**Fireball** Robert Matzen, 2017-01-16 This fresh look at Hollywood's Queen of Screwball, Carole Lombard, presents a first-ever examination of the events that led to the shocking flight mishap that took her life on the side of a Nevada mountain in 1942. It also provides a day-by-day account of the struggles of Lombard's husband, Clark Gable, and other family, friends, and fans to cope with the tragedy. In effect, having just completed the first sale of war bonds and stamps in the nation following its entry into World War II, Lombard became the first Hollywood star to sacrifice her life in the War. The War Department offered Gable a funeral service with full military honors, but he refused it, knowing that his wife would not approve of such spectacle. Based on extensive research rather than gossip, this investigation further explores the lives of the 21 others on the plane, including 15 members of the U.S. Army Air Corps, and addresses one of the most enduring mysteries of World War II. On a clear night full of stars, with TWA's most experienced pilot at the controls of a 10-month-old aircraft under the power of two fully functioning engines, why did the flight crash into that Nevada mountainside? This gripping page-turner presents the story of the people on the plane, the friends and families left behind, and the heroic first responders who struggled up a mountain hoping to perform a miracle rescue. It is a story of accomplishment, bravery, sacrifice, and loss.

*Fireball* John Christopher, 2015-10-20 Two cousins are thrust into a parallel reality when they travel through time and fire in the first book of the alternative history Fireball Trilogy, from critically acclaimed Tripods author John Christopher. Simon and his cousin Brad hadn't wanted to spend the summer together. And the quiet London suburb where Simon lived was the last place they expected anything unusual to happen. Then the fireball came. The huge whirling ball of light was like nothing the boys had ever seen before—and they felt compelled to investigate. They awoke in a world where everything had changed. It's still England...but an England terrifyingly different from the one they had left behind. They passed through the fireball, and now they will have to learn to survive in the fascinatingly strange world on the other side...

*The Mystery of the Tunguska Fireball* Surendra Verma, 2005-02-03 On 30 June 1908 a mysterious fireball exploded in the Siberian sky and flattened 2,000 square kilometres of the remote Tunguska forest. As no crater and no material from outer space were ever found, a meteorite could not have caused the Tunguska explosion. So what did? This 'grand dame of science mysteries' soon turns 100 but continues to seduce scientists and charlatans alike, all hoping to explain what caused the explosion. The scientists' suspects include a comet, an asteroid, a mini black hole, a rock of antimatter, a mirror matter asteroid, and a methane gas blast from below. X-files-type explanations include an alien spacecraft, a laser beam fired by extraterrestrials in an attempt to communicate with the earthlings, and an early experiment in nuclear physics which got out of hand. Numerous websites, conspiracy theories and sensational TV documentaries on the Fireball abound. In a fast-moving and non-technical narrative *The Tunguska Fireball* discusses all theories and then analyses the evidence to point an accusing finger at a prime suspect.

*The Fireball Mystery* Mary Adrian, 2018-03-07 Tim and his sister Vicki, along with their new friend Joey, hunt for a meteorite they saw fall from outer space -- but run into unexpected complications, including the disappearance of a telescope. And why is someone trespassing on their property and blinking colored lights at night? Something is up, and only the three kids can solve the mystery! Another classic Mary Adrian mystery.

**Operation Fireball** Dan J Marlowe, 2012-04-01 Five strangers ... Two million bucks ... One lusty redhead ... And no holds barred. Staying out of trouble might be relaxing for some guys. But too much peace and quiet make me very nervous. Hazel—the luscious lady who keeps me busy and happy during long winter evenings—was trying to sell me her retirement plan. I was tempted. But then suddenly an old pen pal turned up with a couple of friends and a scheme that started my motors

going full blast. A two million dollar heist. Cash. Already out of the bank and stashed in a nice, respectable museum—in Cuba. They needed me to help them get it back to the States. That should have tipped me. A hijacker trying to get back from Cuba? I shoulda stood in bed. With Hazel.

*Fireball Whiskey* Robin Rance,2016-12-06 Merci... Lonely and neglected by a husband that was forced to marry her after getting her pregnant. She wants to be loved, he wants to be the boss. Ryan... The Fireball Brothers M. David Hornbuckle,2019 In 1959, two teenage brothers in rural Alabama are swimming in a pond when a fireball falls from the sky and lands in the water near them. When they come out, they are fused together, but nobody can figure out the cause. Then a doctor in New Orleans claims he can help them. To raise money for the surgery, they travel throughout the Southeast playing music. A wily reporter from Tupelo named Munford Coldwater follows their story as they meet snake oil salesmen and carnival barkers who try to take advantage of them--

The Legend of Fireball Fleming Pete Gagan,2007-06-04 This novel follows the life of a totally fictitious character through historically accurate context. Huh? Jed Fireball Fleming, his family, and a couple of his friends are fictional characters. The motorcycle personalities he meets are real, as are most of the activities and events he participates in. It's the incredibly true history of a totally unreal person set during the pioneer days of motorcycling

