Tragedy Plus Time Philip Scepanski,2021-04-06 Following the most solemn moments in recent American history, comedians have tested the limits of how soon is “too soon” to joke about tragedy. Comics confront the horrifying events and shocking moments that capture national attention and probe the acceptable, or “sayable,” boundaries of expression that shape our cultural memory. In *Tragedy Plus Time*, Philip Scepanski examines the role of humor, particularly televised comedy, in constructing and policing group identity and memory in the wake of large-scale events. *Tragedy Plus Time* is the first comprehensive work to investigate tragedy-driven comedy in the aftermaths of such traumas as the JFK assassination and 9/11, as well as during the administration of Donald Trump. Focusing on the mass publicization of television comedy, Scepanski considers issues of censorship and memory construction in the ways comedians negotiate emotions, politics, war, race, and Islamophobia. Amid the media frenzy and conflicting expressions of grief following a public tragedy, comedians provoke or risk controversy to grapple publicly with national traumas that all Americans are trying to understand for themselves.

Straight Outta Crawley Romesh Ranganathan,2018-10-04 THE SUNDAY TIMES BESTSELLER *Straight Outta Crawley* is the hilarious and irreverent autobiography from comedian Romesh Ranganathan. 'Very, very funny. I can't recommend it highly enough.' Jonathan Ross _____ At the age of 9, Romesh Ranganathan delivered his first ever stand-up set at a Pontin's holiday camp talent competition, smashing the other competitor, a young girl playing the kazoo. The gig went so well that Romesh retired his comic genius for twenty-two years, hiding behind the guise of a maths teacher, before finally revealing himself again (no, not like that) at the tender age of 31. In 2010, Ranganathan staged his epic comeback gig to an almost silent room, and has since gone on to earn his place as the most in-demand overweight vegan Sri Lankan comedian in Britain. Now, for the first time, he tells the full story of how he got here. From the delights of Sri Lankan hospitality to his struggles as a child, teacher and now parent, to his adolescent flirtation with a rap career and his attempts to make it in comedy, *Straight Outta Crawley* is Ranganathan's hilarious and irreverent autobiography. Have you read Romesh's latest book? As Good As It Gets: Life Lessons from a Reluctant Adult is Romesh Ranganathan's hilarious and painfully accurate dissection of what it really means to grow up.

It's Not Me, It's Them Joel Dommett,2018-02-08 'Effortless humour and bucketloads of charm. It's impossible not to be bowled over by the ending. Most definitely my favourite celebrity memoir in a long time. Brilliant.' - THE SUN **The hilarious debut from I'm A Celeb star Joel Dommett (Live at the Apollo, 8 Out of 10 Cats, Impractical Jokers), for fans of Joe Lycett, James Acaster and Sarah Millican** As a 17-year-old virgin working . . . for Virgin, Joel Dommett has grand ambitions. Firstly, he is going to swap suburbia for the bright lights of Showbiz. Secondly, he is going to find 'the one' in the first forty people he's going to sleep with. What follows is a series of disastrous romantic encounters, including carpets mistaken for toilets, futile grand gestures and the catfishing to end all catfishing. Featuring genuine teenage diary entries and told in Joel's trademark self-deprecating style, this is the brilliant first book from the UK's most exciting comedian.

A Good Night Out for the Girls E. Aston,G. Harris,2012-11-29 Moving across the boundaries of mainstream and experimental circuits, from the affective pleasures of commercially successful shows such as *Calendar Girls* and *Mamma Mia!* to the feminist possibilities of new burlesque and stand-up, this book offers a lucid and accessible account of popular feminisms in contemporary theatre and performance.

Redmond, Washington Georgeann Malowney,2002 Only 17 miles northeast of Seattle, Redmond is nestled among fir trees, with the majestic backdrop of the Cascade Mountains to the east and the Olympic Mountains to the west. In 1870, when the first official census of Seattle listed 1,107 people, Luke McRedmond obtained a land patent in the area later to be named for him. From the auspicious beginnings of lumber, fishing, and hunting industries sprang a thriving town which was destined to gain international recognition as the home of Microsoft. With photographs collected from the relatives of its founding families, this volume focuses on the history of Redmond from 1870 to the 1920s. Included are many unpublished photos of the pioneer families, as well as rare glimpses of the railway station, early farms and schools, and historic shots of the Redmond Fire Department. Pictured social occasions include the earliest 4th of July celebrations, birthday parties, and Redmond's famous Derby Days, the country's oldest annual bicycle race, begun in 1939.

