**Wounded Eagle** Dr. Dave Felsburg,2016-12-14 Wounded Eagle is a fictional account of actual events that took place during the US-USSR Cold War of the late 1970s. The title was a top secret code word used to describe situations which reduced or eliminated advance warning of an aircraft attack on the US Capital. Such warnings are provided based on a network of long range radar sensors deployed on or near the US coastline. Digital data from these sensors are combined and integrated into overall aircraft status pictures covering hundreds of miles over the ocean and an equal distance inland. The FAA and NORAD use these data jointly for real-time air route traffic control and early warning of intrusion or attack of the homeland. The Fort Lee AFS Direction Center in central Virginia provided data to NORAD to accomplish those functions for the Mid-Atlantic States including Washington, DC. At 0430 hours (EDT) on Monday, 8 August 1977, the NORAD Command Post within the Cheyenne Mountain Complex was notified that an air conditioning failure in the Fort Lee AFS Direction Center had caused severe damage to their air defense computers. The loss of all data from Fort Lee forced the NORAD Command Director to declare Wounded Eagle.

*The Limits of Affluence* James Struthers,1994-12-15 With its roots in nineteenth-century poor relief, welfare is Canada's oldest and most controversial social program. No other policy is so closely linked to debates on the causes of poverty, the meaning of work, the difference between entitlement and charity, and the definition of basic human needs. The first history of welfare in Canada's richest province offers a new perspective on our contemporary response to poverty. Struthers examines the evolution of provincial and local programs for single mothers, the aged, and the unemployed between 1920 and 1970, when the modern welfare state first took shape. He analyses the roles of social workers; women's groups; labour

and the left; federal, provincial, and local welfare bureaucrats; and the poor themselves. The Story evolves through depression, war, and unprecedented postwar affluence. A wealth of detail supports this account of all the forces that have shaped welfare policy; bureaucratic imperatives, political professionals, the unemployed, labour unions, federal-provincial relations, provincial-municipal relations, and the spirit of the times. Based on extensive primary research, this definitive work covers much new ground, providing an indispensable reference on Ontario's social welfare history (The Ontario Historical Studies Series)

*Big Moves* Anthony Perl, Matt Hern, Jeffrey Kenworthy, 2020-09-23 All countries have distinctive urban regions, but Canadian cities especially differ from one another in culture, structure, and history. Anthony Perl, Matt Hern, and Jeffrey Kenworthy reveal that despite the peculiarities and singular traits that each city embodies, a common logic has guided the development of transportation infrastructure across the country. *Big Moves* analyzes how Canada's three largest urban regions - Montreal, Toronto, and Vancouver - have been shaped by the interplay of globalized imperatives, aspirations, activism, investment, and local development initiatives, both historically and in a contemporary context. Canadian urban development follows a distinct pattern that involves compromise between local viewpoints and values and the pursuit of global capital at particular historical junctures. As the authors show, the success or failure of each city to construct major mobility infrastructure has always depended on the timing of investments and the specific ways that cities have gained access to necessary capital. Drawing on urban mobility history and global city theory, this book delves into the details of the big moves that have affected transport infrastructure in major Canadian cities. Knowing where urban development will head in the twenty-first century requires understanding how cities' major mobility infrastructures were built. *Big Moves* explains the shape of Canada's three biggest cities and how their mix of expressways and rapid transit emerged.

*Court of Frost and Embers* Leeann M Shane, 2020-12-14 Romance, danger, and magic collide in this dazzling new world by Leeann M. Shane. Little does Emmie know her life is finally about to begin...It all starts on a dark road. It ends with Emmie running for her life from a boy who was reported missing. That boy is Maxell Heathstone. He's faster than light. He's more dangerous now than ever before. Maxell isn't missing. Maxell is a vampire. And Emmie is his pair bond. *The Light of Caliburn* Jake Frost, 2021-07-19 What if the legends of King Arthur have survived for a thousand years because of the secret they hold, hidden in plain sight? What if the legends have survived for a thousand years because they're true? Geo is a painter capturing the wild beauty of Michigan's Upper Peninsula in oil on canvass as he hikes its rugged mountains and rocky coasts. Alette is a scientist and chemistry professor at Michigan Tech University, where she unravels the mysteries of nature. When a hidden secret from ages past unexpectedly comes into their hands, together they are thrown into an ancient battle against an evil from the dark mists of legend. Following a trail of clues strewn through history and myth they will need to solve the puzzle of King Arthur and Merlin and Nimue's Gift if they are to survive, and conquer. Set in the present day along the ancient shores of Lake Superior, where the signs of The Rock Wizards are still present, *The Light of Caliburn* is a fantasy adventure into the heart of Arthurian lore.

