Women, Ethnicity and Nationalisms in Latin America Natividad Gutiérrez Chong,2016-12-05 The relationship between gender and nationalism is a compelling issue that is receiving increasing coverage in the scholarly literature. With case studies covering Argentina, Ecuador, Bolivia and Mexico, this is the first book to explore these links in the context of Latin America. It includes contributions from Latin American scholars to offer a unique and revealing view of the most important political and cultural issues. The work opens by outlining four dimensions in the relationship between gender and nationalism. These are: the contribution of women to nation building and their exclusion from it by the state and its institutions; the role of women in contemporary ethnic and nationalist movements; the place of the female body in the myths and traditions surrounding the nation; and the role of women in forging the intellectual and artistic culture of the nation. It then provides both theoretical and empirical explorations of these themes, with chapters covering the debate on multiculturalism and gender in the construction of the nation, the struggles of ethnic women to participate politically in their communities and studies of the first Mexican filmmaker, Mimi Derrba and the indigenous heroine Dolores Cacuango from Ecuador.

Descorchados 2023 Guide to the wines of Argentina, Brazil, Bolivia, Chile, Peru & Uruguay Patricio Tapia,2023-05-17 Descorchados is celebrating

its 25th anniversary. It began as a guide to Chilean wines and as of 2010, it has covered the wines of South America in what is now the region's most complete wine guide. This year we have tasted 5,159 wines, of which we have recommended 4,130 from Argentina, Bolivia, Brazil, Chile, Peru, and Uruguay in this edition, thereby presenting a wide-angle HD photograph of South America's current wine scene. In Descorchados 2023 you'll find reviews of more than 600 wineries and their recommended wines as well as the latest news about each country and detailed maps of their primary terroirs, plus rankings of the best wines listed by variety and origin, as well as the best values for money that we have found in our tastings this year. Descorchados is an essential tool for those who want to know more about the reality of South American wine and the people who are the major driving forces behind it.

The Wines of Chile Peter Richards, 2006-11-16 Region by region, award-winning writer, Peter Richards takes us through all of Chile's many winemaking areas. Starting with the history of Chile and its wine industry, the work includes details on the country's diversity of terroirs, the range of wine styles available, and the variety of winemaking techniques in use, plus a topical discussion of recent developments. Full details of all the leading producers and their top wines form the core of this book.

Immigrants Raising Citizens Hirokazu Yoshikawa, 2011-03-11 An in-depth look at the challenges undocumented immigrants face as they raise children in the U.S. There are now nearly four million children born in the United States who have undocumented immigrant parents. In the current debates around immigration reform, policymakers often view immigrants as an economic or labor market problem to be solved, but the issue has a very real human dimension. Immigrant parents without legal status are raising their citizen children under stressful work and financial conditions, with the constant threat of discovery and deportation that may narrow social contacts and limit participation in public programs that might benefit their children. Immigrants Raising Citizens offers a compelling description of the everyday experiences of these parents, their very young children, and the consequences these experiences have on their children's development. Immigrants Raising Citizens challenges conventional wisdom about undocumented immigrants, viewing them not as lawbreakers or victims, but as the parents of citizens whose adult productivity will be essential to the nation's future. The book's findings are based on data from a three-year study of 380 infants from Dominican, Mexican, Chinese, and African American families, which included in-depth interviews, in-home child assessments, and parent surveys. The book shows that undocumented parents share three

sets of experiences that distinguish them from legal-status parents and may adversely influence their children's development: avoidance of programs and authorities, isolated social networks, and poor work conditions. Fearing deportation, undocumented parents often avoid accessing valuable resources that could help their children's development—such as access to public programs and agencies providing child care and food subsidies. At the same time, many of these parents are forced to interact with illegal entities such as smugglers or loan sharks out of financial necessity. Undocumented immigrants also tend to have fewer reliable social ties to assist with child care or share information on child-rearing. Compared to legal-status parents, undocumented parents experience significantly more exploitive work conditions, including long hours, inadequate pay and raises, few job benefits, and limited autonomy in job duties. These conditions can result in ongoing parental stress, economic hardship, and avoidance of center-based child care—which is directly correlated with early skill development in children. The result is poorly developed cognitive skills, recognizable in children as young as two years old, which can negatively impact their future school performance and, eventually, their job prospects. *Immigrants Raising Citizens* has important implications for immigration policy, labor law enforcement, and the structure of community services for immigrant families. In addition to low income and educational levels, undocumented parents experience hardships due to their status that have potentially lifelong consequences for their children. With nothing less than the future contributions of these children at stake, the book presents a rigorous and sobering argument that the price for ignoring this reality may be too high to pay.

The Formation of Candomblé Luis Nicolau Parés,2013-11-17 Interweaving three centuries of transatlantic religious and social history with historical and present-day ethnography, Luis Nicolau Pares traces the formation of Candomble, one of the most influential African-derived religious forms in the African diaspora, with practitioners today centered in Brazil but also living in Europe and elsewhere in the Americas. Originally published in Brazil and not available in English, The Formation of Candomble reveals cultural changes that have occurred in religious practices within Africa, as well as those caused by the displacement of enslaved Africans in the Americas. Departing from the common assumption that Candomble originated in the Yoruba orixa (orisha) worship, Pares highlights the critical role of the vodun religious practices in its formation process. Vodun traditions were brought by enslaved Africans of Dahomean origin, known as the Jeje nation in Brazil since the early eighteenth century. The book concludes with Pares's account of present-day Jeje temples in Bahia, which serves as the first written record of the oral traditions and ritual of this particular nation of Candomble.

Growing Old in El Barrio Judith Freidenberg,2000-08 In *Growing Old in El Barrio*, Judith Noemi Freidenberg addresses the life-course and daily experiences of the elderly residents of El Barrio. She interweaves the economy of immigrant neighborhoods with the personal experiences of Latinos aging in Harlem. Freidenberg further links policy issues -- such as persistent poverty in urban enclaves and the provision of health and social services to an aging population -- to social issues critical to the daily lives of this population.