Éric Croes 7 Boris Bergmann,2020 Éric Croes presents his vision of the 7 cardinal sins: 7 unique sculptures, 7 fantastical totems, 7 unsettling presences. A tribe, stripped of all moral criticism, of all condemnation. No censure, no judgement. On the contrary, his liberated vision encourages the imagination. Each work is accompanied by an original poem by Boris Bergman.00Exhibition: Sorry we're Closed, Brussels, Belgium (2103. - 23.05.2020).

Computer-Aided Design of Analog Integrated Circuits and Systems Rob A. Rutenbar,Georges G. E. Gielen,2002-05-06 The tools and techniques you need to break the analog design bottleneck! Ten years ago, analog seemed to be a dead-end technology. Today, System-on-Chip (SoC) designs are increasingly mixed-signal designs. With the advent of application-specific integrated circuits (ASIC) technologies that can integrate both analog and digital functions on a single chip, analog has become more crucial than ever to the design process. Today, designers are moving beyond hand-crafted, one-transistor-at-a-time methods. They are using new circuit and physical synthesis tools to design practical analog circuits; new modeling and analysis tools to allow rapid exploration of system level alternatives; and new simulation tools to provide accurate answers for analog circuit behaviors and interactions that were considered impossible to handle only a few years ago. To give circuit designers and CAD professionals a better understanding of the history and the current state of the art in the field, this volume collects in one place the essential set of analog CAD papers that form the foundation of today's new analog design automation tools. Areas covered are: * Analog synthesis * Symbolic analysis * Analog layout * Analog modeling and analysis * Specialized analog simulation * Circuit centering and yield optimization * Circuit testing *Computer-Aided Design of Analog Integrated Circuits and Systems* is the cutting-edge reference that will be an invaluable resource for every semiconductor circuit designer and CAD professional who hopes to break the analog design bottleneck.

Trench Art Nicholas Saunders, 2020-06-15 Trench art is the evocative name given to a dazzling array of objects made from the waste of industrialized war. Each object, whether an engraved shell case, cigarette lighter or a pen made from shrapnel, tells a unique and moving story about its maker. For the first time, this book explores in-depth the history and cultural importance behind these ambiguous art forms. Not only do they symbolize human responses to the atrocities of war, but they also act as mediators between soldiers and civilians, individuals and industrial society, and, most importantly, between the living and the dead. Trench art resonates most obviously with the terror of endless bombardment, night raids, gas attacks and the bestial nature of trench life. It grew in popularity between 1919 and 1939 when the bereaved embarked on battlefield pilgrimages and returned with objects intended to keep alive the memory of loved ones. The term trench art is, however, misleading, as it does not simply refer to materials found in the trenches. It describes a diverse range of objects that have in some way emerged from the experience of war all over the world. Many distinctive objects, for example, were made during conflicts in Bosnia, Vietnam, Northern Ireland and Korea. Surprisingly, trench art predates World War I and it can be made in a number of earlier wars such as the Crimean War, the American Civil War, and the Boer War. Saunders looks at the broader issues of what is meant by trench art, what it was before the trenches and how it fits in with other art movements, as well as the specific materials used in making it. He suggests that it can be seen as a bridge between the nineteenth century certainties and the fragmented industrialized values and ideals of the modern world. This long overdue study offers an original and informative look at one of the most arresting forms of art. Spanning from 1800 to the present day, its analysis of art, human experience, and warfare will pave the way for new research.

Design and National Identity Javier Gimeno-Martínez, 2016-09-22 This important study introduces the key theories of national identity, and relates them to the broad fields of product, graphic and fashion design. Javier Gimeno-Martínez approaches the inter-relationship between national identity and cultural production from two perspectives: the distinctive characteristics of a nation's output, and the consumption of design products within a country as a means of generating a national design landscape. Using case studies ranging from stamps in nineteenth century Russian-occupied Finland, to Coca-Cola as an 'American' drink in modern Trinidad and Tobago, he addresses concepts of essentialism, constructivism, geography and multiculturalism, and considers the works of key theorists, including Benedict Anderson, Eric Hobsbawm and Doreen Massey. This illuminating book offers the first comprehensive account of how national identity and cultural policy have shaped design, while suggesting that traditional formations of the 'national' are increasingly unsustainable in an age of globalisation, migration and cultural diversity. Javier Gimeno-Martínez is Lecturer in Design Cultures at the VU University Amsterdam, The Netherlands.

