**Treasure of the Sahara** Randy Jones,2020-06-05 JB became a self-made Billionaire by selling the huge Internet company he started 10 years earlier. He sold his company to the largest Internet search engine company in the world in exchange for \$18.8 billion. The initial investment JB made to create his company was less than \$7,000, so selling the company was a no brainer. After selling the company, JB increased his wealth to over 24 billion through some very wise investments. JB's current business is in investments. He buys and sells big time real estate. He also invests in young entrepreneurs and new startup companies. He is JB McGregor of the U.S. Virgin Islands. Specifically, Papaya Island, also known locally as McGregor Island, located in a small cluster of islands just to the north of St. Thomas and St. John. JB also has a cottage in Key West Florida, a multi-million dollar mansion on the waterway in Fort Lauderdale off of Bayview Drive, and a huge ocean-front mansion just outside Honumu, Hawaii. JB will be giving the cottage in Key West Florida to a former employee as a retirement gift as soon as the current cottage remodeling job is complete. JB is recognized in the media as one who helps and shares his wealth without hesitation. Most of JB's staff travel with him everywhere he goes. They are all paid very well and have excellent benefits. His employees are also extremely loyal to him. JB has provided each staff member with superb medical insurance along with an outstanding 401k plan. The age of most staff members is about 33 years old, the same age as JB. On Papaya Island, they all live in the bungalow's JB had built, which are nestled in the dense vegetation just out of sight of the main house on the island. When JB is in Hawaii, they have a similar setup. When in Fort Lauderdale, JB's staff members usually stay on the yacht where they each have their own cabin. JB and his staff maintain offices in the Papaya mansion, the Honumu mansion, and on his yacht. Since selling his company, JB has had several thrilling adventures. The adventures magically come his way, thanks to Sam Peters, his business partner and sometimes the adventures come from one of the entrepreneurs JB has invested in. Most of these adventures have paid off very well. Plus, the adventures are usually fun and exciting... JB McGregor is asked by two of his employees to help a man they had met at a yacht convention in Florida, David Wade. David wants to find some valuables that had been confiscated by dictators in Italy, Germany, and various other countries from families during between 1933 and 1945 World War II. David wants to return the valuables to the rightful owners or descendants. David Wade's father and his grandfather performed years of research and are almost certain that the valuables were being transported on a DC-3 airplane that crashed in the Sahara desert in 1953. An expedition to the Sahara desert is formed to try and find a DC-3 airplane that crashed in 1953. The airplane was transporting stolen family treasures by various dictators during World War 2. The airplane was heading from Johannesburg South Africa to the United States where the treasures would be sold off. The airplane crash is assumed to be in the vicinity of the Ahaggar Mountains (also known as Hoggar Mountains) near Tamanrasset, Algeria because the last radio transmission of the DC-3 was to the Tamanrasset airport. Unfortunately, a team of known criminals somehow got wind of the treasure and follow JB's expedition throughout the desert.

**US-China Global Maritime Relations** Nong Hong, 2023-12-01 This book explores the U.S.-China maritime relationship, examining the development and implementation of the maritime strategies of both the United States and China. Delving into the U.S.-China maritime relationship within the global context, the book investigates six key maritime regions: the South China Sea, the Northeast Asia waters (the East China Sea, the Yellow Sea), the Indian Ocean, the South Pacific Ocean, as well as the Arctic and Antarctic regions. Its observations form a comprehensive exploration of these regions and their significance in shaping the dynamics between the two nations, and this analysis reveals that an expanded view is necessary to discover and clearly display the role that these maritime regions currently—and could potentially—play in overarching U.S.-China relations. Examining both the ongoing conflicts and opportunities for cooperation in the global maritime domain between the United States and China, this book will be a valuable resource to students and scholars of international relations, Chinese and U.S. politics, strategic studies, and maritime studies.

