Unacceptable Sacrifice (Reality Benders Book #11): LitRPG Series Michael Atamanov, 2024-04-10 Earth seceded from its suzerains' state and declared independence. Naturally, such a bold move did not go unnoticed by its powerful neighbors in space, who had aggressive plans for the inhabitable yet overly self-reliant planet. With black clouds gathering and the term of safety growing ever shorter, positive lines of the probable future for Earth's humanity and its allies were nowhere to be seen despite all Gnat the Devourer's efforts and unique abilities. His one remaining

option - to seek advice from someone who never erred and knew everything there was to know - the Great First Female of the Miyelonian race. And although the Great One lived many millennia in the past, since when was time an obstacle to a person capable of controlling chronostreams and manipulating reality?

Pinnacle Station Jesse Sobel, 2017-02-14 Takren starts his space-faring career as an orphan from Earth, and he quickly fell under the wing of a mentor, Drem. In the charted sections of the galaxy, Takren quickly sees firsthand the effect of Unisec, a faction in space that demands complete control and rule of the charted sections. With influences in every facet of space-based operations, Unisec is not a welcomed faction. In this very hostile and tense universe, Takren quickly learns that his goal is to simply stay alive. Nothing else matters. This first week, Takren sees firsthand what hell need to do to survive, and thanks to Drem, Skeeche, and the rest of the Rocketeers, he learns about the world he now treads in and how to live in it.

Exterminator! William S. Burroughs, 2012-08-02 A man, dispirited by ageing, endeavours to steal a younger man's face; a doctor yearns for a virus that might eliminate his discomfort by turning everyone else into doubles of himself; a Colonel lays out the precepts of the life of DE (Do Easy); conspirators posthumously succeed in blowing up a train full of nerve gas; a mandrill known as the Purple Better One runs for the presidency with brutal results; and the world drifts towards apocalypses of violence, climate and plague. The hallucinatory landscape of William Burroughs' compellingly bizarre, fragmented novel is constantly shifting, something sinister always just beneath the surface.

Decline and Reimagination in Cinematic New York Cortland Rankin, 2022-09-02 Decline and Reimagination in Cinematic New York examines the cinematic representation of New York from the mid-1960s through the mid-1980s, placing the dominant discourse of urban decline in dialogue with marginal perspectives that reimagine the city along alternative paths as a resilient, adaptive, and endlessly inspiring place. Drawing on mainstream, independent, documentary, and experimental films, the book offers a multifaceted account of the power of film to imagine the city's decline and reimagine its potential. The book analyzes how filmmakers mobilized derelict space and various articulations of "nature" as settings and signifiers that decenter traditional understandings of the city to represent New York alternately as a desolate wasteland, a hostile wilderness, a refuge and playground for outcasts, a home to resilient and resourceful communities, a studio for artistic experimentation, an arcadia conducive to alternative social arrangements, and a complex ecosystem. This book will be of interest to scholars and students of film studies, media studies, urban cinema, urban studies, and eco-cinema.

Getting Under Our Skin Lisa T. Sarasohn, 2021-09-21 How vermin went from being part of everyone's life to a mark of disease, filth, and lower status. For most of our time on this planet,

vermin were considered humanity's common inheritance. Fleas, lice, bedbugs, and rats were universal scourges, as pervasive as hunger or cold, at home in both palaces and hovels. But with the spread of microscopic close-ups of these creatures, the beginnings of sanitary standards, and the rising belief that cleanliness equaled class, vermin began to provide a way to scratch a different itch: the need to feel superior, and to justify the exploitation of those pronounced ethnically—and entomologically—inferior. In *Getting Under Our Skin*, Lisa T. Sarasohn tells the fascinating story of how vermin came to signify the individuals and classes that society impugns and ostracizes. How did these creatures go from annoyance to social stigma? And how did people thought verminous become considered almost a species of vermin themselves? Focusing on Great Britain and North America, Sarasohn explains how the label vermin makes dehumanization and violence possible. She describes how Cromwellians in Ireland and US cavalry on the American frontier both justified slaughter by warning Nits grow into lice. Nazis not only labeled Jews as vermin, they used insecticides in the gas chambers to kill them during the Holocaust. Concentrating on the insects living in our bodies, clothes, and beds, Sarasohn also looks at rats and their social impact. Besides their powerful symbolic status in all cultures, rats' endurance challenges all human pretensions. From eighteenth-century London merchants anointing their carved bedsteads with roasted cat to repel bedbugs to modern-day hedge fund managers hoping neighbors won't notice exterminators in their penthouses, the studies in this book reveal that vermin continue to fuel our prejudices and threaten our status. *Getting Under Our Skin* will appeal to cultural historians, naturalists, and to anyone who has ever scratched—and then gazed in horror.
