The Easter Computus and the Origins of the Christian Era Alden A. Mosshammer,2008-10-16 The system of numbering the years AD (Anni Domini, Years of the Lord) originated with Dionysius Exiguus. Dionysius drafted a 95-year table of dates for Easter beginning with the year 532 AD. Why Dionysius chose the year that he did to number as '1' has been a source of controversy and speculation for almost 1500 years. According to the Gospel of Luke (3.1; 3.23), Jesus was baptized in the 15th year of the emperor Tiberius and was about 30 years old at the time. The 15th year of Tiberius was AD 29. If Jesus was 30 years old in AD 29, then he was born in the year that we call 2 BC. Most ancient authorities dated the Nativity accordingly. Alden Mosshammer provides the first comprehensive study of early Christian methods for calculating the date of Easter to have appeared in English in more than one hundred years. He offers an entirely new history of those methods, both Latin and Greek, from the earliest such calculations in the late second century until the emergence of the Byzantine era in the seventh century. From this history, Mosshammer draws the fresh hypothesis that Dionysius did not calculate or otherwise invent a new date for the birth of Jesus, instead adopting a date that was already well established in the Greek church. Mosshammer offers compelling new conclusions on the origins of the Christian era drawing upon evidence found in the fragments of Julius Africanus, of Panodorus of Alexandria, and in the traditions of the Armenian church.

Easter for Progressive Christians Donald Schmidt,2020-01-10 So what really happened that first Easter Sunday? The simple answer is that no one knows... only a problem if one is trying to prove that each of the stories is factually accurate. If we suspend that attempt for a moment and read the Easter stories in the gospels for what they are – profound statements of faith – we may discover something much more powerful and lasting... Few stories in the entire pantheon of literature evoke as much emotion as the gospel accounts of the resurrection of Jesus. For many Christians, these are the quintessential texts, the ones that define Christianity, their personal faith, and the whole of human existence. That’s a lot to put onto a few simple stories! When using this study, therefore, it will be helpful to have a sense of where participants are coming from. Are they a mixed group with ideas that are all over the theological map? Do they tend to approach the stories as metaphor and take the stance that the resurrection could not possibly have happened? Do they take it literally and believe that things must have happened exactly as they are recorded? Do they feel that there is some point to reading these stories, even though they leave us with more questions than answers? People’s ideas may differ – slightly or greatly – and that’s okay. The point of doing this study is not so that everyone comes out with the same belief, nor is it to convince anyone, at any time, that they must believe one thing or another. The purpose of this study is to explore these powerful faith stories so that they might in turn inform and enhance our daily living.
