Nova Sigma Vol. 1 John J. Scavella, 2016-11-16 A tale that explores events surrounding an alien invasion that crumbles the world's system of order, igniting a war between humans and the Extraterrestrial invaders that remains constant advancing six (6) decades. Submerged in a futile war where loss outweighs victory, the united human resistance develops the technology to travel to the past in order to cautiously manipulate sciences, technology and key events to accelerate human evolution that has resulted in creating superhuman anomalies that fill the ages. When a gifted child is born in the future marking the turn of tides in the war, the technology is called upon to hide the child the only place he would be safe from the enemy, in the past (our present) before the invasion. The threads of fate are tempted as fictional mayhem pours into our reality when the child's whereabouts are lost. A human resistance commander with specialized telekinetic abilities is sent back to locate and retrieve the child now grown into a young man as the alien evaders influence a hunt of their own. The story unfolds as the actions of the exigent retrieval mission brings together a few complicated individuals along with some unwanted intervention. The commander and other influenced paths cross becoming an immense battle to defeat the marionettes' game of a powerful, affluent, egocentric immortal, with ambitions to seize the child's power and place in destiny as his own; forging himself as mankind's only deity.

A Dictionary of Manchu Names Giovanni Stary,2000 This Dictionary is an alphabetical index of the personal and clan names, given in a historically correct Manchu transliteration in opposition to the generally used Chinese transcription, which are registered in the Manchu version of the Genealogies of the Clans and Families of the Manchu Eight Banners (Jakun gusai Manjusai mukun hala be uheri ejehe bithe, better known by its Chinese title as Baqi Manzhou shizu tongpu), having the last imperial preface dated 1745. It comprises more than 42,000 names found among the 645 Manchu and the 234 Mongolian, Chinese and Korean clans and families forming the military and social basis of the Eight Manchu Banner army's multi-ethnic structure. Together with an analysis of the names' meaning and their formation process, an additional key for a correct reconstruction of the Manchu/Mongolian names and clans on the basis of their Chinese transcription is offered.

Pokémon Collectibles Lisa Courtney, 2019-11-15 The owner of the biggest Pokémon collection in the world (Guinness World Record) casts an eye over some of the most interesting items relating to a bona fide pop culture phenomena.

Millennial Monsters Anne Allison, 2006-06-30 From sushi and karaoke to martial arts and technoware, the currency of made-in-Japan cultural goods has skyrocketed in the global marketplace during the past decade. The globalization of Japanese “cool” is led by youth products: video games, manga (comic books), anime (animation), and cute characters that have fostered kid crazes from Hong Kong to Canada. Examining the crossover traffic between Japan and the United States, *Millennial Monster* explores the global popularity of Japanese youth goods today while it questions the make-up of the fantasies and the capitalistic conditions of the play involved. Arguing that part of the appeal of such dream worlds is the polymorphous perversity with which they scramble identity and character, the author traces the postindustrial milieu from which such fantasies have arisen in postwar Japan and been popularly received in the United States.

Distorted Destiny R.R. Shaw, 2015-03-24 In *Distorted Destiny*, the author takes you on an adventure into the world of Amy and her friends as they learn to control their powers through hardships and joy. This book is an excellent read for any fantasy reader. There is a strange force brewing. Will they be able to stop it, or will the gang be overcome in the end?
