**Spinneret** Timothy Zahn,2012-10-16 A “brisk and entertaining” novel of a barren, mysterious planet that may save humanity—or destroy it—by the author of *Star Wars: Heir to the Empire* (Publishers Weekly). Chasing a new frontier, humankind sends a manned starship into the universe and away from the overpopulated Earth in hopes of finding a new planet to colonize. But every Earthlike world they discover is already inhabited. As it turns out, the universe is a very crowded place. An alien council offers to lease the one remaining uninhabited world: Astra, a bleak and barren but serviceable planet. The new settlement, though, quickly experiences serious problems, from dying crops to the mysterious disappearance of anything and everything that is made of metal. And then Astra reveals a secret neither the aliens nor the human governments could ever have imagined.

*Extreme Hauntings* Paul Adams,Eddie Brazil,2013-03-15 The most terrifying British ghosts are brought

together in this, a unique and original compilation of spine-chilling true encounters both ancient and modern. Not for the faint of heart, this book contains over thirty compelling experiences that reveal a dark and disturbing reality to the realm of the paranormal – deadly curses and murderous ghosts, violent poltergeists, haunted relics and spirit possession – all unsettling insights into a frightening supernatural world. From the mysterious happenings at Hinton Ampner to the eerie Black Monk of Pontefract, the celebrated Enfield Poltergeist and the sinister power of the Hexham Heads, paranormal historian Paul Adams and writer and photographer Eddie Brazil have opened case files spanning over 250 years, from the eighteenth century to the present day, in order to carry out a detailed and chilling examination of the extreme hauntings of Britain.

Teaching for Aesthetic Experience Gene Diaz, Martha McKenna, 2004 The artist/educators in this book invite you to come with them on a journey of discovery into the meaning of teaching for aesthetic experience. With learning as their art, they create educational encounters with passion and feeling, and leave their students with vivid impressions, growth, and change. Each author engages in aesthetic experience from an individual perspective - as poet, dancer, visual artist, or musician - and each of them engages as an educator who brings art into his or her classroom, no matter what the subject. Inspired by the words of philosopher Maxine Greene, the contributors transform the theoretical into the practical, urging students to look to the arts and nature for simple beauty, and awaken their minds to new possibilities of creative learning.
