Fire Stephen J. Pyne, 2019-08-12 Over vast expanses of time, fire and humanity have interacted to expand the domain of each, transforming the earth and what it means to be human. In this concise yet wide-ranging book, Stephen J. Pyne—named by Science magazine as “the world’s leading authority on the history of fire”—explores the surprising dynamics of fire before humans, fire and human origins, aboriginal economies of hunting and foraging, agricultural and pastoral uses of fire, fire ceremonies, fire as an idea and a technology, and industrial fire. In this revised and expanded edition, Pyne looks to the future of fire as a constant, defining presence on Earth. A new chapter explores the importance of fire in the twenty-first century, with special attention to its role in the Anthropocene, or what he posits might equally be called the Pyrocene.

Young Men and Fire Norman MacLean, 2017-05-01 National Book Critics Circle Award Winner: “The terrifying story of the worst disaster in the history of the US Forest Service’s elite Smokejumpers.” –Kirkus Reviews A devastating and lyrical work of nonfiction, *Young Men and Fire* describes the events of August 5, 1949, when a crew of fifteen of the US Forest Service’s elite airborne firefighters, the Smokejumpers, stepped into the sky above a remote forest fire in the Montana wilderness. Two hours after their jump, all but three of the men were dead or mortally burned. Haunted by these deaths for forty years, Norman Maclean puts together the scattered pieces of the Mann Gulch tragedy in this extraordinary book. Alongside Maclean’s now-canonical *A River Runs Through It* and *Other Stories*, *Young Men and Fire* is recognized today as a classic of the American West. This edition of Maclean’s later triumph—the last book he would write—includes a powerful new foreword by Timothy Egan, author of *The Big Burn* and *The Worst Hard Time*. As moving and profound as when it was first published, *Young Men and Fire* honors the literary legacy of a man who gave voice to an essential corner of the American soul. “A moving account of humanity, nature, and the perseverance of the human spirit.” –Library Journal “Haunting.” –The Wall Street Journal “Engrossing.” –Publishers Weekly

FIRE Dan Ward, 2014-04-29 Noted military technology expert Dan Ward's manifesto for creating great products and projects using the methods of rapid innovation. Why do some programs deliver their product under cost, while others bust their budget? Why do some deliver ahead of schedule, while others experience endless delays? Which products work better--the quick and thrifty or the slow and expensive? Which situation leads to superior equipment? With nearly two decades as an engineering officer in the U. S. Air Force, Dan Ward explored these questions during tours of duty at military research laboratories, the Air Force Institute of Technology, an intelligence agency, the Pentagon and Afghanistan. The pattern he noticed revealed that the most successful project leaders in both the public and private sectors delivered top-shelf products with a skeleton crew, a shoestring budget, and a cannonball schedule. Excessive investment of time, money, or complexity actually reduced innovation. He concluded the secret to innovation is to be fast, inexpensive, simple, and small. FIRE presents an entertaining and practical framework for pursuing rapid, frugal innovation. A story-filled blend of pop culture and engineering insight, FIRE has something for everyone: strategic concepts leaders can use as they cast a vision, actionable principles for managers as they make business decisions, and practical tools for workers as they design, build, assess and test new products.

Fire Watch Connie Willis, 1985

Fire in the United States ,

Forest Fire Creates Inferno Louise Spilsbury, Richard Spilsbury, 2017-12-15 Forest fires can happen naturally, but the truth is that people cause them, too, often to terrible consequences. Readers learn how they start in both cases as well as how these fires spread, the damage they cause the environment, and how firefighters fight them on the ground and in the air. Case studies of recent forest fires, including the 2016 fires in California, provide readers with real-life examples to encourage connections between the book's STEM content and social studies concepts of conservation, community engagement, and the huge project of cleaning up a natural disaster like a forest fire.

The Strand Theatre Fire: The 1941 Brockton Tragedy and the Fallen Thirteen James E. Benson & Nicole B. Casper,2017-03-06 On March 10, 1941, at 12:38 a.m., the Brockton Fire Department responded to Fire Alarm Box 1311, which was pulled for a fire at the Strand Theatre. Fire Alarm dispatched the deputy chief, three engine companies, a ladder company and Squad A. Within six minutes, a second alarm was struck. Less than one hour after the first

alarm, the roof of the Strand collapsed, and what appeared to be a routine fire turned into a disaster that killed thirteen firefighters and injured more than twenty others. The disaster marks one of the largest losses of life to firefighters from a burning building collapse in the United States. Jim Benson and Nicole Casper chronicle this devastating tragedy and celebrate the community's heroes and resilience in the face of adversity.
