Elemental Antony John, 2012-11-21 A lost colony is reborn in this heart-pounding fantasy adventure set in the near future. Enter the world of the Elementals, which James Dashner called "completely gripping and full of intrigue, revelation, mystery, and suspense." Sixteen-year-old Thomas has always been an outsider. The first child born without the power of an element—earth, water, wind, or fire—he has little to offer his tiny, remote Outer Banks colony. Or so the Guardians would have him believe. In the wake of an unforeseen storm, desperate pirates kidnap the Guardians, intent on claiming the island as their own. Caught between the Plague-ridden mainland and the advancing pirates, Thomas and his friends fight for survival in the battered remains of a mysterious abandoned settlement. But the secrets they unearth will turn Thomas's world upside-down, and bring to light not only a treacherous past but also a future more dangerous than he can possibly imagine. Written by an award-winning author, this dynamic series is perfect for fans of dystopian thrillers like James Dashner's *The Maze Runner* and Marie Lu's *Legend*. "Plenty of action for readers who enjoy survival stories with a twist of the supernatural and a hint of romance." —School Library Journal "The novel's captivating storyline, rapid pace, and cliffhanger ending are sure to leave fans of novels like Grant's *Gone* series absorbed with the action and anxious for a sequel." —Bulletin of the Center for Children's Books Engaging characters and plenty of mystery, adventure, and action. —Publishers Weekly

Recurve Shannon Mayer, 2015 My name is Larkspur, and I am an Elemental. My people use the power of the earth to sustain life and defy our enemies. I should be at my father's side as a royal princess. But as a half-breed, bastard child, that isn't going to happen. I've been accused of attacking the queen, my wicked stepmother, and my life is suddenly on the line. I have only two options left to me: banishment, or training to become one of the King's Elite Guards, an Ender. Option one will kill me. Option two is meant to break me, but is the only way to survive. Did I mention I have no power like the rest of the elementals, and my connection to the earth is worth next to nothing? Could things get any worse? Of course they can. Welcome to being an Elemental--Back cover.

The Complete Elemental Series Bundle Brigid Kemmerer, 2021-04-27 One misstep and they lose it all. The four Merrick brothers are different. Way different: each of them can control one of the elements—water, fire, wind, or earth. They're powerful. Dangerous. Alone—except for each other and a few trusted friends. They're all trying to fly under the radar. But someone's watching them; someone who wants them out of the way. Before they know it, their enemies have gathered, and they're armed for war. They're not interested in surrender. But the Merricks aren't the white flag type anyway. There will be blood on the ground tonight . . . Elemental Brigid Kemmerer, 2014-03-01 As an air Elemental, 17-year-old Emily Morgan doesn't have much power. That's okay - she knows what happens to kids who do have power. Like Michael Merrick. He's an earth Elemental, one with enough power to level cities. Which makes him sexy, dangerous, and completely off-limits. At least according to Emily's family. But her summer job puts her in close contact with Michael, and neither of them can help the attraction they feel. When forces of nature like theirs collide, one misstep could get someone killed. Because Emily's family doesn't just want her to stay away from him. They want him dead.

Elemental Kim Richardson, 2011-08-21 When seventeen year-old Kara Nightingale is suddenly struck by lightning and dies—yet again—she finds herself back in Horizon. And when Kara decides to venture into the Netherworld to find her mother's missing soul, will her powers be enough to save her mother and save the mortal world?

Answering the Call of the Elementals Thomas Mayer, 2021-06-01 • Explores the hierarchy of elemental beings as well as Christ elemental beings, social elementals, and machine elementals • Explains how elementals inhabit the etheric space that houses our emotions, feelings, and thoughts and how they

carry the emotional level of the world • Shows how the author learned to make personal contact with the elementals and shares his experiences as well as the elemental world's urgent call for help We all live in the realm of elemental beings. They permeate our souls, our thoughts, our feelings, and they co-create the world around us, yet we are often completely unaware of them. They, however, are eager to be perceived and acknowledged by us because their future and ours are fundamentally connected. Elementals act as carriers of the emotional level of the world, and Thomas Mayer reveals how he learned to develop and fine-tune his sense of perception to make direct personal contact with them. Providing insight into the elemental hierarchy, from the low workers to the masters and the elemental kings, he portrays Christ elemental beings, social elementals, and machine elementals as well. He also explores the adversarial forces like Lucifer and Ahriman that access the elemental world through the subconscious of humans and seek to destroy our elemental friends. Through sharing his encounters with fairies, dwarves, giants, and others, the author reveals their urgent call for help, an entreaty to anchor the elemental beings again in the awareness of humankind through recognition, acknowledgment, and conscious connection. Let us support the elementals in their crucial, life-giving work, through which they in turn support us in preserving the Earth we live on.

The Elemental Task Maria K, Just when you think you are settled comfortably in your career, you get the most peculiar job offer in your life. Megan Buchanan is a project analyst. She is not considering a career change. Until one evening she is offered to become an elemental.

Karlik Ursula Burkhard, 2017-08-17 Elemental beings such as gnomes and fairies exist in many folk and spiritual traditions, and Rudolf Steiner also discussed their significance to our world. Some people are able to engage and even communicate with elementals. Ursula Burkhard was one such person. Blind from birth, she experienced gnomes and other elementals from early childhood. When, as she grew older, her parents tried to dissuade her, she was puzzled: why should she believe in the 'real' things she was unable to see, and ignore what she knew to be true? In this short book, she describes her remarkable experiences and in particular her relationship with a special gnome, Karlik. The book was a bestseller in Germany in the 1980s, bringing the world of the elementals into the mainstream.

Elemental Magic Nigel Pennick, 2020-09-22 Learn how to use the principles

and practices of natural magic for personal development and spiritual empowerment • Offers detailed descriptions of the magical properties of minerals, animals, plants, and the earth's cycles and how to use them in your own practice • Explores the magical laws of nature and how to guide your inner energy to work in concert with cosmic energies • Details how to design your own ceremonies, practice elemental meditations, and craft your own magical talismans, wands, and divining rods An expert on European rural folk magic traditions, author Nigel Pennick presents a comprehensive introduction to the principles, rituals, practices, and magical tools required to draw on the magic inherent in the natural world. He explains how people throughout the centuries have built a relationship with the elemental energies around them using simple, everyday practices in order to attune themselves to nature, the seasons, and the cosmos for magical purposes. The author explores earth, mineral, and plant magic as well as the magical properties of the earth's cycles and concentrated places of power within the landscape. He examines magical workings with animals, drawing on authentic traditions such as the Toadsmen or Toadswomen, whose power is given by toads, and the Berserker qualities conferred by magical bondings with wild animals like bears and wolves. He explains how to craft your own magical talismans, wands, and divining rods; design your own ceremonies; practice elemental meditations; fortify your health with herbs and crystals; and set an altar with the right food and drink for your intention. Pennick also describes how the practical techniques of natural elemental magic work through interactions between the inner world of the mind and spirit, the outer world, and the otherworldly. He shows that having a deeper understanding of the interconnectedness of all things and the inner power of these magical elements strengthens the practitioner's harmony with nature, and thus their power. By harnessing the elemental energies around us, we can work with nature for personal development, spiritual empowerment, and the successful achievement of our desires
