The stone holds the key to an ancient evil concealed in one of Norse mythology's holiest places: Valhalla. Travelling to Sweden, Eddie and Nina find themselves in a race against time to locate the legendary hall of the Viking warriors - before rival powers claim its deadly contents for themselves. It is a quest that will force Eddie to revisit a dark chapter from his mercenary days that he has kept hidden from everyone...including his wife. Both injured by the same man who killed their mother, they are further traumatized when they are used as a pawn in a scheme to extort money from one member of the Peterson family. An important dance competition sees the family confront enemies from their past. Who will be the victor? A natural disaster results in irreparable damage to Vincenzo's Restaurant and Ballroom. Can the family survive yet another tragedy?

Treason Newt Gingrich, Pete Earley, 2016-10-11 Major Brooke Grant must track down the double agent who is infiltrating the U.S. government in this international thriller from influential politician Newt Gingrich and Pulitzer Prize finalist Pete Earley. Brooke Grant has been waging war against terrorism since her parents were murdered during 9/11, keenly aware that violence transcends borders. But after a coordinated attack on the president at a Washington power broker's funeral, she realizes that the

enemy is closer than she'd ever imagined, hiding in plain sight. The Falcon has gained a weapon no terrorist has ever wielded before: an American-born traitor burrowed inside the U.S. government itself. Major Grant's deadly chess match with the Falcon turns personal when he issues a fatwa against her and those she loves. Can she unmask the traitor and stop the Falcon's most skilled assassin sent to kill her before he strikes? Or will she fall victim to betrayal by a false friend in this gripping story of treachery, courage, and the patriotic fight against evil? In this realistic tale of modern-day treason, a nation fights for its life against an internal threat: a fanatical jihadist who uses liberty as a shield while trying to destroy the civilization created in its image. With decades of knowledge in national security and politics, only Newt Gingrich and Pete Earley could spin such a vivid mix of reality and fiction -- a page-turner that dares readers to guess where the line between the two is crossed.

Dead Eye Mark Greaney, 2018-07-31 Ex-CIA master assassin Court Gentry gets hit with a blast from the past in the fourth Gray Man novel from #1 New York Times bestselling author Mark Greaney. Court Gentry has always prided himself on his ability to disappear at will, to fly below the radar and

exist in the shadows—to survive as the near-mythical Gray Man. But when he takes revenge upon a former employer who betrayed him, he exposes himself to something he’s never had to face before: a killer who is just like him. Code-named Dead Eye, Russell Whitlock is a graduate of the same ultra-secret Autonomous Asset Program that trained and once controlled Gentry. But now, Whitlock is a free agent who has been directed to terminate his fellow student of death. He knows how his target thinks, how he moves, and how he kills. And he knows the best way to do the job is to make Gentry run for his life—right up until the moment Dead Eye finally ends it...

Ready for Takeoff Roger Cliff, Chad J. R. Ohlandt, David Yang, 2011 This monograph assesses China's aerospace capabilities and the extent to which China's participation in commercial aerospace markets and supply chains is contributing to the improvement of those capabilities. It examines China's commercial aviation manufacturing capabilities, its commercial and military capabilities in space, Chinese government efforts to encourage foreign participation in the development of China's aerospace industry, transfers of foreign aerospace technology to China, the extent to which U.S. and other foreign aerospace firms depend on supplies from China, and the implications of these issues for U.S. security interests. China's aerospace industry has advanced at an impressive rate over the past decade, partly due to the increasing participation of its aerospace industry in the global commercial aerospace market and the supply chains of the world's leading aerospace firms. China's current ability to meet demand with indigenous aircraft is limited, however, and much of the demand will be filled by imported aircraft. China's space capabilities have improved rapidly, on the other hand, and it has developed and deployed an increasingly wide range of satellites. China's growing civilian aerospace

capabilities are unquestionably contributing to the development of its military aerospace capabilities, but whether the United States could significantly improve its security through alterations of its policy toward civil aerospace cooperation with China without having a significant negative effect on its own economic interests is unclear.

