F-5 Tigers Over Vietnam Anthony J. Tambini,2001

Northrop F-5 Freedom Fighter and Tiger II Robert Pied,Nicolas Deboeck,2023-06-30 This book features a close-up of both the F-5E/F/N Tiger II and the F-5A/BM Freedom Fighter. Included is a plethora of walk-around and action photography.

F-5 Illustrated Lou Drendel,2020-03-28 The Northrop F-5 series is one of the longest-serving fighters in the world. The Freedom Fighter was the first 'lightweight fighter and the first international fighter serving in air forces throughout the free world. The F-5 Tiger II is even more prolific and is still in service with USAF and US Navy aggressor squadrons. The T-38 Talon was derived from the original NF-156 design that produced the Freedom Fighter. The T-38 has trained over 70,000 USAF pilots and is still in service 60 years after its first flight. It is still used by NASA and others. This book contains dozens of very high resolution color photos from the remarkable collection of Gerrit Kok as well as official DOD photos. It covers all the air forces that flew the F-5 series.

Tiger I and Tiger II Anthony Tucker-Jones,2013-07-17 The German Tiger I and Tiger II (known to the Allies as the 'King Tiger' or 'Royal Tiger') were the most famous and formidable heavy tanks of the Second World War. In their day their awesome reputation inspired such apprehension among Allied soldiers that the weaknesses of these brilliant but flawed designs tended to be

overlooked. Anthony Tucker-Jones, in this illustrated history, tells the story of their conception and development and reconsiders their operational history, and he dispels the legends and misunderstandings that have grown up around them.??The Tigers were over-engineered, required raw materials that were in short supply, were time-consuming to manufacture and difficult to recover from the battlefield. Only around 1,300 of the Tiger I and fewer than 500 of the Tiger II were produced, so they were never going to make anything more than a local impact on the outcome of the fighting. Yet the myth of the Tigers, with their 88mm guns, thick armour and brutal profiles, has grown over time to the extent that they are regarded as the deadliest tanks of the Second World War.??Anthony Tucker-Jones's expert account of these remarkable fighting vehicles is accompanied by a series of colour plates showing the main variants of the designs and the common ancillary equipment and unit markings.??Anthony Tucker-Jones is a prolific writer on the history of fighting vehicles and armoured warfare. He has also written extensively on military affairs and terrorism. After a career in the intelligence community, he became a freelance defence writer and military historian. His most recent books are Armoured Warfare on the Eastern Front, Armoured Warfare in the North African Campaign, Armoured Warfare in the Battle for Normandy, The Kalashnikov in Combat and The Soviet-Afghan War.

F5E Tiger II Bert Kinzey, 1993-06-01

World Regional Casts ,1995

Dictionary of the Modern United States Military Stephen F. Tomajczyk, 1996 A comprehensive dictionary that contains some 15,000 entries on inside aspects of the US military. Among the topics covered in depth are weapons systems, governmental agencies, electronic warfare, medical terms, military infrastructure, communications, satellites, and intelligence systems. Also covered are the acronyms and slang terms used by soldiers in the field. Includes extensive cross- references, as well

as a bibliography of some 2,200 sources. c. Book News Inc.

Germany's Tiger Tanks Thomas L. Jentz, 1997 This brand new volume covers the complete combat history of the Tigers I and II, and includes the operational characteristics, organization, tactics, issue to combat units operational strength reports, and after-action-accounts. Over twenty years of intensive research went into finding the original documents needed to create this new history on the development, characteristics, and tactical capabilities of the Tiger series. Tom Jentz has conducted an exhaustive search for surviving records of the design/assembly firms (including Henschel, Krupp, Nibelungenwerk, Porsche, and Wemann), the Heereswaffenamt, the D656 series of manuals on the Tiger, and the war diaries and operations reports from the German units. The written records were supplemented by examining thousands of photos. On-sight research into almost all the surviving Tigers provided details that could only be obtained from actual specimens. New information was found on the evolution of the heavy tank series, the key decisions on the design of the Tigers, the significant modifications made during the production runs, production statistics, the Tigers characteristics and tactical capabilities, an exact accounting of the issue of the Tigers to the combat units, and combat accounts written directly after the actions. Tom Jentz is also the author of *Germany's Panther Tank, The Quest for Combat Supremacy*; *Panzertruppen 1933-1942*; and *Panzertruppen 1943-1945* (all three titles are available from Schiffer Publishing Ltd.). 130 b/w photographs

The Tiger I & Tiger II Profile R. Ehninger, David Johnston, 1996 The famed German panzers of World War II in profile format including photographs, color schemes, and drawings.

Kingtiger Heavy Tank 1942-45 Tom Jentz, Hilary Doyle, 1993-01-28 As World War II entered its later stages and Germany was forced increasingly onto the defensive, the need for fast-moving mobile forces lessened and the Wehrmacht required

better protected and more powerfully armed tanks. After debacles against the T-34, Hitler and the Panzerwaffe were determined not to be unprepared again. The result of this determination was the production of the heaviest and largest tank to see combat during World War II, the Tiger II or Konigtiger (Kingtiger). This title examines this formidable weapon, covering the problems and controversies surrounding its design and production as well as a detailed listing of every unit that was equipped with the Tiger II.

Tiger I and Tiger II Anthony Tucker-Jones, 2014-07-22 The German Tiger I and Tiger II (known to the Allies as the 'King Tiger' or 'Royal Tiger') were the most famous and formidable heavy tanks of the Second World War. In their day their awesome reputation inspired such apprehension among Allied soldiers that the weaknesses of these brilliant but flawed designs tended to be overlooked. Anthony Tucker-Jones, in this illustrated history, tells the story of their conception and development and reconsiders their operational history, and he dispels the legends and misunderstandings that have grown up around them. The Tigers were over-engineered, required raw materials that were in short supply, were time-consuming to manufacture and difficult to recover from the battlefield. Only around 1,300 of the Tiger I and fewer than 500 of the Tiger II were produced, so they were never going to make anything more than a local impact on the outcome of the fighting. Yet the myth of the Tigers, with their 88mm guns, thick armour and brutal profiles, has grown over time to the extent that they are regarded as the deadliest tanks of the Second World War. Anthony Tucker-Jones's expert account of these remarkable fighting vehicles is accompanied by a series of colour plates showing the main variants of the designs and the common ancillary equipment and unit markings. Anthony Tucker-Jones is a prolific writer on the history of fighting vehicles and armoured warfare. He has also written extensively on military affairs and terrorism. After a career in the intelligence community, he became a freelance defence writer and military historian. His

most recent books are Armoured Warfare on the Eastern Front, Armoured Warfare in the North African Campaign, Armoured Warfare in the Battle for Normandy, The Kalashnikov in Combat and The Soviet-Afghan War.
