Bowie Knife Fights, Fighters and Fighting Techniques Paul Kirchner,2010-11-01 In 1827, James Bowie carved his way into American history at the Sandbar Fight, and soon every fighting man of the South and West had to have a knife like his. The bowie knife could cut like a razor, chop like a cleaver, and stab like a sword, and many considered it deadlier than a pistol at close range. So great was the dread it inspired that by 1838 it was banned in several states—a ban that did little to stanch the flow of blood. Bowie's story is well known, but what of the other cutters and stabbers of his day? Gunfighters have long been celebrated, but those who fought with the bowie knife have been largely ignored—until now. Unearthing accounts from memoirs, court records, regional histories, and newspaper archives, Paul Kirchner, author of the Paladin bestsellers *The Deadliest Men* and *More of the Deadliest Men Who Ever Lived*, presents their stories for the first time in *Bowie Knife Fights, Fighters, and Fighting Techniques*. Kirchner identifies and profiles the four greatest bowie knife fighters of history, as well as numerous other wielders of the blade. He details the weapon's use in the Texas War of Independence, the Mormon exodus, the Mexican War, the slave system, the Gold Rush, Bleeding Kansas, the Civil War, the Lincoln assassination, the Indian Wars, and the Western frontier. The book describes bowie knife fighting tricks and techniques and provides numerous accounts of knife-against-knife and knife-against-gun encounters. Its final chapter surveys the continued use of the bowie and other fighting knives in modern warfare.

Bob Kasper's Tactical Knives Pat Kasper,2011-03-01 Bob Kasper had that rarest of qualities among self-defense instructors: real-world street smarts, as opposed to the much more common dojo smarts. A former Marine and student of personal-defense pioneer Charles Nelson, Kasper had picked up his experience in close-quarter self-defense the hard way: on the street, where it really counted. As a Marine Corps-designated close-combat subject matter expert, he helped create the Corps' close-combat knife curriculum. For a period, he also worked for Kelly McCann's highly regarded training company teaching military and government

students how to survive while deployed to high-risk areas of operation. While equally adept at close combat, firearms, and knife fighting techniques, Kasper had a special interest in knives. That lifelong passion, combined with his hands-on experience, made him the perfect candidate to write the Street Smarts column for Tactical Knives magazine. For five years (from January 1997 until January 2002), Kasper filled Street Smarts with his own unique perspective on staying alive in the world's most dangerous environments. He also penned several features on fighting knives for the magazine. Now, for the first time, all his Tactical Knives writings have been compiled under one cover so that a new generation of knife enthusiasts and self-defense students can benefit from his practical, real-world advice on selecting, training with, using, and defending against any type of edged weapon.

Combat Use Of The Double-edged Fighting Knife Rex Applegate,1993-07-01 Before arming yourself with a fighting knife, arm yourself with the facts. KA-BAR Greg Walker,2001-01-01 The KA-BAR Fighting/Utility Knife is the most widely recognized and popular combat knife ever to be produced in the United States. Since its introduction on 23 November 1942, the KA-BAR has performed brilliantly on the battlefields of Europe, the South Pacific, Korea, Southeast Asia, Central America and the Middle East, earning its moniker as the ultimate fighting knife. Early in 1995 the KA-BAR company decided to update the venerable combat veteran to ensure its combat readiness for the next century and immediately began assembling a team of the top military combat men in the country. On this team was the author, Greg Walker. In this book Walker gives readers an inside view of the exacting design criteria, cutting-edge materials, extensive factory tests and exhaustive real-life field tests that went into the historic redesign of the blade, handguard, handle, pommel and sheath of the ultimate fighting knife of the future. The new fighting knife excelled at these rigorous tests, earning the right to be called a KA-BAR.

Bob Kasper's Sting of the Scorpion Bob Kasper,2009-04-01 This is a book about knife combat - it is about carrying a knife as a deadly weapon and, when the need for deadly force arises, knowing how to use it. It is about a fighting knife, how to carry it, how to draw it and how to engage it in a kill-or-be-killed situation. Bob Kasper left no doubt why he wrote this book. Many of you may already be familiar with Kasper from his writings in Tactical Knives magazine; his knife designs, especially the Scorpion; or his practical instruction in the tactics, techniques and procedures of edged-weapon combat. Those of you who never had the chance to train with, correspond with or read his writings are in for a treat. Paladin is honored to be able to offer Bob Kasper's Sting of the Scorpion to the public for the very first time. In it Kasper imparts his considerable knowledge about knife design, selection, carry and draw; but, most important, he reveals his time-tested principles for using the knife on the battlefield. In his exclusive foreword, training partner and friend Kelly McCann sums it up best: Bob Kasper's Sting of the Scorpion was written by a guy who had both been stung and had stung - something too important to overlook against a backdrop of ever increasing skilled, but perhaps not experienced, instructors. We're all fortunate Bob wrote down his thoughts, beliefs and training methodology regarding edged weapons or his untimely passing would've left an even larger void than it did.

Battle Blades Greg Walker,1993 Greg Walker evaluates daggers, bowies, switchblades and utility blades according to their design, performance, reliability and cost. He pays tribute to the legendary designers -- Fairbairn and Sykes, Randall, Gerber, Applegate and Al Mar -- and gives you an insider's peek at the best up-and-coming bladesmiths. He examines the pros and cons of benchmade vs. custom-made and forged vs. ground blades, as well as answering questions about steels, throwing knives, bowies, bayonets, training knives and much more.