Islam, Migration and Integration A. Kaya, 2009-04-15 This work explores contemporary debates on migration and integration, focussing on Euro-Muslims. It critically engages with republicanist and multiculturalist policies of integration and claims that integration means more than cultural and linguistic assimilation of migrant communities.

The Last Great Cavalry Charge Joe Robinson, Janet Robinson, Francis Hendriks, 2017-05-03 The Battle of the Silver Helmets was an engagement orchestrated according to the previous successes of the cavalry of Frederick the Great. It was staged so that the magnificently equipped and trained German Fourth Cavalry Division would charge into glory, sabres rattling; instead, 24 German officers, 468 men, and 843 horses were lost during the eight separate charges conducted that day. The entire right wing of the Imperial German Army consisted of only nine cavalry brigades in the Schlieffen Plan, and in the battle of 12 August 1914, two of these brigades were catastrophically beaten. This battle has not yet been explored in the English language because it took place before the British Expeditionary Force (BEF) landed in the Channel ports and well before any American involvement. British historians have also generally focused on Germany's efforts to enter Belgium through the forts at Liège, which are east of Halen. However, the Battle of the Silver Helmets so impacted century-old cavalry tradition that large-scale charges would never again be attempted on the Western Front. Thoroughly researched and hugely revelatory, *The Last Great Cavalry Charge* is a blow-by-blow account of the moment that the cavalry went from a prestigious, pivotal role in German Army tactics to obsolescence in the face of newly mechanised infantry. It provides essential and moving insight into the wider socio-cultural repercussions of technical military innovations in the First World War.

The Monuments Peter Cossins, 2023-03-16 An awe-inspiring history of the five most legendary "classic" races in world cycling. The Tour de France may provide the most obvious fame and glory, but it is cycling's one-day tests that the professional riders really prize. Toughest, longest and dirtiest of all are the so-called 'Monuments', the five legendary races that are the sport's equivalent of golf's majors or the grand slams in tennis. Milan–Sanremo, the Tour of Flanders, Paris–Roubaix, Liège–Bastogne–Liège and the Tour of Lombardy date back more than a century, and each of them is an anomaly in modern-day sport, the cycling equivalent of the Monaco Grand Prix. Time has changed them to a degree, but they remain as brutally testing as they ever have been. They provide the sport's outstanding one-day performers with a chance to measure themselves against each other and their predecessors in the most challenging tests in world cycling. From the bone-shattering bowler-hat cobbles of the Paris–Roubaix to the insanely steep hellingen in the Tour of Flanders, each race is as unique as the riders who push themselves through extreme exhaustion to win them and enter their epic history. Over the course of a century, only Rik Van Looy, Eddy Merckx and Roger De Vlaeminck have won all five races. Yet victory in a single edition of a Monument guarantees a rider lasting fame. For some, that one victory has even more cachet than success in a grand tour. Each of the Monuments has a fascinating history, featuring tales of the finest and largest characters in the sport. In this updated edition of *The Monuments* Peter Cossins tells the tumultuous history of these extraordinary races and the riders they have immortalised.

The Beast, the Emperor and the Milkman Harry Pearson, 2019-02-07 ***SHORTLISTED FOR THE TELEGRAPH SPORTS BOOK AWARDS 2020 – CYCLING BOOK OF THE YEAR*** ***LONGLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR 2019*** 'A joy.' – Ned Boulting Every nation shapes sport to test the character traits it most admires. In *The Beast, the Emperor and the Milkman*, committed Belgophile and road cycling obsessive Harry Pearson takes you on a journey across Flanders, through the lumpy horizontal rain, up the elbow juddering cobbled inclines, past the fans dressed as chickens and the shop window displays of constipation medicines, as he follows races big, small and even smaller through one glorious, muddy spring. Ranging over 500 years of Flemish and European history, across windswept polders, along back roads and through an

awful lot of beer cafes, Pearson examines the characters, the myths and rivalries that make Flanders a place where cycling is a religion and the riders its lycra-clad priests.

