For the Sins of My Father Albert DeMeo,2003-09-09 A suspenseful, emotionally charged real-life Sopranos: The son of New York's most notorious Mafia killer reveals the conflicted life he led being raised by a cold-blooded murderer, who was also a devoted family man, and the wrenching legacy of Mafia family life. Al DeMeo will never forget the day in 1992 when a coworker, a fellow trader at the New York Stock Exchange, taunted him with a copy of the hot new book Murder Machine, chronicling the horrific criminal life of DeMeo's father, Roy, the head of the most deadly gang in organized crime. The moment sent DeMeo into a psychological tailspin: How could he have spent his life looking up to, and loving, a vicious killer? For the Sins of My Father recounts the chilling rise and fall of the man who led the Gambino family's most fearsome killers and thieves, through the eyes of a son who had never known any other kind of life. Coming of age in an opulent Long Island house where money is abundant but its source is unclear, Al becomes Roy's confidant, sent to call in loans at age fourteen and gradually coming to understand his father's job description--loan shark, car thief, porn purveyor and, above all, murderer. But when Al is seventeen, Roy's body is found in the trunk of a car, a gangland slaying that places Al between federal prosecutors seeking his testimony and a mob crew determined to keep him quiet. Desperate to abide by the father-son bond, but equally determined to escape his father's dangerous and doomed life, Al DeMeo embarks on a courageous quest for the truth, reconciliation, and honor. With the implacable narrative drive of a thriller and the power of a painfully honest memoir, For the Sins of My Father presents a startling and unprecedented perspective on the underworld of organized crime, exposing for the first time the cruel legacy of a Mafia life.

HANAMONOGATARI NISI0ISIN,2019-10-08 Our sorry hero, his reformed girlfriend, and the amnesiac class president have all graduated from their high school out in the boondocks, and self-described Sapphist and ex-basketball ace Kanbaru, retired by reason of an "injury," is starting her senior year and the narrator of this volume--her voice far more introspectivethan the smutty jock's we thought we knew. Bereft of the company of her beloved mentors, the only other person around her with any working knowledge of aberrations the junior Ogi Oshino, apparently a relative of the Hawaiian-shirted folklorist, she feels a bit alone and blue, and sick with dread that the devil residing in her left arm courtesy of the Monkey's Paw might act up again while she sleeps. Investigating a rumor that she fears might lead back to her, the former star ends up peering into an abyss of negativity called Roka--a "wax flower" to take the characters' meaning. Trapped in a pit the like of which could only be escaped by the one girl who was able to pull off slam-dunks in her basketball nationals, can the penitent Kanbaru, however, still be aggressive?

Metal, Rap, and Electro in Post-Revolutionary Tunisia Stefano Barone,2019-04-23 Metal, Rap, and Electro in Tunisia is a trip into the music scenes of Tunisia after the Arab Springs. Based on extensive field research, the book explores the social life of heavy metal, rap, and electronic music in a North African country whose mass revolution of 2010/2011 led the way to a troubled and yet unique democracy. What is it like to be part of a music scene in a place affected by poverty and inequality? How do the many conflicted souls of Tunisian Islam shape local metal, rap, and electro? What are the social and cultural stakes for music in a nation constantly represented as a bridge between Europe and the Middle East? How do music scenes articulate the complex political scenario that followed the Tunisian revolution of 2011? Barone answers these questions by offering new theoretical reflections on youth cultures and popular music in a global perspective, and thus pushing the debate on post-subcultures and scenes forward. At the same time, the book offers a dense sociological analysis of youth and music in reality - the Tunisian one - whose society, culture, religion, and politics are at stake in a historical transformation.

Me, a Genius? I Was Reborn into Another World and I Think They've Got the Wrong Idea! Volume 1 Nyun,2018-04-05 Kouki has found himself reborn, together with many of his past-life memories, in an alternate version of Japan. There's are no magic or elves?! Then what's the point of being reborn in another world? It seems a little disappointing at first, but somehow his childhood sketches inspire his mother to develop a revolutionary new theory that changes the world forever. This sets into motion a series of misunderstandings that has everyone believing that Kouki is the real genius behind all of the incredible new technology that his mother is rapidly developing. As a result of his apparent genius, Kouki is forced to give up on his peaceful school life to attend the International Science and Technology Academy, where he meets a beautiful Canadian girl called Alice Alford, a robotics engineer named Shingo Saitou, and an expert on space exploration named Megumi Aikawa. Surely, he can't still continue being mistaken for a genius while surrounded by these real geniuses?! Every time Kouki uses his knowledge from his past life, it causes a new misunderstanding, and his ordinary life is gradually turning into an extraordinary life. Kouki can't help but go from one misunderstanding to another in this insane sci-fi comedy!!

Inner Space/Outer Space Edward Kolb,Fermi National Accelerator Laboratory,1986-04 Inner Space/Outer Space brings together much of the exciting work contributing to a new synthesis of modern physics. Particle physicists, concerned with the inner space of the atom, are making discoveries that their colleagues in astrophysics, studying outer space, can use to develop and test hypotheses about the events that occurred in the microseconds after the Big Bang and that shaped the universe as we know it today. The papers collected here, from scores of scientists, constitute the proceedings of the first major international conference on research at the interface of particle physics and astrophysics, held in May 1984. The editors have written introductions to each major section that draw out the central themes and elaborate on the primary implications of the papers that follow.

