*Farmer* Jim Harrison, 2016-05-03 "A sensitive, powerful love story about a man on the cutting edge of life." –Richard Brautigan In *Farmer*, Jim Harrison tells the story of Joseph, a forty-three-year-old farmer-schoolteacher who suddenly finds himself at a crossroads. Forced to choose between two lovers one a tantalizing young student, the other his beautiful childhood friend he must also decide whether or not to stay on the farm or finally seek the wider, more worldly horizons he has avoided all his life. *Farmer* is a wondrous blend of insight, storytelling, and the author's uncanny ability to evoke the mysteries and beauties of the natural world. "A beautiful novel", *Farmer* serves as the perfect introduction to Harrison's remarkable insight, storytelling, and evocation of the natural world (The Boston Globe). "A quiet triumph . . . Yes, it is the old story again. Taking it and making it new, as Harrison has done, is a miracle on the order of the loaves and fishes. But then so are all good novels." –The Washington Post

**The Urban Farmer** Curtis Allen Stone, 2015-12-14 There are twenty million acres of lawns in North America. In their current form, these unproductive expanses of grass represent a significant financial and environmental cost. However, viewed through a different lens, they can also be seen as a tremendous source of opportunity. Access to land is a major barrier for many people who want to enter the agricultural sector, and urban and suburban yards have huge potential for would-be farmers wanting to become part of this

growing movement. The Urban Farmer is a comprehensive, hands-on, practical manual to help you learn the techniques and business strategies you need to make a good living growing high-yield, high-value crops right in your own backyard (or someone else's). Major benefits include: Low capital investment and overhead costs Reduced need for expensive infrastructure Easy access to markets Growing food in the city means that fresh crops may travel only a few blocks from field to table, making this innovative approach the next logical step in the local food movement. Based on a scalable, easily reproduced business model, The Urban Farmer is your complete guide to minimizing risk and maximizing profit by using intensive production in small leased or borrowed spaces. Curtis Stone is the owner/operator of Green City Acres, a commercial urban farm growing vegetables for farmers markets, restaurants, and retail outlets. During his slower months, Curtis works as a public speaker, teacher, and consultant, sharing his story to inspire a new generation of farmers.

**Best Person Rural** Noel Perrin,2006 In 1963, Noel Perrin, a 35-year-old professor of English at Dartmouth College, bought an 85-acre farm in Thetford Center, Vermont. For the next forty years he spent half his time teaching, half writing, and half farming. That this adds up to three halves I am all

too aware, he said, sounding a characteristic, self-deprecating note of bittersweet amusement at the chalk on his coat, the sweat on his brow, and the mud (and worse) on his boots. I love this farm, he wrote shortly before his death in 2004, every acre of it. The maples, the apple trees, the cattle, the wild turkeys. I love the brick farmhouse, which I believe to be about 190 years old ... and the two barns. I love the view from the kitchen window ... and the grander view to be had if you climb Bill Hill, the farm's in-house mini-mountain. The thing that delights me most, though, is that the farm really is a farm. It produces a little food every year, and most years a little fuel as well. It also produced four volumes of essays, beginning with *First Person Rural* (1978). Some of Perrin's pieces are practical (how to build a stone wall), others philosophical (why to build a stone wall). One pretends to be about amateur sugar making, but it is really a metaphor for reality and illusion. Another pretends to be about the country as a retreat, but is really about the country as a place to meet the world head-on. One is a dangerous character sketch of a sow - dangerous, because as Roy Blount said after reading it, It almost made me decide to go ahead and get pigs. In short, these essays are as good as the literature of farming gets. *Best Person Rural* is a harvest feast, bringing together twenty of Perrin's best-loved pieces and five previously uncollected items, including his moving Farewell to a Thetford Farm.

