called the Doctor -- nothing more. But something deep inside tells him to trust the TARDIS, and his hands move over the controls of their own accord. The TARDIS takes him to a strangely familiar junkyard in late-nineties London, where he is flung into a confrontation between local drug-dealers and Samantha Jones, a rebellious teenage from Coal Hill School. But the Doctor soon finds the TARDIS transporting him to various other places in order to recover all of his memories -- and that involves seeing seven strangely-familiar faces.--Page 4 of cover.

The Face Eater Simon Messingham,1999 When the Doctor and Sam arrive on Proxima II they find a settlement rife with superstition and unrest. While the Doctor is horrified to learn the full extent of the side-effects brought into being by Roley's research, Sam heads off to experience the swinging London of her parents' youth. Instead she finds deadly danger at the hands of a sinister half-man half-robot double act whose agenda is inextricably linked to Roley's test subjects.

Genocide Paul Leonard,1997 Years after leaving UNIT, Jo Grant receives a plea for help from an old acquaintance. A palaeontological study of the earliest known humans is apparently under threat from a UNIT force led by a captain who does not officially exist. Investigating further, she begins to find herself out of her depth -- and out of the twentieth century altogether. Meanwhile, the Doctor and Sam visit Earth in 2109 -- but there is no trace of the human race. Earth is the home of the Tractites, a peaceful race who have been living there for hundreds and thousands of years. Astonished and appalled, the Doctor travels back in time to see just what went wrong in Earth's pre-history. Why have Jo and the expedition been taken back in time? Are the Tractites all they seem? Finally, separated from the TARDIS, the Doctor's last chance to put things right rests with Sam -- but has even she turned against him?--Page 4 of cover.
