The Art of Mixing David Gibson, 2019-01-10 David Gibson uses 3D visual representations of sounds in a mix as a tool to explain the dynamics that can be created in a mix. This book provides an in-depth exploration into the aesthetics of what makes a great mix. Gibson's unique approach explains how to map sounds to visuals in order to create a visual framework that can be used to analyze what is going on in any mix. Once you have the framework down, Gibson then uses it to explain the traditions that have been developed over time by great recording engineers for different styles of music and songs. You will come to understand everything that can be done in a mix to create dynamics that affect people in really deep ways. Once you understand what engineers are doing to create the great mixes they do, you can then use this framework to develop your own values as to what you feel is a good mix. Once you have a perspective on what all can be done, you have the power to be truly creative on your own – to create whole new mixing possibilities. It is all about creating art out of technology. This book goes beyond explaining what the equipment does – it explains what to do with the equipment to make the best possible mixes.

1001 Colorado Place Names Maxine Benson, 1994 When it came to labeling cities, towns, counties, crossroads, mining camps, rivers, forests, peaks, and passes, Colorado place namers looked to an array of sources for ideas. Many simply memorialized themselves and their families—Florence, Howard, Lulu City, Dacono (Daisy, Cora, and Nora combined)—or more well-known honorees—Washington, Jefferson, Lincoln, Kit Carson, Montezuma, Ouray. Some paid homage to explorers, war heroes, politicians, railroad executives, plants, animals, or landforms. Still others went for the more unusual or creative—Boreas Pass bears the name of the Greek god of the North Wind; Egnar is range backwards; Kim was inspired by the Rudyard Kipling novel; Artesia was renamed Dinosaur in 1965 to capitalize on tourist traffic headed to nearby Dinosaur National Monument; Almont was named for a horse, Gulnare a cow. In *1001 Colorado Place Names*, Maxine Benson scrutinizes the most popular, interesting, and unique place names in the

state. She discusses how the chosen names originated and what changes they have undergone. Included are Colorado's 63 counties, 716 past and present settlements, and 56 fourteeners (peaks more than 14,000 feet in elevation) along with other places known for their historical, geographical, geological, or onomastic significance. Benson also provides pronunciation of unusual names, county locations, post office dates, population figures, and anecdotes galore. The result is a mosaic of information of Colorado history, ethnicity, families, events, politics, settlement patterns, and local lore. Combining previous place-name research and new findings, Benson takes us on a colorful, entertaining, and educational journey through cities and towns, across the plains, and over the mountains.

Reading becomes much easier once theory is mastered and learning theory on the fretboard using diagrams and patterns as illustrations, music theory is very accessible, immediately usable and fun. This is the definitive resource for the enthusiastic bassist! p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.0px Helvetica} p.p2 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.0px Helvetica; min-height: 16.0px} This book and the 89 free videos stand on their own and form a thorough source for studying music theory for the bass player. Zen & the Art of MIXING Mixerman, 2021-10-01 Mixing is an Attitude

When I think back to my best mixes—regardless of their commercial success—in each and every case, I can only describe the experience as one in which I was working from deep within, outside of any external forces. I wasn't thinking; I was doing. I wasn't scared of what anyone would think. I wasn't scared of failure. All my decisions were made with confidence, and once a judgment was made, I didn't second-guess myself. I allowed the music to guide me, and I based all of my mix decisions on nothing more than one simple criterion: Are the song and production doing what they're supposed to be doing?

That sounds nice, huh? I mean, that's the headspace you want to be in when you're mixing! The problem is, you can't get there if you're focused on all the wrong things, and we're all susceptible to distraction and self-doubt. Great mixing involves trusting yourself, first and foremost. And I can promise you, that trust is downright infectious to everyone on your project.

Who Am I?

I'm Mixerman, a gold and multi-platinum mixer, producer, and recordist. I've been mixing professionally and at a high level for over three decades now., and I can assure you, great mixing isn't about manipulating sound. It's about the decisions you make in regards to the music, the balances, and how you use the arrangement to push the listener forward through the song. This is accomplished through concrete strategies and techniques, that I'm uniquely qualified to offer you.

Boost Your Confidence Now

You can spend the next decade mixing two songs a day to get there. Or you can get *Zen & the Art of MIXING 2021*, and I'll explain the thinking behind great mixing. And then watch your confidence soar.

There's a reason why this is my most popular work, to date. Enjoy, Mixerman