The Desclergues of la Villa Ducal de Montblanc Nico F. Declercq,2021-12-24 This book, consisting of almost 70 chapters, spread over ten parts and a foreword section, covers the following topics. A prelude and introduces the reader to the world of Heraldry, the Town and the Duchy of Montblanc in Spain and Onomastics. Finally, it provides a brief history to understand the book's chronological context better. A part on genetics is provided to outline the DNA analysis, made by different commercial companies, of the genes of the author and his brother-in-law. The investigations compare genetics with the genealogy provided in this work and are consistent. They show, for instance, that the author is a male descendent of the Desclergues of Montblanc and is equally blood-related to them through his mother, consistent with what the records provide. Furthermore, an autosomal analysis reveals a percentage-wise appearance, in agreement with the documents, of DNA strings originating from Spain, where the Desclergues came from, and Brittany, where they had their ancient paternal roots. Concerning the DNA of his brother in law, illustrative for his wife, the author discovered results in agreement with his wife's ancestors' history. A Part Brittany in France goes deeper into the life of Bertrand Du Guesclin and the fact that he begot offspring in Spain. The latter is well-known, and the book provides a comprehensive literature survey on this subject. Apart from autosomal DNA, pointing at ancient roots in Brittany, the author also uncovered indications in documents retrieved in Spain in the archives of de Pedroló, equally descendants of the Desclergues. A major Part describes the Desclergue family of Montblanc and their settlement in Belgium. A lot of this knowledge had already been described by earlier investigators, and an exhaustive overview of all existing knowledge about the family is provided insofar as published in the past. In addition, the author provides extensive research results not described formerly, particularly of the Desclergues who left Spain for Flanders around 1600 and their descendants. The unravelled archives include civil and ecclesiastic records and documents found in the libraries of some Spanish military strongholds in Flanders. The book situates the facts in history and supplies valuable general knowledge to broad readers. The data range from the 1500s until the present and cover the author's paternal ancestry line. Numerous military campaigns in the 16th and 17th centuries are clarified, with particular attention to the lives and involvements of the Desclergues. As a coincidence, the author's mother also stems from the Desclergues, and this line is equally represented. A large part is devoted to the de Silva family of Uduwara from whom the author's wife stems. This is particularly interesting to globe trotters and describes the long paternal history of the author's wife, Shirani de Silva. The bloodline originated in the North West of India and migrated through Persia to Byzantine. They continued to Iberia, where they arrived as new settlers and mixed with locals. The family line of Carvalho, so initiated, later blended with de Silva, consequently migrated to Goa during the Iberian expansion to India. From Goa, they relocated to Uduwara in Sri Lanka to protect a fortification on the Kalu Ganga river. The evidence contains documents, DNA analysis and new archaeological findings in Uduwara and Goa. Other ancestry lines are described separately. Some may only be interesting to his descendants; others are, again, of general interest, such as the family of de Patin that played an essential role during the Belgian Austrian era. Although not anticipated early in this research, the author discovered Antoni Desclergue's (DC06) involvement in establishing a chapel in Deerlijk in Belgium. The evidence is provided by archaeological discoveries and records and is extensively described in a separate part. The facts are essential in understanding the influence of Monblanquians in Flanders but are also thought-provoking for the inhabitants of Deerlijk. Indeed, the village's ancient legend of a miracle in 1634 is based on solid ground and not on a fairy tale as one believed during the previous decennia. The nobleman in the story was Antoni Desclergue, while the events were almost an exact copy of the legend of Mare de Deu de la Serra in Montblanc. The main difference is that oxen were involved in Montblanc and horses in Deerlijk. The oldest known depiction of the miracle exposes an image of Monblanc's Mare de Deu de la Serra and discloses Antoni Desclergue's initials. Furthermore, Antoni Desclergue later ornamented the chapel with the artwork. For instance, he provided a polychrome panel depicting the Main Square of Montblanc, including the House of Desclergue and also a beautiful statuette by Cano.