**The Role of Dual-Use Helicopters in the Security and Defence Field** Alessandro Marrone, Michele Nones , 2015-07-21 In the current debate on military capabilities and defence industry, the term “dual-use” means those technologies that can be used to develop systems and equipment for both civilian and military purposes. Changes occurred in modes of technological innovation have brought about a growing interconnection between the civilian, security and defence sectors, especially from an industrial point of view. In this context, “dual-use helicopters” refer to platforms that have been designed in compliance with certain standards and are structurally built so that they can satisfy civilian, military or security users with only minimal adjustments or additions. This volume analyses the use of helicopters by armed forces, law enforcement agencies and emergency services, in three countries: Italy, France and the United Kingdom. Such landscape is diversified and fragmented, with different approaches and above all helicopter fleets made up of diverse platforms of subsequent generations – some with more than 30 years of life cycle behind them. In all three countries, national defence budget’s restrictions have demanded more efficient solutions for the necessary fleet renewal and management in the medium term – a renewal often coupled with a quantitative reduction. In this respect, the option of a dual-use helicopter becomes interesting in that it ensures greater security, effectiveness and efficiency in use by armed forces. This calls for a common and in-depth reflection on the problem by all actors in the defence and security field.

**A Deadlier Breed** John Wayne Falbey, 2018-11-01 Evolution doesn’t stop with Homo sapiens... Thousands of Islamic

terrorists have infiltrated America. And they have nukes. One was used to destroy the Los Alamos National Laboratory and the surrounding town. The terrorists have moved the remaining weapons to a point just over the border in Mexico and plan to detonate them in major American cities within days. To avoid the widespread panic that public knowledge of the situation would cause, the newly elected president of the United States privately turns to a secretive paramilitary group known as the Sleeping Dogs. Its dysfunctional members share a rare genetic attribute that makes them the world's deadliest hunter-killer black ops team. But the group's director runs afoul of a special counsel investigating the new president's campaign activities. Their leader, Brendan Whelan, has a marital crisis on his hands. And a traitor within the administration is leaking vital security information to both the special counsel and an entity that seeks to create a one-world government by supporting the terrorists. Compounding the threat, that entity has recruited a group of killers with the same rare genetic attribute as the Sleeping Dogs. Their purpose is to eliminate the Dogs. Time is critical and Whelan and the Sleeping Dogs face their most dangerous challenge yet.

Under Pressure Robert Pobi, 2020-08-04 Complexly plotted... skillfully drawn. --The Wall Street Journal A series of deadly explosions rock the city of New York and with too many victims and no known motive, the F.B.I. turns once again to Dr. Lucas Page in Robert Pobi's *Under Pressure*. On a beautiful October evening, New York City's iconic Guggenheim Museum is closed for a tech company's private gala. Until an explosion rocks the night, instantly killing 702 people, including every single attendee—yet the damage to the building itself was minimal. An explosion of that precision was no accident and, in response, the FBI mobilizes its entire team -- but the sheer number of victims strains their resources. Were all 702 victims in the wrong place at the wrong time, or was there only one target and 701 unlucky bystanders? That many victim files is a staggering amount of data to sort through and Brett Kehoe, Special Agent in Charge of Manhattan, decides that he can't do this without more computational power. Dr. Lucas Page, astrophysicist, university professor, and former FBI agent, is uniquely gifted for the task at hand—he can visualize a crime scene as if he was a bystander and can break down any set of data at a glance. Even though Page wants nothing to do with the FBI, with his city under attack and his family at risk, he steps in to find a killer in a haystack before they strike again.

Field of Valor Matthew Betley, 2019-06-25 Set in the aftermath of the “riveting...action-packed” (Joan Lunden, New York Times bestselling author) *Oath of Honor* and the discovery of a deadly global conspiracy, the president requests Logan West to form a covert task force with the mission to dismantle a nameless enemy in this “fast, hard-hitting, and impossible to put down” (The Real Book Spy) thriller. With the full resources of the Justice Department, Intelligence Community, and the military (not to mention presidential pardons pre-signed), Logan must battle a secret organization with the connections and funding to rival many first-world nations. The sinister goal of this organization—to pit the United States against China in a bid to dismantle the world's security and economy. Back on US soil, Logan and his task force pursue the elusive foe from the woods of northern Virginia to the banks of the Chesapeake Bay, from suburban Maryland across the urban sprawl of Washington DC. The stakes have never been higher for Logan or America itself... “Suspenseful, inventive, and relentless, *Field of Valor* unfolds at lightning pace” (Meg Gardiner, New York Times bestselling author) and is perfect for fans of the pulse-pounding works of Brad Thor, Vince Flynn, and Jack Carr.
