Baroness Elsa Irene Gammel,2003-08-29 The first biography of the enigmatic dadaist known as the Baroness—Elsa von Freytag-Loringhoven. Elsa von Freytag-Loringhoven (1874–1927) is considered by many to be the first American dadaist as well as the mother of dada. An innovator in poetic form and an early creator of junk sculpture, the Baroness was best known for her sexually charged, often controversial performances. Some thought her merely crazed, others thought her a genius. The editor Margaret Anderson called her perhaps the only figure of our generation who deserves the epithet extraordinary. Yet despite her great notoriety and influence, until recently her story and work have been little known outside the circle of modernist scholars. In *Baroness Elsa*, Irene Gammel traces the extraordinary life and work of this daring woman, viewing her in the context of female dada and the historical battles fought by women in the early twentieth century. Striding through the streets of Berlin, Munich, New York, and Paris wearing such adornments as a tomato-soup can bra, teaspoon earrings, and black lipstick, the Baroness erased the boundaries between life and art, between the everyday and the outrageous, between the creative and the

dangerous. Her art objects were precursors to dada objects of the teens and twenties, her sound and visual poetry were far more daring than those of the male modernists of her time, and her performances prefigured feminist body art and performance art by nearly half a century.

Being Seen Elsa Sjunneson,2021-10-26 A deafblind writer and professor explores how the misrepresentation of disability in books, movies, and TV harms both the disabled community and everyone else. As a deafblind woman with partial vision in one eye and bilateral hearing aids, Elsa Sjunneson lives at the crossroads of blindness and sight, hearing and deafness—much to the confusion of the world around her. While she cannot see well enough to operate without a guide dog or cane, she can see enough to know when someone is reacting to the visible signs of her blindness and can hear when they’re whispering behind her back. And she certainly knows how wrong our one-size-fits-all definitions of disability can be. As a media studies professor, she’s also seen the full range of blind and deaf portrayals on film, and here she deconstructs their impact, following common tropes through horror, romance, and everything in between. Part memoir, part cultural criticism, part history of the deafblind experience, **Being Seen** explores how our cultural concept of disability is more myth than fact, and the damage it does to us all.
