**Lenin in India** Leonid Vasil'evich Mitrokhin, 1981 Study of the influence of the political philosophy of Vladimir Il'ich Lenin, 1870-1924, on Indian people.

*Historic Trips of a Revolutionary* Shaukat Usmani, 1977 Narrative of an Indian freedom fighter.

*Tanks of the USSR, 1917-1945* Alexander Ludeke, 2017-11-30 The Soviet Union had already begun building an armored industry as early as the 1920s. Although initially limited to reconstructing and developing Western European armored vehicles, an independent line of powerful and easy-to-produce models had been established by 1939. Even after the Second World War, the USSR expanded its armament force considerably, even planning to cross western Europe in a massive armored wave in the event of any conflict with NATO. In this book, Alexander Ludeke looks at all the important Soviet tanks that were built from 1917 up until the end of the Second World War

**Armored Units of the Russian Civil War** David Bullock, 2013-02-20 By 1920 the Red Army of Russia fielded an overwhelming array of armored cars, armored trains and tank detachments. These armored units played an important part in consolidating the newly won Bolshevik empire in the early 1920s; as a consequence of the fact that railways were the strategic arteries that essentially controlled Russia, armored trains have never played such a significant role in military history as they did in the Russian Civil War. This title details the management, construction, repair, personnel, training and combat of the Red Army's armored units on all fronts, including such famous vehicles as Trotsky's armored train.

**Makhno - Ukrainian Freedom Fighter** Roberto, In early 20th century Ukraine, freedom fighter Nestor Makhno, the son of peasants, was among the most heroic and colorful figures of the Russian Revolution, encouraging his people to find and embrace social and economic self-determination. This is his story, of a military strategist who tirelessly defied both the Bolsheviks and the Germans to protect his homeland.

**Soviet Military Review**, 1983

**Encyclopedia of Military Science** G. Kurt Piehler, 2013-07-24 The Encyclopedia of Military Science provides a comprehensive, ready-reference on the organization, traditions, training, purpose, and functions of today's military. Entries in this four-volume work include coverage of the duties, responsibilities, and authority of military personnel and an understanding of strategies and tactics of the modern military and how they interface with political, social, legal, economic, and technological factors. A large component is devoted to issues of leadership, group dynamics, motivation, problem-solving, and decision making in the military context. Finally, this work also covers recent American military history since the end of the Cold War with a special emphasis on peacekeeping and peacemaking operations, the First Persian Gulf War, the events surrounding 9/11, and the wars in Afghanistan and Iraq and how the military has been changing in relation to these events. Makhno - Ukrainian Freedom Fighter Philippe Thirault, Roberto Zaghi, 2022-03-22 The spellbinding true story of the infamous Ukrainian anarchist and revolutionary.

Russian Motor Vehicles Maurice A. Kelly, 2009-07 There has been nothing published outside of Russia concerning the activities of its motor industry, by 1937 the Soviets had become the largest producers of motor vehicles in Europe, albeit with the help of Henry Ford The author decided to concentrate on the work of the pioneers in Czarist Russia, for their efforts were more diverse than those of their counterparts in the Soviet era. However, one Soviet motor car which was an indigenous product has been included to illustrate how the industry might have

evolved if Henry Ford had not been approached. This is a comprehensive overview of all facets of vehicle production from the early days to the final demise of the Soviet Union. All the manufacturers of motor vehicles, certain accessories, military machines, and even aero engines are recorded in this unique book.

**Lenin and Indian Freedom Fighters** Leonid Vasil'evich Mitrokhin, 1988

**Daily Report, Foreign Radio Broadcasts** United States. Central Intelligence Agency, 1962

**The Headlong Fury** J. Fred MacDonald, 2014-04-25 How innocent he was in the summer of 1914. Philip Belmont, Professor of History at the University of California and expert on the diplomacy of Louis XVI had come in Paris to conduct historical research on 18th century politics. In love with France and in awe of its marvelous civilization, he arrived wide-eyed, full of expectation, and ready for a year of serious study. Through a series of interwoven circumstances, however, he was rapidly drawn into contemporary affairs that lured him into espionage and active involvement in the Great War that erupted soon after his arrival. Belmont's activities include a dangerous mission to Rome—participation in the defense of Paris—work with the American Field Service Ambulance Corps—membership in the Lafayette Escadrille as an American fighter pilot flying for France—secret work for President Woodrow Wilson—and molding public opinion to support a free Polish Republic. Too often World War One is portrayed as a series of battles between Germany, France, Great Britain, and eventually the United States. In reality, it was a global struggle stretching from Japan to Europe, North America to Southern Africa. Professor Belmont's travels underscore this point as he confronts the brutality of battle in France, as well in Russia on the Eastern Front, in Cairo on the Near Eastern Front, and in Salonika on the Macedonian Front. His adventures also intersect with major political figures, among them Woodrow Wilson, Lenin, and Lawrence of Arabia—plus various military leaders and diplomatic officials. Belmont's activities also involve him in matters such as Zionism, the Armenian Massacres, the rise of Arab nationalism, and the Spanish Flu pandemic.

**Lenin Lives!** Nina Tumarkin, 1997 Was the deification of Lenin a show of spontaneous affection, or a planned political operation designed to solidify the revolution with the masses? This book aims to provide the answer. Exploring the cults mystical, historical, and political aspects, the book attempts to demonstrate the galvanizing power of ritual in the establishment of the postrevolutionary regime. In a new section the author includes the fall of the Soviet Union and Russia's new democracy.

**The Communist Review**, 1922

**Russian Tanks, 1900-1970** John Milsom, 1971

**Tank** Patrick Wright, 2003 The history of the tank and its contributions throughout history.

International Press Correspondence, 1926

**In Defence of Lenin** Rob Sewell, Alan Woods, 2024-01-11 John Reed, the author of *Ten Days that Shook the World*, once said that Lenin was the most loved and the most hated person alive. He was loved by tens of millions who wanted to change society, but hated by the ruling class and their apologists. As the leader of the Russian Revolution, Lenin was a man who changed the world. A convinced Marxist, he created the Bolshevik Party, the most revolutionary party in history. Lenin translated the ideas of Marxism into reality. It is now one hundred years since his death. The bourgeois historians continue to slander him and his ideas. The task of this book is to explain his real life and ideas, and to draw out the significance of Lenin. Given the ongoing capitalist crisis, his ideas are gaining an increasingly wide echo. In so many ways, Lenin is more relevant today than ever before. Over two volumes, this book traces Lenin's life and explains his ideas, drawing on the colossal heritage of what he actually wrote and did. This book also features an appendix of Krupskaya's writings on Lenin, a chronology and

over 250 images.

*Bhagat Singh and His Comrades* Ajoy Ghosh, Mohit Sen, 1979 On Bhagat Singh, 1907–1931, Indian freedom fighter.  
*Red Armour* Richard E. Simpkin, 1984
