Area 51 Annie Jacobsen, 2011-05-17 This compellingly hard-hitting bestseller from a Pulitzer Prize finalist gives readers the complete untold story of the top-secret military base for the first time (New York Times). It is the most famous military installation in the world. And it doesn't exist. Located a mere seventy-five miles outside of Las Vegas in Nevada's desert, the base has never been acknowledged by the U.S. government – but Area 51 has captivated imaginations for decades. Myths and hypotheses about Area 51 have long abounded, thanks to the intense secrecy enveloping it. Some claim it is home to aliens, underground tunnel systems, and nuclear facilities. Others believe that the lunar landing itself was filmed there. The prevalence of these rumors stems from the fact that no credible insider has ever divulged the truth about his time inside the base. Until now. Annie Jacobsen had exclusive access to nineteen men who served the base proudly and secretly for decades and are now aged 75-92, and unprecedented access to fifty-five additional military and intelligence personnel, scientists, pilots, and engineers linked to the secret base, thirty-two of whom lived and worked there for extended periods. In Area 51, Jacobsen shows us what has really gone on in the Nevada desert, from testing nuclear weapons to building super-secret, supersonic jets to pursuing the War on Terror. This is the first book based on interviews with eye witnesses to Area 51 history, which makes it the seminal work on the subject. Filled with formerly classified information that has never been accurately decoded for the public, Area 51 weaves the mysterious activities of the top-secret base into a gripping narrative, showing that facts are often more fantastic than fiction, especially when the distinction is almost impossible to make.

Alarm Units! SS Panzergrenadier Brigades 49 and 51 ,

F-51 Mustang Units of the Korean War Warren Thompson, 2015-12-20 By the time the Korean War erupted, the F-51 Mustang was seen as obsolete, but that view quickly changed when the USAF rushed 145 of them to the theatre in late 1950. They had the endurance to attack targets in Korea from bases in Japan, where the modern F-86 fighters and other jets did not. Rather than the interceptor and escort fighter roles the Mustang had performed during World War 2, in the Korean War they were assigned to ground attack missions – striking at communist troop columns advancing south. This is the chronicle of the Mustang units that fought in the Korean War, detailing the type's involvement in a series of intense actions, its successes and its considerable losses. Drawing on meticulous research and gripping first-hand accounts from aircrew, this book explains how the faithful Mustang was able to roll back the years, fight, and prove itself in a new era of aerial warfare.

Forever 51 Pamela Skjolsvik, 2020-11-05 Veronica is eternally fifty-one years old with a proclivity for problematic drinking. Like most hormonally challenged women negotiating the change of life, she is a hot mess. To retain her sanity, she attends weekly AA meetings and adheres to a strict diet of organic, locally-sourced, (mostly) cruelty-free human blood from the hospice facility where she works. Her life stopped being fun about a hundred years ago, right about the time her teenage daughter stole her soul and took off for California with a hot, older guy. These days, Veronica's existence is just that – an existence, as flat and empty as her own non-reflection in the bathroom mirror. When her estranged daughter contacts her via Facebook, Veronica learns that she has one chance to escape her eternal personal summer: she must find and apologize to every one of the people she's turned into vampires in the last century. That is, if they're still out there. With raging hormones and a ticking clock, Veronica embarks on a last-ditch road trip to regain her mortality, reclaim her humanity, and ultimately, die on her own terms.

After suffering a catastrophic journey, Zeemat's spacecraft crashes in what becomes known as Area 51. Taken captive by a rather brutal cohort of FBI agents, he finds a friend only in his gentle and kind translator, Dr. Linda Deltare.
