Etrian Odyssey ,2016

GameAxis Unwired ,2007-07 GameAxis Unwired is a magazine dedicated to bring you the latest news, previews, reviews and events around the world and close to you. Every month rain or shine, our team of dedicated editors (and hardcore gamers!) put themselves in the line of fire to bring you news, previews and other things you will want to know.

Cognitive Drawing Jason Brubaker, 2023-07 Become the Artist of Your Dreams! Cognitive Drawing: Learn the Male Figure was created for the purpose of helping new and experienced artists overcome a difficult task: learn how to draw anything quickly, and from memory! Developed with scientifically proven techniques, this book will help you permanently memorize the entire male anatomy and so much more. Cognitive Drawing is great for homeschooling, drawing groups, and personal education alike. See why families are calling it The best way to learn to draw!

A Guide to Japanese Role-Playing Games Bitmap Books, 2021-10-25

[illegible]

The Book of Mastery Paul Selig, 2016-01-05 The first book in channeler Paul Selig's widely anticipated Mastery Trilogy leads you into an unprecedented journey of self-development, at once building your personal excellence and your ability to improve life for others. The channeled literature of Paul Selig -- who receives clairaudient dictation from unseen intellects called the Guides -- has quickly become the most important and celebrated expression of channeling since A Course In Miracles rose to prominence in the 1970s. Selig's three previous books -- I Am the Word, The Book of Love and Creation, and The Book of Knowing and Worth -- have won a growing following around the world for their depth, intimacy, and psychological insight. Now, Selig embarks upon an extraordinary new trilogy on the "Teachings of Mastery" with his inaugural volume: The Book of Mastery. The Book of Mastery provides a deeply practical prescription for heightening your abilities, aptitudes, and sense of personal excellence. The Guides' teachings go much further, however, instructing you how to improve life for others and, ultimately, for global humanity. As the Guides themselves put it: "We will tell you this: No one who reads these books will be left unchanged. They will be like molecular systems that reinvigorate and realign and reclaim the reader to themselves in their worth, in their identity and, beyond that, in their physical realm. Underline physical realm if you like. Because the physical realm that we teach in is about to go back to the stone ages unless you all get it together."

Written in the Blood Stephen Lloyd Jones, 2015-05-26 Chilling . . . A neo-gothic treat; original, richly imagined, and powerfully told. --The Guardian (UK) for *The String Diaries* See the girl. Leah Wilde is twenty-four, a runaway on a black motorbike, hunting for answers while changing her identity with each new Central European town. See the man, having come of age in extraordinary suffering and tragedy in nineteenth-century Budapest; witness to horror, to love, to death, and the wrath of a true monster. Izsák still lives in the present day,

impossibly middle-aged. He's driven not only to hunt this immortal evil but to find his daughter, stolen from an Arctic cabin and grown into the thing Izsák has sworn to kill. See the monster, a beautiful, seemingly young woman who stalks the American West, seeking the young and the strong to feed upon, desperate to return to Europe where her coven calls. *Written in the Blood* is the epic thriller of the year, a blazing and dexterous saga spanning generations, and threading the lives of five individuals driven by love, by sacrifice, by hunger and by fear. They seek to save a race--or to extinguish it forever.

Hardcore Gaming 101 Presents: Japanese Video Game Obscurities Kurt Kalata, 2019-11-14 Japan has produced thousands of intriguing video games. But not all of them were released outside of the country, especially not in the 1980s and 90s. While a few of these titles have since been documented by the English-speaking video game community, a huge proportion of this output is unknown beyond Japan (and even, in some cases, within it). *Hardcore Gaming 101 Presents: Japanese Video Game Obscurities* seeks to catalogue many of these titles – games that are weird, compelling, cool or historically important. The selections represent a large number of genres – platformers, shoot-em-ups, role-playing games, adventure games – across nearly four decades of gaming on arcade, computer and console platforms. Featuring the work of giants like Nintendo, Sega, Namco and Konami alongside that of long-forgotten developers and publishers, even those well versed in Japanese gaming culture are bound to learn something new.

