The Impossible First Colin O'Brady,2020-11-17 In this Young Readers Edition of Impossible First--perfect for fans of My Shot by Elena Delle Donne and Shaken by Tim Tebow--Colin O'Brady vividly recounts his fifty-four-day, unsupported, record-shattering solo crossing of Antarctica using every ounce of his strength, years of training, and sheer force of will. Prior to December 2018, no individual had ever crossed the landmass of Antarctica alone, without support, and completely human-powered. But Colin O'Brady was determined to do just that--even though ten years earlier a tragic accident raised doubts that he'd ever walk again normally. O'Brady's quest drew him into a head-to-head battle with British SAS Captain Louis Rudd--also striving to be "the first." Enduring Antarctica's sub-zero temperatures and pulling a sled that initially weighed 375 pounds--in complete isolation and through a succession of whiteouts, storms, and a series of near disasters--O'Brady journeyed 932 miles to a world's first. Honest, deeply moving, filled with moments of vulnerability--and set against the backdrop of some of the most extreme environments on earth, from Mount Everest to Antarctica--The Impossible First reveals how anyone can reject limits, overcome immense obstacles, and discover what matters most.

Explorer's Wife Emma Wotton De Long, 2016-09-06 First published in 1938, Explorer's Wife is a heartfelt autobiography by Emma Wotton De Long, widow to arctic explorer George Washington De Long, lost to the disastrous Jeannette Expedition, 1879-1881. This endearing and detailed account recalls the lives of Emma and George during their young courtship, the preparations of the Jeannette Expedition, through to its voyage and ultimate demise. Written from a woman's perspective, her story chronicles the departure and loss of her husband through letters exchanged between the two, along with documents and anecdotes from the time. The Jeannette Expedition was captained by George Washington De Long, a US naval officer, and set sail for the arctic in 1879. Along with many of his men, De Long perished when their expedition ran into problems in the Bering Sea. Of the 33 crew members that departed on the voyage, only 13 arrived safely back on US soil. In this compelling account, Emma Wotton De Long provides a refreshing perspective on the naval catastrophe from a widow's point of view. Explorer's Wife is an excellent read for any interested in tragic maritime history and those looking to learn more about the arctic

explorations of the past.

Plume: World Explorer Tania McCartney, 2022-05-04 Hitch a ride on the Albatross Express and travel the globe with Plume: World Explorer. This exciting new picture book series for little ones celebrates culture, diversity and the natural wonders of our world. Plume is not your typical Antarctic penguin. Sporting a bright yellow plume on the top of his head, Plume is bored of black and white, of shuffling around and snoozing on icebergs. He much prefers to cook, read, knit and sky dive. He craves colour, adventure, excitement! He wants to seize the world he's discovered in the books of his fantastical, glacier library (the largest in the Southern Hemisphere). Plume's great hope is to grow the hearts and minds of his penguin friends. Through his travels, children will engage with themes such as friendship, acceptance, understanding and the wellbeing of our planet. Plume is truly a book series for our times.

Amazing Arctic Explorer Matthew Henson Mary Dodson Wade, 2009-07-01 This volume explores the life of the man who went with Robert Peary to the North Pole. Because he was African American, his contributions to the North Pole expeditions were largely ignored for a number of years. Young readers will be interested in this amazing American.

Christopher Columbus Henrietta Toth, 2016-07-15 The true legacy of Christopher Columbus is much more complex than the familiar myth of him as the celebrated founder of the New World. On his voyages to islands in the Caribbean, he killed and enslaved many native people and was even arrested in Spain for his tyrannical governance of the lands he still believed to be the Indies. This resource takes a critical look at Columbus's actions, their implications for colonization and cross-cultural exchange, and their lasting impact on today's world.

Christopher Columbus Kathleen Kudlinski, 2005-03 CHILDHOOD OF WORLD FIGURES Christopher Columbus was born in Italy in 1451. His father was a weaver, but like most young men living near a seaport, Columbus looked to the sea to find his calling. In 1477, after serving as a messenger and sailor on many ships, Columbus settled in Portugal. It was there he first tried to gain support for his dream of reaching Asia by sailing west. It wasn't until nearly fifteen years later that Columbus gained support from Spain and set out on the momentous expedition that landed him in the Americas in 1492. Christopher Columbus is considered one of the world's most famous explorers. This fascinating biography details Columbus's childhood, which shaped his adventurous spirit.

Corporate Explorer Andrew Binns, Charles A. O'Reilly, Michael Tushman, 2022-01-28 Corporate Explorers Transform Disruption Into Opportunity With This Proven Framework Innovation used to be seen as a game best left to entrepreneurs, but now a new breed of corporate managers is flipping this logic on its head. These Corporate Explorers have the insight, resilience, and discipline to overcome the obstacles and build new ventures from inside even the largest organizations. Corporate Explorers are part entrepreneurs, using innovation disciplines to jump start cutting-edge ideas, and part change leaders, capable of creating support for investment. They see that corporations already own the ideas, resources, and—critically—the talent to build new ventures. Companies like Amazon, Microsoft, Bosch, LexisNexis, and Analog Devices enable managers to put these assets to use and gain an upper hand over startups that threaten to disrupt them. Corporate Explorer is a guidebook to the practices that

enable these managers to go from idea into action. It demonstrates how success is not only possible but may offer entrenched companies better odds than venture-capital backed startups. This actionable and proven framework explains how managers can become successful corporate innovators; it includes tools to: Learn how to apply innovation practices with greater discipline Turn great ideas into a full-time job as an innovation leader Experiment with and scale original business models Transform innovation programs into a thriving source of new business Attract, retain, and motivate entrepreneurial talent Energize employees by creating a realistic way to innovate These lessons come from the trailblazers of corporate innovation—Andrew Binns (Change Logic), Charles O'Reilly (Stanford Graduate School of Business), and Michael Tushman (Harvard Business School)—who have decades of experience helping entrepreneurial-minded executives activate employees to become Corporate Explorers.

Entrepreneurs take notice—it's time for Corporate Explorers to set the pace and chart the course for disruption.
