Horses Don't Fly Frederick Libby,2000 From breaking wild horses in Colorado to fighting the Red Baron's squadrons in the skies over France, here in his own words is the true story of a forgotten American hero: the cowboy who became our first ace and the first pilot to fly the American colors over enemy lines.Growing up on a ranch in Sterling, Colorado, Frederick Libby mastered the cowboy arts of roping, punching cattle, and taming horses. Once he even roped an antelope. As a young man he exercised his skills in the mountains and on the ranges of Arizona and New Mexico as well as the Colorado prairie. When World War I broke out, he found himself in Calgary, Alberta, and joined the Canadian army. In France, he transferred to the Royal Flying Corps as an observer, the gunner in a two-person biplane. Libby shot down an enemy plane on his first day in battle over the Somme, which was also the first day he flew in a plane or fired a machine gun. He went on to become a pilot. He fought against the legendary German aces Oswald Boelcke and Manfred von Richthofen. He became the first American to down five enemy planes and won the Military Cross for conspicuous gallantry in action. When the United States entered the war, he became the first person to fly the American colors over German lines. Libby achieved the rank of captain before he transferred back to the United States at the behest of another aviation legend, then-colonel Billy Mitchell. Written in 1961 and never before published, *Horses Don't Fly* is a rare piece of Americana. Libby's memoir of his cowboy days in the last years of the Old West will remind readers of Cormac McCarthy's *Border Trilogy*-but it's the real thing. His description of World War I combines a rattling good account of the air war over France with captivating and sometimes poignant depictions of wartime London, the sorrow for friends lost in combat, and the courage and camaraderie of the Royal Flying Corps. Told in a modest, self-deprecating, and often humorous voice in a pure American vernacular, *Horses Don't Fly* is, as Winston Groom notes in his introduction, not only an

important piece of previously unpublished history [but] a gripping and uplifting story to read.

The Flying Horse Caper Ann O. Chehak, 2018-11-15 An uneasy sense of impending calamity falls. An underhanded war crushes. As troubles beset the Flying Horse Ranch, lady veterinarian, Kat Lamar, teams up with newly hired ranch foreman, Cade Crocker, thwarting attempts aimed at forcing a land sale and stealing a runaway stallion. Cade, in dusty boots and cowboy hat, arrives under a cloud of suspicion, haunted by a past failure as he defends the Flying Horse under the mistrustful but tempting green eyes of the lady vet. Someone with inside knowledge is putting the Flying Horse Ranch out of business and setting off a series of sabotage mishaps. A stable fire puts Cade on the trail of the arsonist and horse thief. He finds little evidence, no answers, and plenty of suspects but no proof. Bad luck, sleuthing, and misfortunes abound for Kat, and riding into trouble, she comes across the terrifying reality of a wicked, inveigling hand grasping for what is rightfully hers. Her adversary is waiting and explodes in anger when crossed, terrifying Kat with his horrifying, crazy laughter. Cade, by her side, goes after the man who once outwitted him. Can he find his faith and reclaim the courage to fight a battle he once lost?

How to Fly a Horse Kevin Ashton, 2015-01-20 As a technology pioneer at MIT and as the leader of three successful start-ups, Kevin Ashton experienced firsthand the all-consuming challenge of creating something new. Now, in a tour-de-force narrative twenty years in the making, Ashton leads us on a journey through humanity's greatest creations to uncover the surprising truth behind who creates and how they do it. From the crystallographer's laboratory where the secrets of DNA were first revealed by a long forgotten woman, to the electromagnetic chamber where the stealth bomber was born on a twenty-five-cent bet, to the Ohio bicycle shop where the Wright brothers set out to "fly a horse," Ashton showcases the seemingly unremarkable individuals, gradual steps, multiple failures, and countless ordinary and usually uncredited acts that lead to our most astounding breakthroughs. Creators, he shows, apply in particular ways the everyday, ordinary thinking of which we are all capable, taking thousands of small steps and working in an endless loop of problem and solution. He examines why innovators meet resistance and how they overcome it, why most organizations stifle creative people, and how the most creative organizations work. Drawing on examples from art, science, business, and invention, from Mozart to the Muppets, Archimedes to Apple, Kandinsky to a can of Coke, *How to Fly a Horse* is a passionate and immensely rewarding exploration of how "new" comes to be.

Reflecting on the seven spiritual lessons taught to her by horses, Heyward explores: 1) passion as real presence; 2) otherness as remembering what we aren't; 3) fear as shrinking spirituality; 4) balance as sitting deep and well; 5) beauty as reflecting who we are; 6) patience as taking time; and 7) whimsy as being light as a feather. Dedicated to the staff, students, volunteers, and horses at Heyward's farm--Free Rein Center for Therapeutic Riding and Education in Brevard, North Carolina--*Flying Changes* includes 15 black and white photographs of horses and a selected bibliography.

Flying Lead Change Kelly Wendorf,2020-10-13 A guide to living and leading through the wisdom of nature, indigenous knowledge, neuroscience, and an uncommon teacher. Underneath the challenges of our modern age, we find a common cause of disconnection—from each other, the earth, and lives of purpose and meaning. How do we turn it around? In *Flying Lead Change*, Kelly Wendorf offers a guide for a new approach to leading and living, grounded in evidence-based principles of neuroscience and inspired by two profound sources of ancient wisdom: Original Peoples and Equus (the horse). Wendorf presents the wisdom of a 56-million-year-old system—the horse herd—that overcame threats we now face, such as climate change and mass extinction. Here, she shares the five pillars of their success: safety, peace, connection, joy, and freedom. She reveals how true leaders in both human and equine society use these principles to benefit the whole—a model of servant leadership based on presence and care, not dominance, force, exploitation, or coercion. In horsemanship, a “flying lead change” allows a running horse to respond with breathtaking grace to changing conditions. “Collectively, we need a similar physics-defying maneuver,” Wendorf writes. “This book is for the called—thought leaders, visionaries, parents, creatives, and all those who sense we are being asked to participate in humanity’s ‘flying change’ through the way we live, love, and lead.”
