Foxtrots of the Indian Navy P. R. Franklin, 2015-06-02 Cmde. P.R. Franklin, AVSM, VSM (retd.) narrates some true accounts of the Soviet Foxtrot submarines that were in Indian Navy service. The names of the eight Foxtrots have been anagrammed to arrive at the name Vanshali, which is the central submarine character of these narratives. The book covers a spectrum of the activities of Foxtrots in the service including facets of training in the USSR, taking possession, bringing them to India, wartime and peacetime activities, and finally beaching a Foxtrot for display as a museum. The book has interesting revelations of a brush with a nuclear submarine in the Arabian Sea and of an Indian submarine's predicament when confronted with the situation of meeting up with the American Carrier USS Enterprise when it entered the Bay of Bengal during 1971 Indo-Pak war.

*October Fury* Peter A. Huchthausen, 2007-08-03 Huchthausen knows the hidden history of the Cuban missile crisis . . . October Fury contains startling revelations. -- TOM CLANCY Drama on the high seas as the world holds its breath It was the most spectacular display of brinkmanship in the Cold War era. In October 1962, President Kennedy risked inciting a nuclear war to prevent the Soviet Union from establishing missile bases in Cuba. The risk, however, was far greater than Kennedy realized. October Fury uncovers startling new information about the Cuban missile crisis and the potentially calamitous confrontation between U.S. Navy destroyers and Soviet submarines in the Atlantic. Peter Huchthausen, who served as a junior ensign aboard one of the destroyers, reveals that a single shot fired by any U.S. warship could have led to an immediate nuclear response from the Soviet submarines. This riveting account re-creates those desperate days of confrontation from both the American and Russian points of view and discloses detailed information about Soviet operational plans and the secret orders given to submarine commanders. It provides an engrossing, behind-the-scenes look at the technical and tactical functions of two great navies along with stunning portraits of the officers and sailors on both sides who were determined to do their duty even in the most extreme circumstances. As absorbing and detailed as a Tom Clancy novel, this real-life suspense thriller is destined to become a classic of naval literature.

*Foxtrot to Arihant* P. Joseph Chacko, 2015-04-21 The Indian navy's silent but deadly sub surface fighting arm has undergone tremendous changes since the first Foxtrot submarine was inducted into the service on 8th December 1967. The submarines have been a complex mix of diesel-electric - nuclear propulsion; Soviet - Western - Indian design; and imported - licence - indigenous build. Be it a two man swimmer delivery vehicle or deep water Kilo's and HDW's or blue water Charlie I and Akula II class SSGN's or strategic Arihant class SSBN's, the navy has operated the entire spectrum of submarine types. The grit and determination of the submariners is not just limited to fighting but also to build their own machines and fight. The submarine arm is also a bit of mystery and usually finds mentions in few pages in naval books or makes headlines during accidents. The book traces the origin and growth of the submarine arm of the Indian navy. The book has been written in consultation with Cmde Arun Kumar, AVSM, NM (Retd.) who has served 28 years in the submarine arm and has headed critical submarine upgrade and procurement plans. In his twenty eight years of submarine career, he held various staff and command appointments. He was Commodore Commanding Submarines (East) & Commanded INS Virbahu, the submarine base in the East which is still regarded as the 'Alma Mater' by the submariners of the Indian Navy; commanded the guided missile destroyer Rajput; and the Submarine Training school Satavahana. His last appointment in service was Principal Director of Submarine Acquisitions at NHQ. VAdm K.N Sushil, PVSM, AVSM, NM, ADC, Former Chief Southern Naval Command (Retd.) has written the preface. Cmde Ranjit B. Rai (Retd.) has contributed 3 chapters to the book. What Reviewers say: The book is a complete meal for a reader, because it is laden with history and lessons of yore..... This book is more than a modest effort to try and encapsulate a lot with comments by those in the arm, critiqued by contributors and despaired at points, but with an aim to Salute India's submarine arm. - CMDE Ranjit Rai (Naval Analyst, Author & Contributor) There have been quite a few books about the Indian Navy. However this book is perhaps the first of its kind as it talks exclusively about the submarines in Indian Navy. The book covers the details of IN's submarine forces in past ('Foxtrot') present ('Kilo' and 'Type 1500') and future Scorpene, Arihant and her sisters. Very informative.... This book gives a good account of our submarines in 1971 war. As they were not in the limelight a lot of people (including yours truly) had always wondered what IN submarines actually did in the 1971 war. In fact the book gives a good account of IN's submarine forces from 1970s till date .... Some of the anecdotes, like a navy personnel having undergoing an appendectomy, 100 feet below the sea, are more than enough to give goose pimples. - Kersi Dotiwala (Enthusiast)

**Cold War Submarines** Norman Polmar, Kenneth J. Moore, 2014-05-14 Submarines had a vital, if often unheralded, role in the superpower navies during the Cold War. Their crews carried out intelligence-collection operations, sought out and stood ready to destroy opposing submarines, and, from the early 1960s, threatened missile attacks on their adversary's homeland, providing in many respects the most survivable nuclear deterrent of the Cold War. For both East and West, the modern submarine originated in German U-boat designs obtained at the end of World War II. Although enjoying a similar technology base, by the 1990s the superpowers had created submarine fleets of radically different designs and capabilities. Written in collaboration with the former Soviet submarine design bureaus, Norman Polmar and K. J. Moore authoritatively demonstrate in this landmark study how differing submarine missions, antisubmarine priorities, levels of technical competence, and approaches to submarine design organizations and management caused the divergence.

