Mapping Digital Game Culture in China Marcella Szablewicz, 2020-02-18 In this book, Marcella Szablewicz traces what she calls the topography of digital game culture in urban China, drawing our attention to discourse and affect as they shape the popular imaginary surrounding digital games. Szablewicz argues that games are not mere sites of escape from Real Life, but rather locations around which dominant notions about failure, success, and socioeconomic mobility are actively processed and challenged. Covering a range of issues including nostalgia for Internet cafés as sites of youth sociality, the media-driven Internet addiction moral panic, the professionalization of e-sports, and the rise of the self-proclaimed loser (diaosi), *Mapping Digital Game Culture in China* uses games as a lens onto youth culture and the politics of everyday life in contemporary China. Based on ethnographic fieldwork conducted between 2009 and 2015 and first-hand observations spanning over two decades, the book is also a social history of urban China's shifting technological landscape.

Inquisition and Knowledge, 1200-1700 Jessalynn Bird, Jörg Feuchter, Alessandro Sala, Irene Bueno, Paweł Kras, Richard Kieckhefer, Adam Poznański, Reima Välimäki, 2022 Essays considering how information could be used and abused in the service of heresy and inquisition. The collection, curation, and manipulation of knowledge were fundamental to the operation of inquisition. Its coercive power rested on its ability to control information and to produce authoritative discourses from it - a fact not lost on contemporaries, or on later commentators. Understanding that relationship between inquisition and knowledge has been one of the principal drivers of its long historiography. Inquisitors and their historians have always been preoccupied with the process by which information was gathered and recirculated as knowledge. The tenor of that question has changed over time, but we are still asking how knowledge was made and handed down - to them and to us - and how their

sense of what was interesting or useful affected their selection. This volume approaches the theme by looking at heresy and inquisition in the Middle Ages, and also at how they were seen in the sixteenth and seventeenth centuries. The contributors consider a wide range of medieval texts, including papal bulls, sermons, polemical treatises and records of interrogations, both increasing our knowledge of medieval heresy and inquisition, and at the same time delineating the twisting of knowledge. This polarity continues in the early modern period, when scholars appeared to advance learning by hunting for medieval manuscripts and publishing them, or ensuring their preservation through copying them; but at the same time, as some of the chapters here show, these were proof texts in the service of Catholic or Protestant polemic. As a whole, the collection provides a clear view of - and invites readers' reflection on - the shading of truth and untruth in medieval and early modern knowledge of heresy and inquisition. Contributors: Jessalynn Lea Bird, Harald Bollbuck, Irene Bueno, Jörg Feuchter, Richard Kieckhefer, Pawel Kras, Adam Poznanski, Luc Racaut, Alessandro Sala, Shelagh Sneddon, Michaela Valente, Reima Välimäki

Inquisition and Medieval Society James Buchanan Given, James B. Given, 2001 The author analyses the inquisition in one French region in order to develop a sociology of medieval politics. In Languedoc the inquisitors aggressively used the developing techniques of writing & record keeping to build cases & extract confessions.

The French Inquisition Constantin de Renneville, 1715

The Inquisition Kenneth L. Bartolotta, 2016-12-15 Religion can be a force for good, but when those in command seek to increase their control, it can become a dangerous tool. This volume explores the political power the Catholic Church possessed in medieval Europe and the lengths it went to in order to keep and expand that influence. Full-color photos, quotes from primary sources, and a

timeline of important events supplement the main text to give readers a better understanding of the perils that can occur when an institution abuses its power.

History of the Inquisition Henry Charles Lea, 2020-12-17 *History of the Inquisition* in three volumes is a groundbreaking work on the subject of Inquisition, written by Henry Charles Lea, one of the main authorities on the subject. His goal was to present an impartial account of the institution as it existed during the earlier period. In order to accurately appreciate the process of its development and the results of its activity the author takes in consideration the factors controlling the minds and souls of men during these times. He recapitulates nearly all the spiritual and intellectual movements of the Middle Ages, glancing at the condition of society in certain of its phases. Beginning with the state of church in 12th and 13th century, the study includes various forms of heresy emerging throughout the European continent from Spain and France west, to Slavic countries in Eastern Europe. Lea particularly deals with various fields of inquisitorial activity, notably its utilization in political purposes. Though his study of the Inquisition was criticized for anti-Spanish bias, it is thoroughly researched and contains interesting details surrounding this notorious institution.

