I Love Jesus, But I Want to Die Sarah J. Robinson,2021-05-11 A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and

color drains from your world, you're left wondering if God has abandoned you. You just want a way out. But there's hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn't look like what you expect.

This Is How You Die Matthew Bennardo, David Malki !, Ryan North, 2013-07-16 If a machine could predict how you would die, would you want to know? This is the tantalizing premise of *This Is How You Die*, the brilliant follow-up anthology to the self-published bestseller, *Machine of Death*. *THIS IS HOW YOU DIE* Stories of the Inscrutable, Infallible, Inescapable Machine of Death The machines started popping up around the world. The offer was tempting: with a simple blood test, anyone could know how they would die. But the machines didn't give dates or specific circumstances—just a single word or phrase. DROWNED, CANCER, OLD AGE, CHOKED ON A HANDFUL OF POPCORN. And though the predictions were always accurate, they were also often frustratingly vague. OLD AGE, it turned out, could mean either dying of natural causes, or being shot by an elderly, bedridden man in a botched home invasion. The machines held onto that old-world sense of irony in death: you can know how it's going to happen, but you'll still be surprised when it does. This addictive anthology—sinister, witty, existential, and fascinating—collects the best of the thousands of story submissions the editors received in the wake of the success of the first volume, and exceeds the first in every way.

Amber doesn't remember what happened, but she has a suspicion her husband had something to do with it. Alternating between her paralyzed present, the week before her accident, and a series of childhood diaries from twenty years ago, this brilliant psychological thriller asks: Is something really a lie if you believe it's the truth?
