The complete range of hardware used in land, sea and air forces throughout the world at the time of publication is covered, from tanks to rocket systems, helicopters to cruise missiles, alongside full details of size, weight and operational range. The book's main strength lies in the detail it gives of armament and associated ammunition capabilities, and of the sensors and other electronics required for the weapons to be used effectively. A key title amongst Routledge reference reissues, Christopher Chant's important work will be of great value to students and professionals requiring a comprehensive and accessible reference guide, as well as to weapons 'buffs'.

Disconsolate Empires Alain Rouvez,1994 This book provides a timely and comprehensive analysis of how three European powers have retained or mutated their levers of influence in their former African colonies since the latter gained independence in the 1960's. Thirty years of complex political and military relationships involving France, Britain, and Belgium and their former colonies are examined in this thought-provoking study, the lessons of which are increasingly relevant to the understanding of Euro-African affairs.

Cold War Gone Hot Ambush Alley Ambush Alley Games,2011-11-20 My fellow Americans, I'm pleased to tell you today that I've signed legislation

that will outlaw Russia forever. We begin bombing in five minutes.†? – Ronald Reagan, 1984. With these words, spoken as a sound check to a radio broadcast, President Reagan came dangerously close to igniting the long-simmering Cold War. Although Soviet forces were placed on alert following reports of this comment, the full-scale conflict between the West and the Soviet Bloc did not break out. Cold War Gone Hot, the latest companion volume for Force on Force, looks at the 44-year history of the Cold War and asks: what if?†? With the orders of battle, vehicle stats and missions included in this volume, Force on Force players can simulate the advance of Soviet tanks across Western Europe, a thrust into Alaska, or any number of other plausible scenarios where history took a slightly different path.

After The Storm Anthony H Cordesman,2019-08-19 This comprehensive new analysis goes far beyond today's headlines and the basic facts and figures on the military forces in the region. The Military Balance 1994-1995 Rachel Neaman,2023-05-31 First published in 1995. The Military Balance is updated each year to provide a timely, quantitative assessment of the military forces and defence expenditures of over 160 countries. The current volume contains as of 1 June 1994. The break-up of the Soviet Union necessitated a re-evaluation of the way in which The Military Balance divides the world into geographical sections. Russia is both a European and an Asian state and is given a separate section in the book.

French Foreign Legion Martin Windrow,2013-08-20 Men of action and elite soldiers with a young and dynamic spirit, the French Foreign Legion are capable of doing their duty anywhere anytime. Martin Windrow's superb text examines the history of this famous force from the end of the Second World War onward. This first class addition to the Men-at-Arms series not only contains the usual wealth of accompanying photographs and illustrations, including eight full page colour plates by Mike Chappell, but is extended by a further 16 pages, allowing the author to display the full range of his expert knowledge, including 11 pages devoted to uniforms.

not know in advance what tasks await them. It is almost always about exciting intercultural aspects, but without pointing a finger. Indirectly, the stories can also be seen as a call for integration, especially as the peculiarities of different cultures - in particular how they deal with sexuality - are highlighted. However, the common ground is always emphasized and not the divisive aspects. The fact that joy and sorrow are not neglected makes reading the book a continuous pleasure. Finally, the idea of setting the stories in the future opens up another appealing field.

**Defeating ISIS** Malcolm Nance, 2016-03-08 A New York Times bestseller! This reference shows how to understand the history and tactics of the global terror group ISIS—and how to use that knowledge to defeat it. ISIS—the Islamic State of Iraq and Syria—has taken on the mantle of being the single most dangerous terrorist threat to global security since al-Qaeda. In *Defeating ISIS*, internationally renowned intelligence veteran, author, and counterterrorism expert Malcolm Nance gives an insider's view to explain the origins of this occult group, its violent propaganda, and how it spreads its ideology throughout the Middle East and to disaffected youth deep in the heart of the Western world. Most importantly, *Defeating ISIS* gives an amply illustrated, step-by-step analysis of the street-level tactics the group has employed in assaults against fortified targets, in urban combat, and during terrorist operations such as those in Paris during the November 13 attacks. As much as ISIS is a threat to Western targets and regional stability in the Middle East, Nance describes not only its true danger as a heretical death cult that seeks to wrest control of Islam through young ideologues and redefine Islam as a fight to the death against all comers, but also how to defeat it. *Defeating ISIS* is the first highly detailed and fully illustrated look into the organization by one of the world's foremost authorities in counterterrorism. 100 color illustrations, 100 black-and-white illustrations, maps throughout

**The French Foreign Legion** Jean-Denis G.G. Lepage, 2007-12-11 This book gives the reader a straightforward and continuous survey of the history of the French Foreign Legion. By outlining the Legion's vicissitudes, victorious campaigns, epic marches, heroic and sometimes hopeless stands, dirtiest combats and dramatic defeats, but also by briefly placing the Legion back in the historical background of France, and by describing its development, organization, uniforms, equipments and weapons, the author hopes to dispel myths, and try to give a true and accurate picture of what the French

Foreign Legion has been from 1831 until today. There are well-researched, detailed line drawings throughout.