Inquisition and Medieval Society James B. Given, 2018-08-06 James B. Given analyzes the inquisition in one French region in order to develop a sociology of medieval politics. Established in the early thirteenth century to combat widespread popular heresy, inquisitorial tribunals identified, prosecuted, and punished heretics and their supporters. The inquisition in Languedoc was the best documented of these tribunals because the inquisitors aggressively used the developing techniques of writing and record keeping to build cases and extract confessions. Using a Marxist and Foucauldian approach, Given focuses on three inquiries: what techniques of investigation, interrogation, and punishment the inquisitors worked out in the course of their struggle against heresy; how the people

of Languedoc responded to the activities of the inquisitors; and what aspects of social organization in Languedoc either facilitated or constrained the work of the inquisitors. Punishments not only inflicted suffering and humiliation on those condemned, he argues, but also served as theatrical instruction for the rest of society about the terrible price of transgression. Through a careful pursuit of these inquires, Given elucidates medieval society's contribution to the modern apparatus of power.

The Inquisition of the Middle Ages Lea, Henry Charles, 2015-02-20 This was originally published in three volumes, but is now comprised in one volume. There is a linked table of contents for each volume as well as a detailed table of contents at the beginning of each volume linked to the specific chapters in that volume. There is also a subject index at the end of the volume which is not linked, but nonetheless it gives the book and chapter in which the subject can be found, as well as the original page number of the printed edition. Henry Charles Lea's History of the Medieval Inquisition pulls from primary sources, so as to give an accurate account of the Catholic Church's judicial system known as the Inquisition. As he explores the events of the twelfth century, which later become known as the dreaded Inquisition, he breaks the subjects down into three categories. In the first volume he looks at the medieval concepts and of the relationships between individuals and the Church. In volume two he looks at the placement of the inquisitions throughout Europe and the state of different religious conditions within the Languedoc region. He shows how that in Italy and France there was a continual resistance to the Inquisition. In the third and final volume Lea studied the impact of the Inquisition on scholarship and academic life and on faith and society as a whole. He also shows how that the belief in sorcery and witchcraft in the fourteenth and fifteenth centuries was a product of the

Catholic Inquisition and how that the Church authorities were feeding its growth. Through these orders of the Franciscans and the Fraticelli they gained their prominence. Throughout these three books he deals with religious groups such as the Cathari, the Albigensian, the Hussites, as well as looking at the Albigensian Crusades, and its impact. Inquisition Alfredo Colitto, 2011-05-05 In 14th-century Italy, Mondino is a university anatomist - a man of science in a land governed by the brutal Inquisition. But the corpse brought to Mondino's laboratory one stormy night defies natural law: The victim is a Templar knight, and his heart has been transformed into a block of iron. Is it alchemy? Or the diabolical work of an ingenious killer? Aided by his headstrong student Gerardo - a young man concealing a deadly secret identity - Mondino must outwit both ruthless Inquisitors and vengeful Templars if he's to stop a murderer whose methods don't just freeze the blood . . . but turn it to stone.

The Corruption of Angels Mark Gregory Pegg, 2005-08-14 On two hundred and one days between

May 1, 1245, and August 1, 1246, more than five thousand people from the Lauragais were questioned in Toulouse about the heresy of the good men and the good women (more commonly known as Catharism). Nobles and diviners, butchers and monks, concubines and physicians, blacksmiths and pregnant girls--in short, all men over fourteen and women over twelve--were summoned by Dominican inquisitors Bernart de Caux and Jean de Saint-Pierre. In the cloister of the Saint-Sernin abbey, before scribes and witnesses, they confessed whether they, or anyone else, had ever seen, heard, helped, or sought salvation through the heretics. This inquisition into heretical depravity was the single largest investigation, in the shortest time, in the entire European Middle Ages. Mark Gregory Pegg examines the sole surviving manuscript of this great inquisition with unprecedented care--often in unexpected ways--to build a richly textured understanding of social life in southern France in the early thirteenth century. He explores what the interrogations reveal about the individual and communal lives of those interrogated and how the interrogations themselves shaped villagers' perceptions of those lives. *The Corruption of Angels*, similar in breadth and scope to Emmanuel Le Roy Ladurie's *Montaillou*, is a major contribution to the field. It shows how heretical and orthodox beliefs flourished side by side and, more broadly, what life was like in one particular time and place. Pegg's passionate and beautifully written evocation of a medieval world will fascinate a diverse readership within and beyond the academy.

The Roman Inquisition on the Stage of Italy, C. 1590-1640 Thomas F. Mayer, 2014-01-23
Drawing on the Roman Inquisition's own records, diplomatic correspondence, local documents, newsletters, and other sources, Thomas F. Mayer provides an intricately detailed account of the ways the Inquisition operated to serve the papacy's long-standing political aims in Naples, Venice, and Florence between 1590 and 1640.
