Star Worlds William Sims Bainbridge,2016-10-19 A ground-breaking look at the paradox of technology to both liberate and enslave our current culture by noted scholar William Sims Bainbridge

The Old Republic Series: Star Wars Legends 4-Book Bundle Sean Williams,Paul S. Kemp,Drew Karpysyn,2016-03-15 Not just an epic videogame from BioWare and LucasArts, Star Wars: The Old Republic™ spawned a New York Times bestselling series of novels—which are now together in one electrifying ebook bundle. Fatal Alliance, Deceived, Revan, and Annihilation tell four daringly original stories of Jedi and Sith that embody this unique, beloved era in Star Wars Legends storytelling. . . . FATAL ALLIANCE by Sean Williams From across the galaxy they've come: a Jedi Padawan, an ex-trooper drummed out of the Republic's elite Blackstar Squad, and a mysterious Mandalorian. An extraordinary auction has drawn them all together, in quest of a prize whose value may be the wealth of a world itself. None intend to leave empty-handed. All have secrets, desires, and schemes. And nothing could ever unite them as allies—except the truth about the deadly danger of the object they covet. But can Sith and Jedi, Republic and Empire, join as one against the certain doom of the galaxy? DECEIVED by Paul S. Kemp A Sith warrior to rival the most sinister of the Order's Dark Lords, Darth Malgus brought down the Jedi Temple on Coruscant in a brutal assault that shocked the galaxy. But if war crowned him the darkest of Sith heroes, peace will transform him into something far more heinous—something Malgus would never want to be but cannot stop becoming, any more than he can stop the rogue Jedi fast approaching. Her name is Aryn Leneer—and the lone Jedi Knight that Malgus cut down in the fierce battle for the Jedi Temple was her Master. REVAN by Drew Karpysyn Hero, traitor, conqueror, villain, savior—Revan has been all of these. He left Coruscant a Jedi, on a mission to defeat the Mandalorians. He returned a Sith disciple, bent on destroying the Republic. The Jedi Council gave Revan his life back, but the price of redemption was the loss of his memories. All that's left are nightmares—and deep, abiding fear. One thing he's certain of: Something very dark is plotting against the Republic. With no idea how to identify the threat, let alone stop it, Revan may be doomed to fail. But only death can stop him from trying. ANNIHILATION by Drew Karpysyn After his triumphant destruction of a Sith superweapon arsenal, covert agent Theron Shan is recruited for an even more dangerous mission. A power struggle has the Empire in flux, but Darth Karrid remains bent on total domination, using a fearsome Imperial cruiser in her reign

of terror. Now, joined by a hotheaded smuggler and Karrid's former Jedi Master, Theron must match wits and weapons with a crew of the most cold-blooded dark side disciples. And if they don't seize their one chance to succeed, they will have countless opportunities to die.

Revan: Star Wars Legends (The Old Republic) Drew Karpysyn,2011-11-15 There's something out there: a juggernaut of evil bearing down to crush the Republic— unless one lone Jedi, shunned and reviled, can stop it. Revan: hero, traitor, conqueror, villain, savior. A Jedi who left Coruscant to defeat Mandalorians—and returned a disciple of the dark side, bent on destroying the Republic. The Jedi Council gave Revan his life back, but the price of redemption was high. His memories have been erased. All that's left are nightmares—and deep, abiding fear. What exactly happened beyond the Outer Rim? Revan can't quite remember, yet can't entirely forget. Somehow he stumbled across a terrible secret that threatens the very existence of the Republic. With no idea what it is, or how to stop it, Revan may very well fail, for he's never faced a more powerful and diabolic enemy. But only death can stop him from trying. Features a bonus section following the novel that includes a primer on the Star Wars expanded universe, and over half a dozen excerpts from some of the most popular Star Wars books of the last thirty years!

Computer Simulations of Space Societies William Sims Bainbridge,2018-06-09 At the intersection of astronautics, computer science, and social science, this book introduces the challenges and insights associated with computer simulation of human society in outer space, and of the dynamics of terrestrial enthusiasm for space exploration. Never before have so many dynamic representations of space-related social systems existed, some deeply analyzing the logical implications of social-scientific theories, and others open for experience by the general public as computer-generated virtual worlds. Fascinating software ranges from multi-agent artificial intelligence models of civilization, to space-oriented massively multiplayer online games, to educational programs suitable for schools or even for the world's space exploration agencies. At the present time, when actual forays by humans into space are scarce, computer simulations of space societies are an excellent way to prepare for a renaissance of exploration beyond the bounds of Earth.

Dungeons, Dragons, and Digital Denizens Gerald A. Voorhees,Joshua Call,Katie Whitlock,2012-02-16 Dungeons, Dragons, and Digital Denizens is a collection of scholarly essays that seeks to represent the far-reaching scope and implications of digital role-playing games as both cultural and academic artifacts. As a genre, digital role playing games have undergone constant and radical revision, pushing not only multiple boundaries of game development, but also the playing

strategies and experiences of players. Divided into three distinct sections, this premiere volume captures the distinctiveness of different game types, the forms of play they engender and their social and cultural implications. Contributors examine a range of games, from classics like Final Fantasy to blockbusters like World of Warcraft to obscure genre bending titles like Lux Pain. Working from a broad range of disciplines such as ecocriticism, rhetoric, performance, gender, and communication, these essays yield insights that enrich the field of game studies and further illuminate the cultural, psychological and philosophical implications of a society that increasingly produces, plays and discourses about role playing games.
