Hitler's Doubles Peter Fotis Kapnistos, 2015-04-08 Was the brutal dictator of the 20th century the masked instrument of a double image delusion? Recently released war records reveal political decoys (doppelgangers or body-doubles). It is documented that the Nazi Fuhrer vetted at least four doubles. Look-alikes and crisis actors were used to impersonate Hitler in order to draw attention away from him and to deal with risks on his behalf. *Hitler's Doubles* details their names, their peacetime occupations, their deaths, and an escape to South America. Cold War II Revision: (Trump-Putin Summit) The Cold War II Revision [2018] is a reworked and updated account of the original 2015 "Hitler's Doubles" with an improved Index. Ascertaining that Hitler made use of political decoys, the chronological order of this book shows how a Shadow Government of crisis actors and fake outcomes operated through the years following Hitler's death -- until our time, together with pop culture memes such as "Wunderwaffe" climate change weapons, Brexit Britain, and Trump's America. (More Russians now have encouraging sentiments toward the U.S. for the first time since 2014.) "Hitler's Doubles" covers modern world history events from WWII until today: The assassination of JFK, the Watergate scandal, the Iran hostage crisis, the Iran-Contra affair, the collapse of the Soviet Union, the attacks of 9/11, the appearance of the Islamic State -- with their cloaked backing of ex-Nazi interests. "Hitler's Doubles" includes much more information than its enigmatic title implies. This document is presented as a series of news articles in book form. Some material is repeated or revised. Many photos date back to pre-war times. (Italic text depicts a what-if scenario analysis by the author.) Thanks to author Fritz Springmeier & biographer William Cross who advised an update. This was fascinating... You seem to have found something important! (John Kiriakou, former CIA officer and anti-torture whistleblower, author of *Doing Time Like A Spy*.) An entire Grand Unified

Conspiracy Theory of the Third Reich... This book covers it all. (Christian Ankerstjerne, Forum Staff, Axis History.) WOW! That is one heck of a book... Your book lends proof that Adolf Hitler did not kill himself in the Bunker nor did Eva... (Harry Cooper, author of Hitler in Argentina.) Wow. Your book just overwhelmed me and caught me by surprise as to what it got into. I wasn't expecting that... You've done a tremendous amount of research here to document a unique aspect of World War II history... This book will blow your mind and give you a more in-depth perspective of various historical events. (David Allen Rivera, author of Final Warning: A History of the New World Order.) Excellent reference book. (A Verified UK Purchase Customer Review) Four Stars. It's very interesting. (A Verified USA Purchase Customer Review) [The author] offers a summary at the end about each double. The information regarding the doubles is very good. However, the evidence is very persuasive that Hitler did escape. (A Verified USA Purchase Customer Review) The world's first donor artificial insemination was with the wife of a Quaker in the late 1800s. Who was the top-secret paternal donor? Was the Quaker-son secret agent Aleister Crowley one of Adolf Hitler's doubles? Why did Walt Disney make use of Nazi scientists to build space technology after he visited South America? Hitler's Doubles covers modern world history events from WWII until today: The assassination of JFK, the Watergate scandal, the Iran hostage crisis, the Iran-Contra affair, the collapse of the Soviet Union, the attacks of 9/11, the appearance of the Islamic State -- with their cloaked backing of ex-Nazi interests. Hitler's Doubles includes much more information than its enigmatic title implies. This document is presented as a series of news articles in book form. Some material is repeated or revised. Many photos date back to pre-war times. (Italic text depicts a what-if scenario analysis by the author.) Mind of Ali Tara (2019), by the same author is a quick view of Hitler's Doubles with a chronology of shadow governments and crisis actors.

Game Theory and Exercises Gisèle Umbhauer,2016-01-08 Game Theory and Exercises introduces the main concepts of game theory, along with interactive exercises to aid readers' learning and understanding. Game theory is used to help players understand decision-making, risk-taking and strategy and the impact that the choices they make have on other players; and how the choices of those players, in turn, influence their own behaviour. So, it is not surprising that game theory is used in politics, economics, law and management. This book covers classic topics of game theory including dominance, Nash

equilibrium, backward induction, repeated games, perturbed strategies, beliefs, perfect equilibrium, Perfect Bayesian equilibrium and replicator dynamics. It also covers recent topics in game theory such as level-k reasoning, best reply matching, regret minimization and quantal responses. This textbook provides many economic applications, namely on auctions and negotiations. It studies original games that are not usually found in other textbooks, including Nim games and traveller's dilemma. The many exercises and the inserts for students throughout the chapters aid the reader's understanding of the concepts. With more than 20 years' teaching experience, Umbhauer's expertise and classroom experience helps students understand what game theory is and how it can be applied to real life examples. This textbook is suitable for both undergraduate and postgraduate students who study game theory, behavioural economics and microeconomics.

A Passport to Me Michelle,2019-05-23 "I sat, lost in thought, on that plane to France. Illinois was my home, but I felt like an outsider. Haiti was the place of my birth, but I no longer felt like I belonged. The thing at the heart of all this was that I clung to the

French language and culture. Maybe, just maybe, France and the French language held the key to finding a place of my own amongst mankind.” The previous passage is an excerpt from the book’s preface. Shortly after graduation, Michelle felt this inexorable feeling to leave in search of God’s will for her life—a journey that would change her and close the door to her innocence and her ignorance. A Passport to Me takes you on a delightful journey. The people you will meet will make you laugh and cry, but most importantly, you will gain a better appreciation for traveling.
