The theory of the kingdom: A unified model of human agency

Andrew Root,2024-01-02 This original monograph presents a comprehensive theory regarding the economy of the kingdom of God. The theory and associated model will help individuals make better choices. The research integrates fundamentals of the temporal real economy, and the permanent economy of the kingdom of God, to present a unified model of human agency. According to the model, effective agents are salt and light in the real economy, arresting corruption and revealing the truth. Effective agency produces life, peace, and growth. Individual and organizational practices that arrest corruption and reveal truth can resolve longstanding economic grievances. The list of spiritual credence goods is extensive and includes commonly known virtues such as humility, patience, and hope. Spiritual goods are allocated based on the owner-agent relationship. The quantity of goods the owner supplies is in proportion to an individual's sacrificial offering of time and money. Spiritual goods are stored as heart capital. In a process analogous to the real economy, heart labor applied to heart capital produces desirable outputs. The owner relates to his agents through a heart-inscribed behavioral contract. The owner generally intervenes in the real economy by communicating with agents rather than by restricting choice. Prior studies across economics, finance, and sociology prove the efficiency of behavioral contracts and communication over restricted choice. Herein researchers will find new testable propositions, and practitioners will find new ideas and practices to live better, more consequential lives. Examples of practical applications include methods of resolving group-level bias and understanding the purpose of life's difficulties.

Metaphors for Leading - Leading by Metaphors Stefan Jung, Volker Kessler, Louise Kretzschmar, Elke Meier, 2019-06-17

Führung und Organisation sind komplexe Phänomene, die oftmals durch Metaphern beschrieben werden. Zunehmend interessieren sich Theorie und Praxis für ihre Verwendung. Wie sehen sich Führungskräfte selbst und wie werden sie von anderen metaphorisch beschrieben? Gängige Sprachbilder reichen vom Gärtner und Coach bis hin zum Macher oder Priester. Alle diese Bilder sollen helfen, die zugrunde liegende Sichtweise auf Führung und Organisation zu beschreiben und geben einen Einblick, wie Führung von unseren metaphorischen Weltbildern beeinflusst wird. Wenig Aufmerksamkeit erfuhren bisher kulturelle Unterschiede bei der Verwendung von Metaphern im Bereich Führung und Organisation. Wie können wir die verborgenen Metaphern, die unser Denken unterbewusst prägen, an die Oberfläche bringen? Wie können wir alte Metaphern der Führung in einer modernen und globalisierten Welt nutzen? Der vorliegende Band dokumentiert die zentralen Ergebnisse einer interdisziplinären Konferenz zu Metaphern und Führung, an der Wissenschaftler und Wissenschaftlerinnen aus Afrika, Asien, Europa und Nordamerika teilgenommen haben. Metaphors are used increasingly in leadership theory and leadership development. How do leaders view themselves and how are they seen by others in terms of metaphors? One can find a wide range described in publications and on coaching websites. They range from gardener and coach, to manager or priest. They all help describe the underlying view on leadership and give insight into how leadership is influenced by our metaphorical view of the world. However, little work has been done on describing the influence of cultural perspectives in metaphors used in the area of leadership and organisations. How can we bring to the surface the hidden metaphors that shape our thinking subconsciously? How can we utilise old metaphors of leadership in a new and globalised world? This volume documents

the central results of an interdisciplinary conference on metaphors and leadership in which scientists from Africa, Asia, Europe and North America took part.