Dissonant Identities Barry Shank,2012-01-01 Music of the bars and clubs of Austin, Texas has long been recognized as defining one of a dozen or more musical scenes across the country. In Dissonant Identities, Barry Shank, himself a musician who played and lived in the Texas capital, studies the history of its popular music, its cultural and economic context, and also the broader ramifications of that music as a signifying practice capable of transforming identities. While his focus is primarily on progressive country and rock, Shank also writes about traditional country, blues, rock, disco, ethnic, and folk musics. Using empirical detail and an expansive theoretical framework, he shows how Austin became the site for a productive contestation between two forces: the fierce desire to remake oneself through musical practice, and the equally powerful struggle to affirm the value of that practice in the complexly structured late-capitalist marketplace.

Techno Rebels Dan Sicko,2010 Overview: Although the most vital and innovative trend in contemporary music, techno is notoriously difficult to define. What, exactly, is techno? Author Dan Sicko offers an entertaining, informed, and in-depth answer to this question in Techno Rebels, the music's authoritative American chronicle and a must-read for all fans of techno popular music, and contemporary culture.

Art Alphabets and Lettering John Mauritz Bergling,1931

Generation Ecstasy Simon Reynolds,2013-06-19 In Generation Ecstasy, Simon Reynolds takes the reader on a guided tour of this end-of-the-millennium phenomenon, telling the story of rave culture and techno music as an insider who has dosed up and blissed out. A celebration of rave's quest for the perfect beat definitive chronicle of rave culture and electronic dance music.

Adrian Frutiger – Typefaces Heidrun Osterer,Philipp Stamm,2014-05-08 The international creation of typefaces after 1950 was decisively influenced by the Swiss type designer Adrian Frutiger. His Univers typeface and the machine-readable font OCR-B, which was adopted as an ISO standard, are milestones, as is his type for the Paris airports, which set new standards for signage types and evolved into the Frutiger typeface. With his corporate types, he helped to define the public profiles of companies such as the Japanese Shiseido line of cosmetics. In all he created some fifty types, including Ondine, Méridien, Avenir, and Vectora. Based on conversations with Frutiger himself and on extensive research in France, England, Germany, and Switzerland, this publication provides a highly detailed and accurate account of the type designer's artistic development. All of his types – from the design phase to the marketing stage – are illustrated and analyzed with reference to the technology and related types. Hitherto unpublished types that were never realized and more than one hundred logos complete the picture. This second, revised and expanded study edition, which now has an index, makes Frutiger's achievement even more accessible.

Electro Shock! Greg Rule,1999 Offers interviews with the artists and groups behind electronica music, including Trent Reznor of Nine Inch Nails, Bjork, Kraftwerk, and others, along with background and technical details on the equipment they use.

Discstyle Martin Pesch,1999

Signs and Symbols Adrian Frutiger,1998 Discusses the elements of a sign, and looks at pictograms, alphabets, calligraphy, monograms, text type, numerical signs, symbols, and trademarks.

Global Pop Timothy D Taylor,2014-08-13 Global Pop examines the rise of world musics and world beat, and some of the musicians associated with these recent genres such as Peter Gabriel, Ladysmith Black Mambazo, and Johnny Clegg. Drawing on a wide range of sources - academic, popular, cyber, interviews, and the music itself - Global Pop charts an accessible path through many of the issues and contradictions surrounding the contemporary movement of people and musics worldwide. Global Pop examines the range of discourses employed in and around world music, demonstrating how the central concept of authenticity is wielded by musicians, fans, and other listeners, and looks at some of these musics in detail, examining ways they are caught up in forms of domination and resistance. The book also explores how some cross-cultural collaborations may fashion new musics and identities through innovative combinations of sounds and styles.

Trancenational Alienation Bryan Meadan,2006-03 Trance Music Culture, Moral Panics and Transnational Identity in Israel This book is the culmination of research on Trance music culture in Israel and shows that some groups of trance participants consider trance music and the raves valuable subcultural commodities and integral parts of their worldview and identity. Police actions in halting trance parties have caused trance participants to feel alienation towards both the state and national ideals. The moral panic, spearheaded by these police actions, has caused trance participants to respond by devaluing previous national identity constructions and in turn developing transnational identity attachments to the global trance community.

Discographies Jeremy Gilbert,Ewan Pearson,2002-03-11 Experiencing disco, hip hop, house, techno, drum 'n' bass and garage, Discographies plots a course through the transatlantic dance scene of the last last twenty-five years. It discusses the problems posed by contemporary dance culture of both academic and cultural study and finds these origins in the history of opposition to music as a source of sensory pleasure. Discussing such issues as technology, club space. drugs, the musical body, gender, sexuality and pleasure, Discographies explores the ecstatic experiences at the heart of contemporary dance culture. It suggests why politicians and agencies as diverse as the independent music press and public broadcasting should be so hostile to this cultural phenomenon.

Modulations Peter Shapiro,2000 A technophile's wet dream going beyond the limits of an encyclopedia or a record guide, here are essays by musicians and music journalists which illuminate genres techno, house, krautrock, disco, hip-hop, jungle, drum'n'bass, ambient and downtempo. Probing the conceptual origins of synthesised sound and including legendary names Kraftwerk, Giorgio Moroder, Robert Moog and John Cage, the black roots of electronic music are also documented, from free-jazz traveller Sun Ra to funk inovators Parliament and Funkadelic. With sections on fusion, dub, post-punk, breakbeats+.
