Elementor: Colossal Downfall Sean Carter, 2011-02-02 A Mystifying Tale of The Last Elementor Born When Naes was born, his parents admired his beauty, especially his bright blue eyes. But something was different about him that they did not yet realize—Naes was the last Elementor born. Ages ago, in lands beyond imagination, there were the Elementors. They were people of any race: men, elves, or dwarves, who were born with a consciousness in them called an Element. These Elements had to grow and mature in thought as their Elementor did. When the time was right, the Element would begin to show its presence to its Elementor so at a later age, they could learn how to use their magnificent power. Naes never grasped how he got his Element or what made him “chosen” over others. Orphaned at a young age, he was taken in by Bardrick and his brother Rhangorr, after they found him unconscious in the fields. The brothers became Naes’ mentors; helping him discover and work in unison with his Element. However, his power became too strong, sometimes, even for him to handle. Will this lead him to use his power for the will of good? Or for evil? Mystifying and engaging, *Colossal Downfall* thrusts readers in the middle of mythical proportions with its vivid descriptions and creative use of words...

The Tantric Distinction Jeffrey Hopkins, 2013-10-23 The ideas, concepts, and methods of various religions must be tried on for size, must be lifted above museum displays, must be confronted and allowed to resonate with one's own character. It is in this spirit that I present here a personalized account of central Buddhist practices.--from the author's preface. Widely recognized as one of the West's leading scholars of Tibetan Buddhism, Professor Jeffrey Hopkins is renowned for his textual translations and

original scholarship. For ten years he served as the principal English translator for His Holiness the Dalai Lama. The Tantric Distinction is his effort to make accessible the complexities of this highly sophisticated philosophy by sharing his personal, individual experience with Buddhist thought and practice. It lays out the entire Buddhist path as a living experience.

The Phoenix Joanna Szpernoga, 2019-04-11 Twenty-one-year-old Roksana Ava Lawless is a fire elemental living in the secluded town of Evion and attending the School of Mastering Elemental Abilities, where elementals go to learn control of their powers until they turn twenty-three. She has been raised just like every other fire elemental: despising all ice elementals—a hatred that only increased when six of them murdered her brother six years ago. But when a certain elemental reaches out to Roksana with unexpected information, her life begins to change drastically—and her ability to maintain control of herself rapidly dwindles. Soon she finds herself working with someone she had once thought was her worst enemy. Roksana faces many battles, both mental and physical, before confronting a life-altering decision that will dictate her future and that of every other elemental's future in Evion. The first of a series, this novel tells the story of a young fire elemental as she learns that the world around her may not be quite what she believes.

Fire from First Principles Paul Stollard, 2014-02-06 Fire safety is a fundamental requirement of any building, and is of concern to several professions which contribute to the construction process. Following on from the success of the previous three editions, Paul Stollard has returned to update and expand this classic introduction to the theoretical basis of fire-safety engineering and risk assessment. Avoiding complex calculations and specifications, Fire From First Principles is written with

architects, building control officers and other construction professionals without fire engineering backgrounds in mind. By tackling an overview of the factors which contribute to fire risk, and how building design can limit these, the reader will gain a fuller understanding of the science behind fire regulations, safe design, and construction solutions. All regulations content is fully updated, and has been expanded to cover the USA and China as well as the UK. Ideal for students of architecture and construction subjects, as well as practitioners from all built environment fields learning about fire safety for the first time.

not know the truth. The truth has the ability to change their
lives. Her father, Adhiraj, is one who does not want to
change his life because he knows if the truth comes out,

Aristotle's Criticism of Plato's 'Timaeus' George S.
Claghorn,2012-12-06 The purpose of this study is to
determine Aristotle's attitude toward the content and
method of Plato's natural science. Plato and Aristotle have
often been regarded as on opposite sides of a philosophic
'Great Divide'. On the other hand, those who have found
that the two men were in agreement have sometimes
mentioned only scattered instances of that agreement.

There is need for a new comparison of the two philosopher-one which is limited in scope, based on the primary texts, and which is systematic and thorough in method. If successful, such a comparison would bring into sharp focus one phase of Aristotle's comments on Plato. Our attempt to meet this need is Aristotle's Criticism of Plato's TIMAEUS. In pursuing this study, it has been necessary to reject a number of uncritically-accepted interpretations of the Timaeus. Contrary to the view of many, we have concluded that Aristotle largely agreed with Plato, both in the principles and presuppositions of his natural science. A number of implications stem from this study. There is, for example, the oft-questioned manner in which Aristotle treated Plato's philosophy. In the great majority of instances, Aristotle stands forth as a reliable reporter and a skilled critic. Moreover, the study sheds light on that ancient riddle: whether Plato and Aristotle are basically akin or at odds in their general philosophies.

The Fire Fight Jamie Bessent, 2018-05-04 This manuscript follows Xzavior Zandell, who is second in command at a fire house. He and his crew tend to a fire at an apartment building, where he rescues the beautiful Annastiasha. Xzavior continues to carry out his duties and check on her as she recovers, suffering some injuries and being hospitalized himself. The two develop a bond as he recovers, and they eventually get married and have a daughter. They are later involved in a car accident that lead to Annastiasha's and their daughter's death. Though Annastiasha was pregnant at the time, the doctors are able to save the unborn boy. Later, Xzavior meets Miya and later exacts revenge on the man who caused the accident.

Fire Alive! John Steiner, 2013-07-29 Fire. The light by which we tell our stories and mythic tales. It kept the night at bay for hundreds of thousands of years. It guided

humanity's migrations across the globe, and became mankind's first weapon of mass destruction. What if fire developed a mind of its own. ... Firefighting is already a tough job even in 2026. Captain Duane Longhand Longhurst and probationary firefighht Malcolm O'Connell of Salt Lake City's Station 8 discover it's going to get much harder. A phenomenon of particle physics called Self-Propagating Organized Thermotroph or S.P.O.T. emerges to burn whatever they can to ingest the heat that fuels their semi-living existence. Breaking in a new enigmatic probie, and struggling with memories of past fire calls, Captain Longhurst has to now take on the blazing entities.