Phantasmal Media D. Fox Harrell, 2013-11-08 An argument that great expressive power of computational media arises from the construction of phantasms—blends of cultural ideas and sensory imagination. In *Phantasmal Media*, D. Fox Harrell considers the expressive power of computational media. He argues, forcefully and persuasively, that the great expressive potential of computational media comes from the ability to construct and reveal phantasms—blends of cultural ideas and sensory imagination. These ubiquitous and often-unseen phantasms—cognitive phenomena that include sense of self, metaphors, social categories, narrative, and poetic thinking—influence almost all our everyday experiences. Harrell offers an approach for understanding and designing computational systems that have the power to evoke these phantasms, paying special attention to the exposure of oppressive phantasms and the creation of empowering ones. He argues for the importance of cultural content, diverse worldviews, and social values in computing. The expressive power of phantasms is not purely aesthetic, he contends; phantasmal media can express and construct the types of meaning central to the human condition. Harrell discusses, among other topics, the phantasm as an orienting perspective for developers; expressive epistemologies, or data structures based on subjective human worldviews; morphic semiotics (building on the computer scientist Joseph Goguen's theory of algebraic semiotics); cultural phantasms that influence consensus and reveal other perspectives; computing systems based on cultural models; interaction and expression; and the ways that real-world information is mapped onto, and instantiated by, computational data structures. The concept of phantasmal media, Harrell argues, offers new possibilities for using the computer to understand and improve the human condition through the human capacity to imagine.

Persona Q: Shadow of the Labyrinth - Strategy Guide GamerGuides.com,2015-11-07 With the eerie tolling of the Yasogami High School bells, 18 Persona-users find themselves trapped inside the labyrinth of a strange other-world. There, they meet Zen and Rei, an odd duo who have lost their memories. As the parties come together to seek an escape, a mysterious shadow creeps ever nearer. Persona Q combines the story and characters of Persona with the gameplay of Atlus' dungeon-crawling role-playing series, Etrian Odyssey. You will find a plethora of information in this guide, including: - A complete walkthrough of the game's story. - Detailed maps for every single floor of every dungeon in the game. - How to complete all of Elizabeth's Requests. - Lists for every item in the game. - Some tips on how to use the characters in your party. - The basics to understanding the complex Fusion system.

Game Design Deep Dive Joshua Bycer,2023-10-30 Game Design Critic Josh Bycer is back with another entry in the Game Design Deep Dive series to discuss the Role-Playing Game genre. Arguably one of the most recognizable in the industry today, what is and what isn't an RPG has changed over the years. From the origins in the tabletop market, to now having its design featured all over, it is one of the most popular genres to draw inspiration from and build games around. This is a genre that looks easy from the outside to make, but requires understanding a variety of topics to do right. • A breakdown of RPG mechanics and systems, perfect for anyone wanting to study or make one themselves • The history of the genre – from tabletop beginnings to its worldwide appeal • The reach of the genre – a look at just some of the many different takes on RPGs that have grown over the past 40 years • An examination of how RPG systems can be combined with other designs to create brand new takes

The Werewolf of Bamberg Oliver Pötzsch,2015 A 1668 family vacation turns into a nightmare when a series of violent murders are thought to be the work of a werewolf.

