**Engines and Other Apparatus of the Milwaukee Fire Department** Wayne Mutza,2020-09-18 The vehicles and other firefighting equipment of the Milwaukee Fire Department, like the department itself, are unique among the fire service. It built more of its own apparatus than any other American city and few can match the scope and

character of apparatus used to serve and protect life and property in Milwaukee. Through detailed research, firsthand narratives, and captivating photos, the author walks the reader through the fascinating history of the incredible machines that served Cream City from the mid-nineteenth century to modern times. This volume traces the ever-changing face of Milwaukee's fire-fighting and life-saving equipment in parallel with the city's own history and growth. The fire department workshop's reputation for ingenuity is shown through its adaptations to disastrous fires that brought about changes in laws, economic growth and decline, the establishment of Milwaukee's ethnic neighborhoods, the difficult transition from horses to motorization, the wartime and post-war experience, the corporate world of apparatus manufacturers, and Milwaukee's fireboat fleet.

**Illustrated Encyclopedia of American Fire Engine Manufacturers** Walter McCall, 2009-10-15 From Abbott & Downing to Zwak, this comprehensive volume combines company histories, innovations and hundreds of photographs to present the story of American fire engine manufacturing. The objective of this book was to compile as comprehensive and complete a list as possible of the known players—the hundreds of companies that produced more than just one or two fire trucks, and which operated as continuous fire apparatus manufacturing and sales enterprises. In the main this book is an alphabetical listing of dedicated motor fire apparatus builders—companies that designed and built pumpers, ladder trucks, rescue and other types of motor fire apparatus in their own factories—from the frame-up on their own custom chassis or on commercially-available domestic truck chassis. Also included are a number of commercial chassis makers such as International, Freightliner, Kenworth and Peterbilt which forged special alliances with various fire apparatus builders, and which sometimes made and marketed fire apparatus under their own names. This encyclopedia is a vital reference source for libraries, fire station, historians, fire apparatus enthusiasts, and anyone involved in or enamored with the fire apparatus industry.