*Growing a Farmer: How I Learned to Live Off the Land* Kurt

Timmermeister,2011-01-17 Charming . . . . [Kurt Timmermeister] narrates his personal journey with an open, straightforward spirit. –Wall Street Journal When he purchased four acres of land on Vashon Island, Kurt Timmermeister was only looking for an affordable home near the restaurants he ran in Seattle. But as he slowly settled into his new property, he became awakened to the connection between what he ate and where it came from: a hive of bees provided honey, a young cow could give fresh milk, an apple orchard allowed him to make vinegar. With refreshing honesty, Timmermeister details the initial stumbles and subsequent realities he faced as he established a profitable farm for himself. Personal yet practical, Growing a Farmer will entirely recast the way we think about our relationship to the food we consume.

**The Farmer and the Clown** Marla Frazee,2014-09-23 Whimsical and touching images tell the story of an unexpected friendship and the revelations it inspires in this moving, wordless picture book from two-time Caldecott Honor medalist Marla Frazee. A baby clown is separated from his family when he accidentally bounces off their circus train and lands in a lonely farmer's vast, empty field. The farmer reluctantly rescues the little clown, and over the course of one day together, the two of them make some surprising discoveries about themselves—and about life! Sweet, funny, and moving, this wordless picture book from a master of the form and the creator of The Boss Baby speaks volumes and will delight story lovers of all ages.

The New American Farmer Laura-Anne Minkoff-Zern, 2019-11-12 An examination of Latino/a immigrant farmers as they transition from farmworkers to farm owners that offers a new perspective on racial inequity and sustainable farming. Although the majority of farms in the United States have US-born owners who identify as white, a growing number of new farmers are immigrants, many of them from Mexico, who originally came to the United States looking for work in agriculture. In *The New American Farmer*, Laura-Anne Minkoff-Zern explores the experiences of Latino/a immigrant farmers as they transition from farmworkers to farm owners, offering a new perspective on racial inequity and sustainable farming. She finds that many of these new farmers rely on farming practices from their home countries—including growing multiple crops simultaneously, using integrated pest management, maintaining small-scale production, and employing family labor—most of which are

considered alternative farming techniques in the United States. Drawing on extensive interviews with farmers and organizers, Minkoff-Zern describes the social, economic, and political barriers immigrant farmers must overcome, from navigating USDA bureaucracy to racialized exclusion from opportunities. She discusses, among other topics, the history of discrimination against farm laborers in the United States; the invisibility of Latino/a farmers to government and universities; new farmers' sense of agrarian and racial identity; and the future of the agrarian class system. Minkoff-Zern argues that immigrant farmers, with their knowledge and experience of alternative farming practices, are—despite a range of challenges—actively and substantially contributing to the movement for an ecological and sustainable food system. Scholars and food activists should take notice.

**Stanley the Farmer** William Bee, 2014 Down on the farm, there's seeds to be sown. Stanley has to get on his tractor and plough the field. There's lots to be done, and friends to help him out, but will the seeds grow? Join Stanley and friends for an out-of-doors adventure in this colourful new series from William Bee...

*Freedom Farmers* Monica M. White, 2018-11-06 In May 1967, internationally renowned activist Fannie Lou Hamer purchased forty acres of land in the Mississippi Delta, launching the Freedom Farms Cooperative (FFC). A community-based rural and economic development project, FFC would grow to over 600 acres, offering a means for local sharecroppers, tenant farmers, and

domestic workers to pursue community wellness, self-reliance, and political resistance. Life on the cooperative farm presented an alternative to the second wave of northern migration by African Americans--an opportunity to stay in the South, live off the land, and create a healthy community based upon building an alternative food system as a cooperative and collective effort. *Freedom Farmers* expands the historical narrative of the black freedom struggle to embrace the work, roles, and contributions of southern Black farmers and the organizations they formed. Whereas existing scholarship generally views agriculture as a site of oppression and exploitation of black people, this book reveals agriculture as a site of resistance and provides a historical foundation that adds meaning and context to current conversations around the resurgence of food justice/sovereignty movements in urban spaces like Detroit, Chicago, Milwaukee, New York City, and New Orleans.
