His areas of study include American Studies, Intercultural Communications, and 21st Century American culture, emphasizing comic art and fan communities. His research has appeared in the Journal of Fandom Studies, The Journal of American Culture, and Popular Culture Studies Journal. He serves on the boards of the Mid-Atlantic Popular Culture Association and the Popular Culture Association, as well

as Secretary for the Intercultural Communication section of the International Communication Association.

Real Virtuality Ulrich Gehmann, Martin Reiche, 2014-06-30 Increasingly, the virtual became reality by a hybridization of the world as we knew it: the process that went on in recent years is one of a technically assisted hybridization of both space and self, the »old« world is becoming virtualized and functionalized to a degree never experienced before. For the first time in human history, we have reached a threshold where we have not only to re-assert but to redefine ourselves, as regards our fundamental terms of understanding what world means for us, our base of existence and now an assemblage of mixed realities; and connected, what being human means.

*Comics and the City* Jörn Ahrens, Arno Meteling, 2010-03-11 Comics emerged parallel to, and in several ways intertwined with, the development of modern urban mass societies at the turn of the 20th century. On the one hand, urban topoi, self-portrayals, forms of urban cultural memories, and variant readings of the city (strolling, advertising, architecture, detective stories, mass phenomena, street life, etc.) are all incorporated into comics. On the other hand, comics have unique abilities to capture urban space and city life because of their hybrid nature, consisting of words, pictures, and sequences. These formal aspects of comics are also to be found within the cityscape itself: one can see the influence of comic book aesthetics all around us today. With chapters on the very earliest comic strips, and on artists as diverse as Alan Moore, Carl Barks, Will Eisner and Jacques Tardi, *Comics and the City* is an important new collection of international scholarship that will help to define the field for many years to come.

**DuckTales: Solving Mysteries and Rewriting History!** Rob Renzetti, Rachel Vine, 2018-07-03 This original in-world novel details Scrooge's epic adventures and was written by Scrooge himself, who may or may not be the most reliable narrator. Good thing Huey, Dewey, Louie, and Webby are around to fact-check his journal entries and infuse the truth into his tall tales! This hilarious middle grade novel features everything from tips on mastering the Money Pit Dive to ways of keeping Scrooge's Lucky Number-One Dime safe.

*Walt Disney Uncle \$crooge and Donald Duck* Don Rosa, 2017 In this volume's adventures, Scrooge McDuck searches for a lost city, the Money Bin blasts off into space, super villains team up, and much more.

*Hidden Topographies* Raphael Zähringer, 2017-04-24 This book examines dystopian fiction's recent paradigm shift towards urban dystopias. It links the dystopian tradition with the literary history of the novel, spatio-philosophical concepts against the backdrop of the spatial turn, and systems-theory. Five dystopian novels are discussed in great detail: China Miéville's *Perdido Street Station* (2000) and *The City & The City* (2009), *City of Bohane* (2011) by Kevin Barry, John Berger's *Lilac and Flag* (1992), and *Divided Kingdom* (2005) by Rupert Thomson. The book includes chapters on the literary history of the dystopian tradition, the referential interplay of maps and literature, urban spaces in literature, borders and transgressions, and on systems-theory as a tool for charting dystopian fiction. The result is a detailed overview of how dystopian fiction constantly adapts to – and reflects on – the actual world.

Neutrino Drag Paul Di Filippo, 2014-04-01 This story collection “showcases that lighter side of Paul Di Filippo . . . with some memorable moments of brilliant wit and storytelling” (Infinity Plus). With twenty tales, a bold lack of restraint, and amazing stylistic diversity, Di Filippo makes strange bedfellows of a range of characters—from Jayne Mansfield to Pythagoras to Disney “imagineers” to the Virgin Mary—fit together inside a bountiful collection of surprises, humor, and the very, very strange. William Gibson has identified his writing as “spooky, haunting, and hilarious,” and after you absorb all the shocks, you will inevitably agree.

**Forgotten Disney** Kathy Merlock Jackson, Carl H. Sederholm, Mark I. West, 2023-06-28 This work demonstrates that not everything that Disney touched turned to gold. In its first 100 years, the company had major successes that transformed filmmaking and culture, but it also had its share of unfinished projects, unmet expectations, and box-office misses. Some works failed but nevertheless led to other more stunning and lucrative ones;

others shed light on periods when the Disney Company was struggling to establish or re-establish its brand. In addition, many Disney properties, popular in their time but lost to modern audiences, emerge as forgotten gems. By exploring the studio's missteps, this book provides a more complex portrayal of the history of the company than one would gain from a simple recounting of its many hits. With essays by writers from across the globe, it also asserts that what endures or is forgotten varies from person to person, place to place, or generation to generation. What one dismisses, someone else recalls with deep fondness as a magical Disney memory.