*A Justifiable Obsession* P.E. Bryden, 2013-01-01 'A Justifiable Obsession' traces the evolution of Ontario's relationship with the federal government in the years following the Second World War. Through extensive archival research in both national and provincial sources, P.E. Bryden demonstrates that the province's successive Conservative governments played a crucial role in framing the national agenda □ although this central relationship has received little attention compared to those that have been more volatile. As such, Bryden's study sheds light on an important but largely ignored chapter in Canadian political history. Bryden focuses on the politicians and strategists who guided the province through the negotiation of intergovernmental economic, social, and constitutional issues, including tax policies, the design of the new social welfare net, and efforts to patriate the constitution. Written in a lucid, engaging style that captures the spirit of the politics of postwar Canada, 'A Justifiable Obsession' is a significant contribution to our understanding of Ontario's politics and political culture.

*A Court of Frost and Starlight* Sarah J. Maas, 2018-05-01 A tender addition to the #1 New York Times bestselling *Court of Thorns and Roses* series by Sarah J. Maas, bridging the events of *A Court of Wings and Ruin* and upcoming books. Feyre, Rhysand, and their friends are still busy rebuilding the Night Court and the vastly altered world beyond, recovering from the war that changed everything. But Winter Solstice is finally approaching, and with it, the joy of a hard-earned reprieve. Yet even the festive atmosphere can't keep the shadows of the past from looming. As Feyre navigates her first Winter

Solstice as High Lady, her concern for those dearest to her deepens. They have more wounds than she anticipated-scars that will have a far-reaching impact on the future of their court. Bridging the events of A Court of Wings and Ruin with the later books in the series, A Court of Frost and Starlight explores the far-reaching effects of a devastating war and the fierce love between friends.

**Indian Rock Paintings of the Great Lakes** Selwyn Dewdney,Kenneth E. Kidd,1962-12-15 This book describes in word and illustration the results of an exciting quest on the part of its authors to discover and record Indian rock paintings of Northern Ontario and Minnesota. Numerous drawings were made from these pictographs at a hundred different sites; the originals range in age from four to five hundred years to a thousand, and were done with the simplest materials: fingers for brushes, fine clay impregnated with ferrous oxide giving the characteristic red paint. Where an overhanging rock protected a vertical face from dripping water or on dry, naked rock faces the Indians recorded the forest life with which they lived in intimate association—deer, caribou, rabbit, heron, trout, canoes, animal tracks—and also abstractions which puzzle and intrigue the modern viewer. Many of the paintings could only have been done from a canoe or a convenient rock ledge. Selwyn Dewdney travelled many thousands of miles by canoe to make the drawings of the pictographs which illustrate every page of this fascinating and attractive book. He provides also a general analysis of the materials used by the Indians, of their subject-matter and the artistic rendering given to it, and his artist's journal records in detail the sites he visited, the paintings he found at each, the comparisons among them that came to mind, the references to rock paintings in early literature of the Northwest. Kenneth E. Kidd contributes a valuable essay on the anthropological background of the area, linking the rock paintings with early cave art in, for example, France and Spain, describing the life of the Indians in the Shield country, and commenting on what the pictographs reveal of their makers' attitudes to their external world and of their thinking. This is a book which will appeal to a wide audience: to those interested in primitive art forms and in Canadian art in general, to all students of the early history of North America, to travellers who in increasing numbers follow the canoe trails of the Shield lakes and rivers.

**The Valley of the Trent** Edwin C. Guillet,1957-12-15 The Trent system of lakes, rivers, and canals occupies a considerable part of the counties of Hastings, Durham, Northumberland, Peterborough, Haliburton, and Victoria, in the province of Ontario. This volume of documents, records, and early writings covers the discovery and settlement of the valley, development and decline of the lumber trade, the Trent Canal and community life, and is abundantly illustrated in gravure and line from source materials. The Times Literary Supplement says of this first volume that it has raised high hopes of an important contribution to Canadian social and economic history. British Book News says that the excerpts from manuscripts, newspapers, old and rare books and pamphlets, with the excellent contemporary illustrations, give a vivid and valuable account of early life in this interesting area.
