Classic Ferrari Jed Paine,2021-04-16 Ferraris are best known for their sleek, stunning, and curvaceous design, eye-watering price tag, and standard rosso corsa (race red) paintwork. From the very first Ferrari – the 1947 Tipo 125 S racing sports car – through to the more recent 2013 LaFerrari mild hybrid limited edition road car, Ferrari have continued to astound enthusiasts and critics alike with their evolutionary performance road vehicles and unrivalled Formula 1 racing pedigree. Yet, motoring history might have been so different – Enzo Ferrari was a reluctant manufacturer. He initially built and sold production vehicles purely to fund his Scuderia Ferrari racing team. For every success on the track, though, came a wave of innovation to be applied to their production cars. The F1 gearbox was one of the most important technological transfers from racing car to grand tourer and was quickly followed by traction control. The next generation of Ferraris is set to be turbocharged, as strict consumption and emission regulations will affect the future of engineering and there are even electric cars in Ferrari's sights too. The agenda includes more special editions, tailor-made varieties, and one-off models, although their core business will still lie in the GT road car market. It is a boyhood dream of many youngsters and grown men to own, or at least drive, a Ferrari. Unfortunately, the majority do not go on to achieve this ambition but this book might go

some way to filling the void and keeping the dream alive...

Trademark Counterfeiting, Product Piracy, and the Billion Dollar Threat to the U.S. Economy Paul Paradise, 1999-09-30 Called the business crime wave of the 21st century, trademark counterfeiting and product piracy are worldwide in scope and cost the U.S. economy billions of dollars every year. High technology and the globalization of business have made it possible to counterfeit and pirate a seemingly limitless number of products, from t-shirts, designer jeans, films and books to auto and airplane parts, and prescription drugs. The 1995-1996 trade dispute between the U.S. and China shows how serious the problem has become for American business and for U.S. diplomatic relations. Paradise explores the history of counterfeiting and piracy, shows how they are done, and the strategies that U.S. businesses are using to combat them. With interviews, commentary, and anecdotes by corporate attorneys, business leaders, and private investigators, this well-written book is essential for anyone interested in the damage that violations of intellectual property law are inflicting on world trade and what is being done to stop it. With interviews, commentary, and anecdotes by corporate attorneys, business leaders, and private investigators, this well-written book is essential for anyone interested in the damage that violations of intellectual property law are inflicting on world trade and what is being done to stop it. Paradise lays out the problem in Chapter 1 with a clear explanation of the differences between trademarks, copyrights, and patents, and the laws covering each. In Chapter 2 he looks at the role played by organized crime, gray market goods, the lack of intellectual property laws, and ultimately the threat to U.S. business. He discusses the recent investigations and disputes with China, and its aftermath throughout Southeast Asia. Chapter 4 focuses on the knockoff, chapter 5 on street peddlers and flea markets (and how merchants are retaliating), and chapter 6 on the tracking of counterfeiters. The entertainment industries and the pharmaceutical industries are then closely examined. He follows with equally comprehensive (and chilling) studies of automobile and aircraft parts counterfeiting and piracy in cyberspace. Paradise ends with a look at what is being done to counteract the inroads that piracy and counterfeiting have made into the global economy, and offers a provocative call for more and better efforts in the future.

Let Me Sell You a Ferrari Robert E. Guarino, 2021-05-14 The moment in 1958 when a sports car-crazed youth in Massachusetts saw his first Ferrari changed his life. The black 250 GT coupe's seductive lines, purposeful air and already hallowed name seized Robert E. Guarino's imagination; just a few years later, he would be selling such cars. And in 1967, with two partners and an investment of just \$6,000 apiece, he would open a Ferrari-Porsche-Datsun dealership. This memoir follows his lifelong journey with Ferraris

and other remarkable automobiles, as an enthusiast and dealer. Highlights include a nonstop drive from Chicago to Boston in a 308 GTB; rides with important figures like Piero Ferrari at Fiorano and Dario Benuzzi at Mugello; visits to the Ferrari, Maserati and Lamborghini factories; the horror of watching a delivery truck crash onto a row of new cars; and time at the wheel of such icons as the 365 GTB/4 Daytona, 250 GTO, 288 GTO and F40.
