*Colossus Reborn* David M. Glantz,2005 Beyond the battles themselves, Glantz also presents an in-depth portrait of the Red Army as an evolving military institution. Assessing more clearly than ever before the army's size, strength, and force structure, he provides keen insights into its doctrine, strategy, tactics, weaponry, training, officer corps, and political leadership. In the process, he puts a human face on the Red Army's commanders and soldiers, including women and those who served in units - security (NKVD), engineer, railroad, auto-transport, construction, and penal forces - that have till now remained poorly understood.--BOOK JACKET.
