Formula 2 Chris Witty,2017-09-15 This sumptuous book, a feast of nostalgia, celebrates the wonderful era of the European Formula 2 Championship, 1967-84, on the 50th anniversary of its beginnings. Formula 2 pitted emerging heroes against the greats of the day and virtually all the top Formula 1 drivers - names like Jackie Stewart, Jack Brabham, Graham Hill, Jochen Rindt and Bruce McLaren in 1967 - battled with young chargers in races that thrilled huge crowds at the best European circuits, from the Nürburgring to Brands Hatch. In bringing the glory days of Formula 2 back to life in this book, passionate author Chris Witty has interviewed many of the surviving protagonists to present a colourful and evocative retrospective, supported by the work of Jutta Fausel, who photographed Formula 2 races throughout this period. Birth of the European Formula 2 Championship in 1967, when Jacky Ickx (the writer of the book's foreword) became the first champion, driving a Tyrrell-entered Matra. French Matra cars propelled the next two champions, Jean-Pierre Beltoise (1968) and Johnny Servoz-Gavin (1969), both Frenchmen. Of all the manufacturers of Formula 2 cars, March achieved the most success, Ronnie Peterson (1971) becoming the first of six champions to win in these British-built cars. A fine all-British year, 1972, saw ex-motorcycle 'great' Mike Hailwood win the championship in a Surtees car. French champions in five consecutive years: Jean-Pierre Jarier (1973), Patrick Depailler (1974), Jacques Laffite (1975), Jean-Pierre Jabouille (1976) and Rene Arnoux (1977) dominated their era and all but Jarier went on to become Grand Prix winners. Toleman and Ralt cars - also made in Britain - emerged in the final years of the championship, which saw three more British champions: Brian Henton (1980), Geoff Lees (1981) and Jonathan Palmer (1983). The other champions were Clay Regazzoni (1970), Bruno Giacomelli (1978), Marc Surer (1979), Corrado Fabi (1980) and Mike Thackwell (1984).

Formula 2+2 Douglas B. Allen,Dwight W. Allen,2004-10-10 Even the best managers often view employee coaching and feedback as necessary evils. In this work, Allen provides managers with a simple yet powerful approach to revolutionizing feedback conversations and making them a regular and even welcome part of their duties.

Formula 2+2 Doug Allen,Dwight W. Allen,2004-11-04 In today's fast-paced business environment, frequent feedback and “course correction” is absolutely vital. But about the only time most managers offer employees feedback is during scheduled (and generally infrequent) performance appraisals, which tend to be stiff, formal, and—whether intentionally or not—adversarial, and therefore ineffective. Formula 2+2 offers a simple yet powerful approach to revolutionizing feedback conversations. It details the five secrets of effective feedback: Timeliness Balance Focus Specificity Follow-up Formula 2+2 shows how to foster a culture of continuous feedback which increases the effectiveness of the manager, protects the spirit and dignity of employees, and provides a systematic approach to reinforcing and improving employee performance.

Poker Tournament Formula 2: Advanced Strategies Arnold Snyder,2013-09-01 Snyder adapts the loose aggressive fast tournament strategies of his groundbreaking first book to the big buy-in events where the real money is made. Players learn never-before-revealed concepts and secrets that shows players why cards don't matter as much as the dynamics of a tournament. Readers learn how to alter their strategy for any tournament structure and opponent, why hands must be played differently from cash games, and why players can't figure out what winners are doing just from watching them play. The book also covers optimal satellite strategy, sit'n'go strategy, methods for estimating tournament win rate and edge

Chequered Conflict Maurice Hamilton,2008-09-04 The 2007 Formula One Championship was the first since the legendary 1986 season in which three drivers went into the final race with the possibility of being crowned champion. And not since that fateful year, when Mansell, Piquet and Prost went head-to-head, has a season so captured the world's attention and drawn so many new spectators to the sport - for reasons both on and off the track. It wasn't meant to be that way. When Fernando Alonso joined McLaren for 2007, the unspoken assumption was that the double world champion would steadily proceed to his third title in a row. He would have done exactly that, but for a development no-one could have foreseen. Carl Lewis Hamilton, a relative unknown and just twenty-two-years old, would climb into the other McLaren-Mercedes and captivate the world with consistently brilliant performances. Even as it welcomed this new prodigy, however, the world of Formula One was rocked by accusations of spying between McLaren and their bitter rivals Ferrari; accusations that resulted in millions of pounds in fines and an ill feeling between the teams, their drivers and the governing body that now threatens the future of the sport. Revisiting the 1986 season to contrast it with the world of F1 today, and applying his extensive experience as an award-winning motor-sport journalist for over 30 years, Maurice Hamilton provides a review of a season that will be remembered as one of the most important and unique in the sport's history. Analysing the individual races in expert detail as well as looking at the drivers themselves, CHEQUERED CONFLICT in its look at how radically the sport has changed in those twenty years, will become a classic of its

Formula One: Made In Britain Clive Couldwell,2012-05-31 Formula One: Made in Britain is one of Formula One's last untold stories. As a centre of technical excellence for over thirty years. Britain is at the sharp end of the worldwide motor sport industry, and playing ever harder to win. Most of the sport's Grand Prix teams are based in the UK and many of them have British managers and designers who act as a showcase for the UK's skill base - past, present and future. The success of Britain's Formula One industry has gone largely unrecognised outside the close-knit world of the racing aficionado. Now, with Formula One: Made in Britain, Clive Couldwell reveals what makes this industry tick and why many of the world's players choose to come here. He explores Motorsport Valley, an area which covers the south and Midlands of the UK, where 75 per cent of the world's single-seater racing cars are designed and built, and talks to many of F1's leading lights. Winning in F1 depends on innovation and performance-critical engineering, and in this fascinating and insightful book, Clive Couldwell show how UK research and development are leading the world.

Formula 5000 Motor Racing Derek Lawson,2010-02-01 This book is a trip down memory lane, recalling the days when Formula 5000 cars roared around the race tracks in Britain and Europe, creating a lot of noise and, occasionally, dust. The wail of a 5-litre engine was often more spine-tingling that ANY other racing car! Nowadays, many of the same cars show modern day spectators just what Formula 5000 was, back in the day. Few, if any, of the drivers are prima-donnas and many want to know what their car did before it came into their possession. This book answers those questions and many more.
