*Fighting Fire* Caroline Paul, 1999-06-15 Caroline Paul, one of the first women in the San Francisco Fire Department, writes about what it's like to be a firefighter: the daily routine of the fire house, and the dangers and thrills of risking one's life fighting this elemental force. In remarkably gripping prose she shows readers what life is like for a woman in what has traditionally been a man's world. Caroline was named one of People magazine's 50 Most Beautiful People in 1998. Martin's Press.

**Industrial Firefighting for Municipal Firefighters** Craig H. Shelley, Anthony R. Cole, Timothy E. Markley, 2007 Written to specifically prepare the municipal firefighter for responses to a wide range of industrial fires, this book is ideal for municipal firefighters at any stage of their career, as well as for personnel at industrial facilities who operate or coordinate response with municipal fire departments.

**Firefighting Strategies and Tactics** James S. Angle, Michael F. Gala Jr., David Harlow, William B. Lombardo, 2019-12-30 The Fourth Edition of Firefighting Strategies and Tactics meets and exceeds the course outcomes of the National Fire Academy's Fire and Emergency Services Higher Education (FESHE) course Strategy and Tactics (C0279). Firefighting Strategies and Tactics, Fourth Edition is a valuable resource for fire fighters studying for promotion or taking civil service examinations. The Fourth Edition reinforces safe and effective firefighting strategies and tactics for fire fighters and fire officers to employ during a wide spectrum of fire incidents. The chapters follow a natural progression, each chapter building on the previous foundation to provide a broad understanding of firefighting strategy and tactics. Firefighting Strategies and Tactics, Fourth Edition offers in-depth coverage of potential incident hazards, strategic goals, and tactical objectives at: One- and two-family dwellings Multiple-family dwellings Commercial buildings Places of assembly High-rise buildings Vehicle fires Wildland fires The Fourth Edition also includes: An Emphasis on Safety—Safety and professionalism are stressed throughout the chapters and are reinforced through discussions of incident effectiveness, hazard awareness, and strategic decision-making. Information for Today's Fire Service—Expanded and new discussions on geographic information system (GIS mapping), drone use for creating preincident plans, cancer risks in the fire service, gross decontamination of bunker gear after fires to reduce carcinogens, lookouts-communications-escape routes and safety zones (LCES), and deployment of rapid intervention crews at wildland fires. Engaging Case Studies—Opening each chapter, case studies highlight actual events to emphasize the importance of developing sound strategies and tactics to fight fires effectively and safely. Additional case studies close out each chapter and provide students an opportunity to test their understanding in a safe environment. Knowledge in Action—The final chapter demonstrates how the strategies and tactics throughout this resource may be applied in scenarios set at various types of occupancies. This feature offers students an opportunity to see how concepts are applied in the real world.

**Firefighting** Ben S. Bernanke, Timothy F. Geithner, Henry M. Paulson, Jr., 2019-04-16 Should be required reading for all policy makers." —Warren Buffett From the three primary architects of the American policy response to the worst economic catastrophe since the Great Depression, a magnificent big-picture synthesis--from why it happened to where we are now. In 2018, Ben Bernanke, Tim Geithner, and Hank Paulson came

together to reflect on the lessons of the 2008 financial crisis ten years on. Recognizing that, as Ben put it, the enemy is forgetting, they examine the causes of the crisis, why it was so damaging, and what it ultimately took to prevent a second Great Depression. And they provide to their successors in the United States and the finance ministers and central bank governors of other countries a valuable playbook for reducing the damage from future financial crises. Firefighting provides a candid and powerful account of the choices they and their teams made during the crisis, working under two presidents and with the leaders of Congress.

Fire Under Control Steve Bernocco, 2020-12-02 The core principles of structural

firefighting are fire behavior, building construction, strategy, tactics, safety and training. Each core principle is examined with relevant on-the-job stories to bring lessons home. Fire departments must constantly train their firefighters and officers in these core principles if they want them to be safe and effective at structure fires. Training is the foundation of all the other core principles, and must be realistic, scenario-based, and hands-on. Never stop learning during your time as a structural firefighter. If you come to a point where you mistakenly believe that you know everything there is to know about fires in and around buildings—watch out—because you have just fallen into the complacency trap.

**FEATURES** --Gain a deeper understanding of how firefighters should approach fires in buildings, with an emphasis on safety and effectiveness --See the latest research from UL and NIST on fire behavior and flow paths, with a discussion of best-practices and up-to-date tactical advice. --An essential, easy-to-read fundamental resource on how to safely and effectively fight fires in buildings of any size or type. "Fire Under Control is a riveting new book that allows you to learn while also seeing how street experiences coincide with printed tactical and scientific fire service information. I always have said that eyes, ears, and experience will equal your education in the fire service and Capt. Steve Bernocco has managed to bring it to light." -- Lt. Mike Ciampo, Fire Department of New York
