**Best Wishes from Hell** Kathleen DeSaye,2020-05-10 Wraiths, nightmares, trolls, and pirates run rampant across the isles. In these turbulent times, only a fool would go looking for trouble. That's why all Hearken are idiots.Of all the exciting, monster-filled islands of the world, Dice resides on the safest, dulllest of them all. Born a Hearken, a person possessing the ability to sense nearby danger, he craves nothing more than a good crisis to make right. Needless to say, this skill is rendered useless in this perfect paradise.But paradise is more than it seems. And when trouble comes knocking at last, Dice is quick to answer the call. With reckless idiocy, he dives headfirst into an adventure of thrilling danger, bloodthirsty demons, vengeful witches and-most likely-utter doom.

**Grey Wars** N. W. Collins,2021-06-29 An analysis of U.S. Special

Operations, at the center of America's twenty-first-century wars This original and accessible book is a comprehensive, authoritative analysis of U.S. Special Operations. U.S. Special Operations Command trains and equips units to undertake select military activities, frequently high-risk missions, often for the purposes of counterterrorism and counterinsurgency. Since 9/11, impelled by an attack on U.S. soil, these forces have been a central instrument of America's military campaign—operating in about one hundred countries on any given day. This fight—neither hot war nor cold peace—was launched and executed as a new type of global war in 2001 and has since splintered into a spectrum of regional conflicts. The result is our nation's grey wars: hazy and lethal. This contemporary history, incorporating extensive interviews and archival research by security studies expert N. W. Collins, delves deeply into the transformation of these forces since 9/11.

**The Animated Movie Guide** Jerry Beck,2005-10-28 Going beyond the box-office hits of Disney and Dreamworks, this guide to every animated movie ever released in the United States covers more than 300 films over the course of nearly 80 years of film history. Well-known films such as Finding Nemo and Shrek are profiled and hundreds of other films, many of them rarely discussed, are analyzed, compared, and catalogued. The origin of the genre and what it takes to make a great animated feature are discussed, and the influence of Japanese animation, computer graphics, and stop-motion puppet techniques are brought into perspective. Every film analysis includes reviews, four-star ratings, background information, plot synopses, accurate running times, consumer tips, and MPAA ratings. Brief guides to made-for-TV movies, direct-to-video releases, foreign films that were never theatrically released in the U.S., and live-action films with significant animation round out the volume.

**The Thefts of the Mona Lisa** Noah Charney,2011 Leonardo da Vinci's portrait, called the Mona Lisa, is without doubt the world's most famous painting. It achieved its fame not only because it is a remarkable example of Renaissance portraiture, created by an acclaimed artistic and scientific genius, but because of its criminal history. The Mona Lisa (also called La Gioconda or La Joconde) was stolen on 21 August 1911 by an Italian, Vincenzo Peruggia. Peruggia was under the mistaken impression that the Mona Lisa had been stolen from Italy during the Napoleonic era, and he wished to take back for Italy one of his country's greatest treasures. His successful theft of the painting from the Louvre, the farcical manhunt that followed, and Peruggia's subsequent trial in Florence were highly publicized, sparking the attention of the international media, and catapulting an already admired painting into stratospheric heights of fame. This book tells the art and criminal history of the Mona Lisa. This extended essay in book form, prepared to coincide with the 100th anniversary of the 1911 theft, examines the criminal biography of Leonardo's Mona Lisa, with a focus on separating fact from fiction in the story of what is not only the most famous art heist in history, but which is the single most famous theft of all time. In the process this book also tells of Leonardo's creation of the Mona Lisa, discusses why it is so famous, and investigates two other events in its history of theft and renown. First, it examines the so-called affaire des statuettes, in which Pablo Picasso and Guillaume Apollinaire were arrested under suspicion of involvement in the theft of the Mona Lisa. Second, there has long been a question as to whether the Nazis stole the Mona Lisa

during the Second World War—a question that this book seeks to resolve. This book provides a strong introduction to the Mona Lisa and the thefts surrounding it. Noah Charney is the Sherlock Holmes of art theft. Beyond his great sleuthing prowess, he writes with the simple grace of a novelist and the erudition of a scholar. Here his subject could be no more dramatic: the impossible-but-true story of the most famous of all paintings, the Mona Lisa. It is a tale that bounces along, implicating the likes of Apollinaire, Picasso, the Nazis, and Nat King Cole. It is easy to pick up and very hard to put down. -Mark Lamster, author of *Master of Shadows: the Secret Diplomatic Career of the Painter Peter Paul Rubens* Deftly written and riveting to read. -Sidney Kirkpatrick, author of *Hitler's Holy Relics* Few writers have brought the issue of art theft to the fore with the fervor of Noah Charney. With *The Thefts of the Mona Lisa: On Stealing the World's Most Famous Painting*, Charney has created a work that is equal parts lucid art history and thrilling true crime. Both the popular myths and the hidden truths surrounding the theft and recovery of Leonardo's seminal work provide art theft investigators and museum security directors with important lessons for solving—and preventing—art crime today. -Anthony Amore, art theft and security expert and author of *Stealing Rembrandts: The Untold Stories of Notorious Art Heists* All profits from the sale of the print edition of this book support the charitable activities of ARCA, the Association for Research into Crimes against Art, an international non-profit research group on art crime and cultural heritage protection.