*Disney Library* Walt Disney, 1983 Disney characters travel in many different kinds of transportation.

**Disney DuckTales: Woo-oo! Cinestory Comic** Disney, 2018-05-08 After ten years of not speaking to each other, Scrooge McDuck and his nephew, Donald Duck, reunite when Donald needs help caring for his nephews, Huey, Dewey, and Louie. The boys can't believe they get to meet the richest duck in the world, and are even more thrilled when they realize he is actually their estranged uncle! With the help of Webby Vanderquack, Huey, Dewey, and Louie rekindle Scrooge's sense of adventure and embark on the quest of a lifetime to the Lost City of Atlantis. Experience all the danger and derring-do of the animated series with this cinestory comic adaptation of Disney XD's all-new Disney DuckTales. Woo-oo!

*Framing Education* Lars Wallner, 2019-01-22 Interest in comics as Swedish school material has risen in the last few years and the publication of comics for children and adolescents has also increased. Meanwhile, although research around new literacies has taken an interest in combinations of image and text, there is still little research on comics as a literacy material, especially as part of school practices. With comics' rise in popularity, and their quality as examples of new literacies, this points to the relevance of exploring how meaning making with comics is done in schools. The purpose of this study is to contribute knowledge on how locally situated literacy practices are done, practices in which pupils and teachers make meaning with comics. The study combines literacy, comics and discursive psychology to investigate aspects of literacy not as individual, inner workings, but as part of participants' social constructions, in line with New Literacy Studies. With this perspective, it is possible to investigate literary concepts such as narrative, and participants' construction of story elements, through the way in which these aspects are utilized by participants to construct social action – what participants do with their utterances. To study this, video recordings have been made in one primary and one secondary school, in two different Swedish cities. The results of the study show constructions of a comics literacy, where participants engage with both visual and textual aspects of the material and negotiate focalization of narrative perspective and construction of narrative structure as well as narrative devices such as speech and thought bubbles. Furthermore, meaning making of comics literacy also includes the construction of discourses around comics as a specific type of story telling, either for material or literary reasons. The thesis discusses how participants construct classroom literature, and provides insight into how interaction around comics enables participants to construct and negotiate discourses around what comics literacy is and what it enables, as well as how to talk about, create, and read comics. *Intresset för serier som svenskt skolmaterial har stigit de senaste åren och publiceringen av serier för barn och ungdomar har också ökat. Även om forskning om new literacies har intresserat sig för kombinationer av bild och text så finns det fortfarande lite forskning på serier som literacymaterial, speciellt som en del av skolpraktik. Med det stigande intresset för serier och deras kvaliteter som exempel på new literacies, så pekar detta mot att det finns en relevans i att utforska hur meningsskapande med serier görs i skolan. Syftet med denna studie är att bidra med kunskap om hur lokalt situerad literacypraktik görs där elever och lärare skapar mening med serier. Studien kombinerar forskning om literacy, serier och diskursiv psykologi för att, i linje med New Literacy Studies, undersöka aspekter av literacy som en del av deltagarnas sociala konstruktioner – inte som ett individuellt, mentalt fenomen. Med detta perspektiv är det möjligt att undersöka litterära koncept som narrativ och deltagares konstruktion av berättelseinslag, genom det sätt på vilka dessa aspekter används av deltagare för att interagera – vad deltagare gör när de säger något. För att studera detta har videoobservationer använts i en lågstadieskola och en högstadieskola i två olika*

svenska städer. Resultaten från studien demonstrerar konstruktioner av serie-literacy där deltagarna engagerar sig i både text och bild i materialet, diskuterar berättandeperspektiv och konstruktioner av narrativ struktur, såväl som berättarverktyg, t.ex. prat- och tankebubblor. Därutöver inkluderar serie-literacy också deltagarnas skapande av seriediskurser där serier görs till en specifik typ av berättande, antingen på materiell eller litterär basis. Avhandlingen diskuterar hur deltagare konstruerar klassrumslitteratur, och studien erbjuder en insikt i hur interaktion runt serier möjliggör för deltagare att konstruera och förhandla diskurser om vad serieliteracy är och vad det erbjuder för möjligheter, såväl som hur deltagare kan prata om, skapa och läsa serier.
