**Equal Access to Justice for Inclusive Growth
Putting People at the Centre** OECD, 2019-03-28 This report looks at how governments can ensure that everyone has access to justice, and that justice processes and services are responsive to people's needs. Based on lessons derived from people-centred service delivery, the report identifies access to justice principles and promising practices, as well as measurement tools and indicators to help countries monitor their progress.

Business Plans that Work Alice H. Magos, Steve Crow, 2003 New or existing business owners will find all the essential elements and formulas of a professional business plan, with concrete examples throughout, in this revised guide. Complicated marketing and financial concepts are translated into down-to-earth, practical advice. Included are five updated sample business plans that serve as blueprints for business owners' own plans, with instructions that provide a wealth of detailed information about how a successful small business should operate. Plans are presented for simple, one-person operations, as well as for corporations with many employees. Aspiring business owners learn how to shape a plan to appeal to an intended audience; organise and format a plan in a professional way; describe the ownership, mission, objectives, and keys to success for the business; analyse the business industry, target market, and competition; create a marketing and sales plan; address the important operating processes and personnel issues; create financial statements based on realistic assumptions; and use the business plan as a management tool long after it is completed.

Organizations and Strategies in Astronomy 6

Andre Heck, 2006-01-16 When I was a child, growing up in South America, I often went camping in the wild and hence had direct access to the wondrous Southern sky; the Southern Cross was all mine at the time. Little did I know then that the study of the sky would take such a huge importance in my life, and that in the end astronomy and astrophysics would in many ways become my country and my religion. I have lived in several different countries, and when asked my nationality, I am always very tempted to reply: astronomer. I started as a theorist, and my only dream in my youth was to spend nights thinking and calculating, with paper and pencil, and to have the impression by dawn that I had understood something new. So at the time astronomy was seen or dreamt by me as a solitary endeavour, with periodic encounters with my wise adviser and professors; it is this model that I adopted when doing my PhD work. My generation has lived through many revolutions of all kinds. Those in astronomy, I believe, remain particularly remarkable, and I am a true product of them. Now, I elect to live and work in large organizations, and to share my endeavours with many people. And I relish the series of Andr e Heck on Organizations and Strategies in Astronomy, which help us recover our memories, reconstitute our own story, and read with glee about our neighbouring or far-away colleagues.

Congressional Record United States.

Congress, 2009 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe

(1833-1873)

Artificial War Andrew Ilachinski, 2004 Military conflicts, particularly land combat, possess the characteristics of complex adaptive systems: combat forces are composed of a large number of nonlinearly interacting parts and are organized in a dynamic command-and-control network; local action, which often appears disordered, self-organizes into long-range order; military conflicts, by their nature, proceed far from equilibrium; military forces adapt to a changing combat environment; and there is no master ?voice? that dictates the actions of every soldier (i.e., battlefield action is decentralized). Nonetheless, most modern ?state of the art? military simulations ignore the self-organizing properties of combat. This book summarizes the results of a multiyear research effort aimed at exploring the applicability of complex adaptive systems theory to the study of warfare, and introduces a sophisticated multiagent-based simulation of combat called EINSTein. EINSTein, whose bottom-up, generative approach to modeling combat stands in stark contrast to the top-down or reductionist philosophy that still underlies most conventional military models, is designed to illustrate how many aspects of land combat may be understood as self-organized, emergent phenomena. Used worldwide by the military operations research community, EINSTein has pioneered the simulation of combat on a small to medium scale by using autonomous agents to model individual behaviors and personalities rather than hardware.

The Right-Hand Man K M Peyton, 2014-01-31 It's 1818, and reckless Ned Rowlands is the fastest stagecoach driver for miles around. Ned attracts the attention of the young Lord Ironminster - determined to win a racing wager against his wealthy cousins, the Savilles, and desperate for Ned's help. Ned is quickly drawn into a strange

partnership with Ironminster; as his new friend's right hand man, Ned has an important role to play in helping him outwit the Savilles and preventing his title and estate from passing to them.

The Complete Creation Museum Adventure Ken Ham, 2008 The second book in the best-selling Complete Adventure series is designed by the creative folks at Answers in Genesis. This unique field trip in a book focuses on the exciting new Creation Museum just 7 miles west of the Cincinnati/Northern Kentucky International Airport. Visitors explore dinosaur exhibits, video theaters, a petting zoo, a state-of-the-art planetarium and much more.

Criminology Gennaro F. Vito, Jeffrey R.

Maahs, Ronald M. Holmes, 2006 Across America, crime is a consistent public concern. The authors have produced a comprehensive work on major criminological theories, combining classical criminology with new topics, such as Internet crime and terrorism. The text also focuses on how criminology shapes public policy.

Conspiracy of Hearts Helen Dickson, 2014-04-15

Taming Serena Serena Carberry first met Lord Christopher Brodie when he saved her from assault by the wretched Sir Thomas Blackwell—who vowed revenge on them both. Horrified to learn that Kit is to stay with her father at Carberry Hall, Serena is unable to forget that the dashing handsome young man has witnessed her unwitting indiscretion. But when her father is implicated in a Catholic plot against the king, it is Kit who comes to Serena's rescue. Loving him could only be a mistake, when the turmoil surrounding them is bound to tear them apart. Should she dare to risk her heart?
