William Lowthian Green

The Sea-Earth Globe and its Monstrous Hypothetical Motions; or Modern Theoretical Astronomy Zetetes,2020-07-14 This is part II of “Is The Earth a Whirling Globe?”, first published in 1918. Within this volume, the author takes a look at contemporary theoretical astronomy with reference to the shape of the world, claiming and trying to prove that the world is in fact not a globe. With reference to contemporary as well as historical astronomers and others, this volume will appeal to those with an interest in the development of astronomical theories as well as “flat earth theory”. Contents include: “Perspective, True and False”, “Ships Climbing, Both Ways”, “Still Mounting Upwards”, “Curvature, of Dip”, “The Three Poles Trick”, “Circumnavigation”, “The Earth’s Supposed Elliptical Orbit”, “Cycloidal Curves”, “The Sun’s Size”, “The Sun’s Distance, and Focussed Image”, etc. Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this volume today in an affordable, modern edition complete with a specially-commissioned new introduction on architecture.

The Globe Earth System Poster Learning Activities Commerce Department, NOAA,2010-10-22 The activities in this guide will help students understand variation in environmental parameters by examining connections among different phenomena measured on local, regional and global scales.

Earth Not a Globe Parallax (Samuel Birley Rowbotham),

Maps and Globes Jack Knowlton,1986-05-23 Maps and globes can take you anywhere -- to the top of the tallest mountain on earth or the bottom of the deepest ocean. Maps tell you about the world: where various countries are located, where the jungles and deserts are, even how to find your way around your own hometown. If you take a fancy to any place on earth, you can go there today and still be home in time for dinner. So open a map, spin a globe. The wide world awaits you.

One Hundred Proofs that the Earth is Not a Globe William Carpenter,2020-07-14 First published in 1895, this volume contains a series of arguments against the idea that the world is round. The belief that the Earth is flat and not a globe existed in many ancient civilisations, but we now know that this is not true. However, even today there are those who believe in a flat earth, just as there was when ideas of a spherical earth were relatively new. Within this book, the author explains why these new ideas of the planet as a globe are absurd, with interesting examples and explanations as to precisely why. Highly recommended for those with an interest in Flat Earth theory and the history of astronomy. Contents include: “Ships 'Going Down!'", “How Much Longer Will it Be?”, “Absurd Theory!”, “No Proof to be Had”, “When the Man Has Time!”, “Earth A Globe”, “The Scientific Wager of 1870”, “Our Opponents Ways and Means”, etc. Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this book today in an affordable, modern edition complete with the original text and artwork.

One Hundred Proofs That the Earth Is Not a Globe William Carpenter,2022-08-10 One Hundred Proofs the Earth is Not a Globe is a book by an English printer and author in which he concludes his research on the flat-Earth theory, which he developed throughout his life. The book presents his considerations and calculations of sea levels, cartography, rivers, and other natural phenomena that are the basis of the flat Earth theory. It also contains references to ancient writings from different nations of the world.

Zetetic astronomy. Earth not a globe! an experimental inquiry into the true figure of the earth, by 'Parallax'. Samuel Birley Rowbotham,1865

Earth Not a Globe Henry James Goudey,1930

The Globe's Upside Kwabena Amen,2009-04 Why is north considered up? How did cartographers arrive at this conclusion? What if south was scientifically shown to be upwards? Why are humans collectively killing the very planet that is providing them with the sustenance and experience of manifested life? Could this be due to incorrect global perspectives? You would not get into a vehicle, turn the ignition, put into first gear, and proceed to travel whilst looking through the rear windscreen; orienting yourself as if the back of your vehicle was the front, would you? Yet, this is like what we do everyday when we orient globes and maps of Earth with north as up! Incorrect perspectives lead to accidents! Are you ready to re-evaluate from scratch, all that you've been taught about the world? Using everyday examples, Kwabena Amen presents a world-correcting idea - that Trilocation, Earth's third-orbit through space, determines that Antarctica, and the South Pole, is in fact up, or top of the planet!