Cure Steven John Howard,2018-03-21 The book is an action-packed thriller, a roller coaster of a read with a pace that increases throughout and has lots of twists and turns in its cunning plot, climaxing in an explosive and gratifying end, with excitement, love, violence, and scenes of a highly sexual nature. A young scientist believes that she has found the answer to curing the worlds most incurable disease, cancer; however, there are greater forces, higher powers, and very influential people that want to see the cure suppressed and controlled by them. The colorful characters throughout are what make the story the nail-biter it is as they fight to control the cure each for their very different reasons and purpose. Will Claire Blake and her friends survive the frightening ordeals

that are to come their way? The story isn't just a shoot-em-up, car-chase, espionage, cops-n-bad-guys theme; it also touches on terrorism, religion, and many moral viewpoints that are influenced by our world's governments and holy leaders. An enjoyable read but strictly for adults!

The Pillars of Destiny Bob Butalia,2015-11-25 The Pillars of Destiny is an action packed slickly crafted thriller with a stunning climax. It is a gripping sequel to In the Shadows of Destiny where Durga emerges as prime minister of India, following the biggest terror strike the world has ever seen.

Widespread skepticism of Durgas ascension seems justified as India reels under blows from Chinas Peoples Liberation Army and Pakistans Inter-Services Intelligence. The Indian aircraft carrier Vikramaditya is crippled by a highly innovative strike by Major Dingbang even as Chinese and Pakistan instigated insurgent attacks overwhelm India. The top Indian military leadership is killed by a cruise missile attack and the narrow Siliguri Corridor is almost severed by a PLA attack. Durga takes tough decisions to fan Uyghur resistance in Xinjiang, orders launch of a armor strike against terror bases in Pakistan, gets a giant Chinese oil tanker captured by Somali pirates and authorizes a Special Forces drop to cut the Western Highway joining Tibet and Xinjiang. As the conflict escalates a high tech Indian air attack against a tunnel in the perma frost zone cripples the Lhasa-Golmud high altitude railway line. In sync with instigating widespread internal sabotage and communal riots in India, also abetted by Pakistan, China launches an offensive to cut off north east India through Bhutan.

Better Dead Than Bred Sharon J Hamilton,2022-01-04 Better Dead Than Bred, the rallying cry of rogue activists from PETA (People for the Ethical Treatment of Animals) erupted loudly in Vallejo, California, in 2018. Bursting into a major dog competition, these activists caused the death of many pure-bred show dogs by releasing the animals and shooting them outside onto a nearby highway. Also, in searing heat, they unplugged the electricity to their owners' motorhomes, killing the air conditioning and, consequently, killing the show dogs sheltering inside. "Better dead than bred!" they yelled. It was disgusting. It was horrible. It was riveting. The movement's existence and raison d'être raise some massive questions, tackled here in this tale of a decent man lured into hell by an animal rights activist who believes he's the devil and that his life's purpose is to tempt good people into evil. Sean

Bergmann is a retired engineer, happily married and living a comfortably insulated life with his two beloved shelties, Opi and Echo, whom he trains to compete in dog shows. But just as Opi enters the ring for the Best in Show contest, Sean Bergmann's ordinary life collides with a force that is distinctly out of the ordinary. Cooper Newsome and three of his activist acolytes invade the show, open crates, and scatter the precious dogs. In the process, Opi is killed and Echo goes missing. Cooper leaves his business card, inscribed with the words "Better Dead Than Bred." Sean vows revenge at whatever cost. This story follows both the revenge and its cost, including Sean's involvement with Cooper's organization so he might spy on the activists until he's learned enough to cause them meaningful damage. But he loses his identity and ethical core along the way, eventually even participating in the theft of puppies to be sold to a dog fight organizer. Sean achieves retribution at last in this battle for animal rights and his soul in the form of a furious conflagration that wipes out the bad guys . . . or does it?