Abandoned Cold War Places Robert Grenville, 2023-03-20 Featuring 170 striking photographs, Abandoned Cold War Places is a fascinating visual

history of the relics left behind by both sides from the late 1940s to the collapse of the Soviet Union in 1991.

**Soviet Cold War Attack Submarines** Edward Hampshire,2020-09-17 In this highly detailed book, naval historian Edward Hampshire reveals the fascinating history of the nuclear-powered attack submarines built and operated by the Soviet Union in the Cold War, including each class of these formidable craft as they developed throughout the Cold War period. The November class, which were the Soviet Union's first nuclear submarines, had originally been designed to fire a single enormous nuclear-tipped torpedo but were eventually completed as boats firing standard torpedoes. The Alfa class were perhaps the most remarkable submarines of the Cold War: titanium-hulled (which was light and strong but extremely expensive and difficult to weld successfully), crewed with only thirty men due to considerable automation and 30% faster than any US submarines, they used a radical liquid lead-bismuth alloy in the reactor plant. The Victor class formed the backbone of the Soviet nuclear submarine fleet in the 1970s and 1980s, as hunter-killer submarines began to focus on tracking and potentially destroying NATO ballistic missile submarines. The Sierra classes were further titanium-hulled submarines and the single Mike-class submarine was an experimental type containing a number of innovations. Finally, the Akula class were being constructed as the Cold War ended, and these boats form the mainstay of the Russian nuclear attack submarine fleet today. This book explores the design, development, and deployment of each of these classes in detail, offering an unparalleled insight into the submarines which served the Soviet Union throughout the Cold War period. The text is supported by stunning illustrations, photographs and diagrams of the submarines.

**Red November** W. Craig Reed,2010-05-04 “Red November delivers the real life feel and fears of submariners who risked their lives to keep the peace.” —Steve Berry, author of The Paris Vendetta W. Craig Reed, a former navy diver and fast-attack submariner, provides a riveting portrayal of the secret underwater struggle between the US and the USSR in Red November. A spellbinding true-life adventure in the bestselling tradition of Blind Man’s Bluff, it reveals previously undisclosed details about the most dangerous, daring, and decorated missions of the Cold War, earning raves from New York Times bestselling authors David Morrell, who calls it, “palpably gripping,” and James Rollins, who says, “If Tom Clancy had turned The Hunt for Red October into a nonfiction thriller, Red November might be the result.”

**The History of the British 'U' Class Submarine** Derek Walters,2004-01-01 Originally designed in 1934 for anti-submarine training, by the end of the war 72 U-Class subs had been commissioned; 17 were lost to the enemy, and 3 in accidents. Manned by crews from seven nations' navies, they served worldwide, and never more successfully than in the Mediterranean. This book is the definitive study of this class of submarine and the men who serve on them.

**Soviet Submarine RECCE Guide** ,1984

The Chess Players, a Novel of the Cold War at Sea Francis J. Partel,2011-03 The Chess Players is both a naval story and a love story and opens with an audacious, espionage mission, a Soviet submarine penetration of Stavanger, Norway, and closes with a thrilling, bizarre episode between a missile-equipped, Russian nuclear submarine and a US Navy destroyer escort in the Mediterranean Sea. Commander Pebbles, Operations Officer of anti-submarine carrier, Essex, on a career track for admiral, mentors the well-educated and competent, but inexperienced young Ensign Cannon. Based in part on untold, historical events typical of the Cold War at sea, their task group encounters several provocative incidents at the hands of the Russian Bear above the Arctic Circle and in the Mediterranean Sea prior to and after the 1967 Six Day Arab-Israeli War. The love story begins when beautiful Laetitia Martin, a Ph. D. candidate in art history, meets Ensign Cannon, both members of a wedding on Martha's Vineyard, shortly before Essex deploys for NATO exercises in the Eastern Atlantic. She is a consummate believer with a growth motive and catches a whiff of the women's movement and begins to find her upper-class life stifling. Cannon doesn't flinch at women's liberation, but he has other anxiety-producing issues related to women. Her research into the turbulent life of the painter, Caravaggio, the novel's fourth character, if you will, will also take her to Europe in the summer of 1967 and provides the opportunity for their romance to bud and bloom in London and in Malta as she succeeds in explaining Caravaggio's self-destructive behavior in modern psychological terms.

*The T-class Submarine* Paul Kemp,1990 A perceptive assessment of this forerunner to the hunter-killer class submarines.

**Adak** Andrew C A Jampoler,2011-11-15 In the tradition of great tales of men against the sea, Adak offers a compelling look at courage and commitment in the face of certain tragedy. Alfa Foxtrot 586 was a P-3 Orion on station on a sensitive Cold War mission off the Kamchatka Peninsula on 26 October 1978. When a propeller malfunction turned into an engine fire, the pilot was forced to ditch his turboprop into the empty, mountainous seas west of the Aleutian Islands. The aircraft went down in just ninety seconds, taking one of the three rafts with it. Thirteen men launched the other rafts, the smallest of which—terribly overcrowded—soon began to leak, threatening the nine men aboard. This account of the flight crew's desperate battle against the sea, and the heroic efforts to rescue them provide an engrossing true story of survival.
