## **The Legend of Final Fantasy VIII Rémi**

Lopez,2019-02-19 The eighth episode of the incredible story of Final Fantasy. A legendary episode of the Japanese RPG, Final Fantasy VIII is fully decoded in this book. Discover a complete analysis of one of the most famous saga of the world of video games, embellished with a reflection on the report of the fans to the series. To read as soon as possible! EXTRACT The work on Final Fantasy VIII began in 1997, just after Final Fantasy VII was completed, and the game's development ran concurrently with that of Parasite Eve. Although Final Fantasy VII marked a genuine turning point in the series, the designers were hardly lackadaisical when it came to the eighth episode's production and staging. In fact, they worked doubly hard to avoid disappointing fans after their adventure with Cloud. First, the decision was made to use the same console: the Sony PlayStation. Since the seventh episode was a smashing success, the major personalities who had presided over its creation were reassembled to create the new game. Thus, the team consisted of the renowned Hironobu Sakaguchi, Yoshinori Kitase (as director), Kazushige Nojima (as scriptwriter), Yûsuke Naora (as artistic director), and Tetsuya Nomura (as character designer). And, of course, the distinguished composer Nobuo Uematsu was once again chosen to create the episode's magnificent soundtrack in its entirety.

### Norse Myths That Inspired Final Fantasy VII M J

Gallagher, 2020-09-16 Final Fantasy is one of the most iconic and beloved videogame series in the world. Since its inception, its titles have adopted names, themes and stories from across global mythology, including the beliefs of the Vikings. This book embarks on a detailed exploration of how Norse lore in particular influenced the writing and design of Final Fantasy VII - arguably the most critically-acclaimed of the franchise - and its wider compilation. Why is Midgar the political centre of the Planet, and Nibelheim the home of Cloud Strife? How are the Odin Materia, the Rune Blade and Vincent Valentine connected? What are the parallels between Ragnarok and the fall of the Shinra Corporation? These questions and many more will be examined and answered by award-winning community author M. J. Gallagher. Suitable for newcomers and enthusiasts alike. This work is presented as a tribute to the metaseries Compilation of Final Fantasy(R) VII. The author proposes that the speculative comparisons between Norse mythology and the Compilation of Final Fantasy(R) VII are unique, and use original thinking and analysis to

interpret the inspirations, context, and content of the metaseries. The book has not been approved, licensed, or sponsored by any entity or person involved in creating or producing Final Fantasy(R), the videogames, films, or publications.