*Fireball Fox Saves the Forest* Jacqueline Crivello,2021-09-30 A story of a red fox and how he saves the forest

*Fish Finelli (Book 2)* E.S. Farber,2014-04-01 When Bryce Billings says he will clobber Fish Finelli in the Captain Kidd Classic boat race, Fish has no choice but to accept the bet. But Fish's 1970s Whaler with a broken motor is no match for Bryce's new, top-of-the-line, 9.9-horsepower Viper—even if Fish, Roger, and T. J. can fix their measly 5-horsepower motor, it can't compete with Bryce's boat. With \$9.63 between them, do the guys even have a chance at the Classic? A hilarious romp, filled with fun facts seamlessly integrated into the story, Fish Finelli informs as much as it entertains for perfect middle-grade reading.

Fireball Mary B Moore,2019-08-05 Tabitha Moving to a new town isn't easy, especially when it's so you can bond with the half-sister you never knew existed until those ancestry DNA results came back. I took the leap and got a job at the school in Piersville as an art teacher and made an offer on the pretty little house that I'd seen online. What I never expected to find when I arrived was my sister catching her husband cheating on her, and then getting arrested for no reason by the Sheriff, Dave Bell. I was a sucker for tattoos, I was also a sucker for a tall man built like a wall. And apparently I was a sucker for a guy with a badge and a big... truck. Call me old-fashioned, but being arrested, interrogated, and tortured (well, maybe not quite) wasn't exactly romance, but everyone makes mistakes so I gave him a second chance. Until I found out the huge secret he was hiding - well, more to the point who he was related to. Fool me once, shame on you. Fool me twice, you're a twat. Fool me three times, no chance! DB The people in the town I worked in were relatively easygoing, well aside from the Townsends. That family was a law unto themselves. Tabitha Newton, the new art teacher, breezed into town and into my life at the same time. I'd been called out to check on a house with a suspicious car in the drive by a concerned neighbor and had stumbled across the new woman sprawled across the living room floor. One accidental arrest, a trip to the station, and a friendly 'getting to know you' interrogation later, and I asked her out before she could find out who my stepsister was. It was stupid, of course she'd find out, but something about the woman had intrigued me so much that common sense hadn't even come into it. There's a way around that though because there's a way around everything. If that fails, I'll just arrest her again - because I can.

*The Tunguska Fireball* Surendra Verma,2005 At 7.14 a.m on 30 June 1908 a huge fireball exploded in the Siberian sky. A thousand times the force of the hiroshima bomb, it flattened an area of remote Tunguska forest bigger than Greater London, forming a mushroom cloud that almost

reached into space. What was it? A century on, and no one knows for sure. Suspects range from comets or mini black holes into the realms of science fiction and conspiracy, a laser beam fired by extra-terrestrials or an early nuclear experiment. This is an exhilarating ride around one of science's greatest mysteries....

Missy's Fireballs Sandra Jayne Herman Aguinaga, 2021-10-06 In celebration of Missy's birthday, Grandma takes her to buy a plant. Her favorites are the bromeliads, and the variety Missy chooses are called "Fireballs." The center of the plant is known as the "mother," while little sprouts—or "pups"—grow next to her. At home, Missy puts her Fireball in a sunny place, and soon, more pups begin to grow. Some of the pups need to be moved to other pots in order to grow properly. The pups and mother worry about the consequences of being separated, but it must be done for the good of the family. Enlisting the help of others in the garden, Mother Fireball and her pups cope with the distance. The kind community spreads love far and wide, proving that families can feel close even when not living together. By working as friends and trusting each other, all the creatures of the garden form a loving bond.

Fireball in the Whirlwind Perry Yancey, 2004-09-07 Fireball in the whirlwind is based on a UFO caught on tape, as photo-graphed by Perry Yancey, and written by Arnold Yancey. Caught on the video recorded tape August 19th, 1997, in Oberlin, Ohio. The pictures contained in this book are not forged and are original. The Yancey family has seen paranormal activity at their country home for years. The family first noticed the lights over the countryside in the early 60s. The objects became commonplace around the area, often being spotted over top the woods, or inside the wooded area of our farm. The objects would appear day or night, but mostly at dawn, as we would watch from our garage some nights as if it was a show and at times ignoring the events if we had important things to do. That's how common it was. Always in the northeast part of the sky as they would move in strange erratic patterns defying normal behavior of anything made by man. Moving across the sky as if moving towards Lake Erie, or moving onward through darkness displaying different colors and size. Lord, only she knows what those things are floating around here, as Mama would say. And she was very upset when she spotted a huge UFO in the front yard one morning, reminding me how she never liked the country. The country was full of paranormal activity. Strange events are common in secluded areas.