Maze of the Blue Medusa Zak Sabbath,Patrick Stuart,2016-06-30 Infinite broken night. Milky alien moons. Wavering demons of gold. Held in this jail of immortal threats are three perfect sisters...Maze of the Blue Medusa is a dungeon. Maze of the Blue Medusa is art. Maze of the Blue Medusa works with your favorite fantasy tabletop RPGs. And Maze of the Blue Medusa is the madly innovative game book from the award-winning Zak Sabbath of A Red & Pleasant Land and Patrick Stuart of Deep Carbon Observatory. Lethal gardens, soul-rending art galleries, infernal machines--Maze of the Blue Medusa reads like the poetic nightmare of civilizations rotted to time, and plays like a puzzle-box built from risk and weird spectacle.Praise for Zak Sabbath:Zak is not just imaginative, he's bold. Which means that while he recognizes the value of fantasy traditions, he doesn't hesitate for a moment to throw out anything that's become tired or dull.-- Monte Cook, author of NumeneraPraise for Patrick Stuart's Fire on the Velvet Horizon:Superpositioning with strange panache, Velvet Horizon is an (outstanding) indie role-playing-game supplement, and an (outstanding) example of experimental quasi-/meta-/sur-/kata-fiction. Also a work of art. Easily one of my standout books of 2015.-- China Miéville, author of Perdido Street Station

The Art of Persona 5 Prima Games,2017 Presents conceptual artwork, sketches, storyboards, and background notes for the characters and robots of the role-playing game.

Game Art Matt Sainsbury,2015-09-01 Game Art is a collection of breathtaking concept art and behind-the-scenes

interviews from videogame developers, including major players like Square Enix, Bioware, and Ubisoft as well as independent but influential studios like Tale of Tales and Compulsion Games. Immerse yourself in fantastic artwork and explore the creative thinking behind over 40 console, mobile, and PC games. A lone independent developer on a tiny budget can create an experience as powerful and compelling as a triple-A blockbuster built by a team of 1,000. But like all works of art, every game begins with a spark of inspiration and a passion to create. Let Game Art take you on a visual journey through these beautiful worlds, as told by the minds that brought them to life.

Digital Games as History Adam Chapman, 2016-05-05 This book provides the first in-depth exploration of video games as history. Chapman puts forth five basic categories of analysis for understanding historical video games: simulation and epistemology, time, space, narrative, and affordance. Through these methods of analysis he explores what these games uniquely offer as a new form of history and how they produce representations of the past. By taking an inter-disciplinary and accessible approach the book provides a specific and firm first foundation upon which to build further examination of the potential of video games as a historical form.

Forbidden Scrollery, Vol. 1 ZUN, 2017-11-21 Where else would a girl with the power to translate any tome she sets in her lap reside except a library? Sure, some books may be more dangerous than others, but that's far from discouragement for a true bibliophile like Kosuzu Motoori!

Corpse Party: Book of Shadows Makoto Kedouin, 2017-11-21 The past comes calling... Return once more to the haunted halls of Tenjin Elementary School to explore the what-ifs, should-haves, and could-have-beens of Corpse Party: Blood Covered. After all, didn't everything wrap up just a little too nicely the first time around...?

The Sky Yoshitaka Amano, 2014-11-18 The Sky Book Three contains Amano's sketches and paintings for Final Fantasy VII (1997), VIII (1999), IX (2000) and X (2001), depicting characters such as Zidane Tribal, Garnet Til Alexandros XVII, Adelbert Steiner, Vivi Orunitia, Amarant Coral, Queen Brahne and many others. Bonuses include a series of silkscreen images done for Final Fantasy VIII, unreleased pen-and-ink sketches of the Gunblade and designs for the gemlike logo of Final Fantasy IX. Book Three completes The Sky series at a special low price!

Delicious in Dungeon, Vol. 1 Ryoko Kui, 2017-05-23 When young adventurer Laios and his company are attacked and soundly thrashed by a dragon deep in a dungeon, the party loses all its money and provisions...and a member! They're eager to go back and save her, but there is just one problem: If they set out with no food or coin to speak of, they're sure to starve on the way! But Laios comes up with a brilliant idea: Let's eat the monsters! Slimes, basilisks, and even dragons...none are safe from the appetites of these dungeon-crawling gourmands!

Immerse yourself in the artistry of words with is expressive creation, **Etrian Odyssey** .
