Chez Panisse Fruit Alice L. Waters,2014-04-15 In 2001 Chez Panisse was named the number one restaurant in America by Gourmet magazine -- quite a journey from 1971 when Alice Waters opened Chez Panisse as a place where she and her friends could cook country French food with local ingredients and talk politics. As the restaurant's popularity grew, so did Alice's commitment to organic, locally grown foods and to a community of farmers and producers who provide the freshest ingredients, grown and harvested naturally with techniques that preserve and enrich the land for future generations. After thirty years, the innovative spirit and pure, intense flavors of Chez Panisse continue to delight and surprise all who visit, and even those who can't get there know that Alice started a quiet revolution, changing the culinary landscape forever. Inspired by Chez Panisse, more and more people across the country are discovering the sublime pleasures of local, organic vegetables and fruits. Now join Alice Waters and the cooks at Chez Panisse in celebration of fruit. Chez Panisse Fruit draws on the exuberant flavors of fresh, ripe fruit to create memorable dishes. In this companion volume to Chez Panisse Vegetables, discover more than 200 recipes for both sweet and savory dishes featuring fruit. Glorify the late-summer peach harvest with Peach and Raspberry Gratin, and extend the season with Grilled Cured Duck Breast with Pickled Peaches. Enjoy the first plums in Pork Loin Stuffed with Wild Plums and Rosemary. Preserve the fresh flavors of winter citrus with Kumquat Marmalade or Candied Grapefruit Peel. Organized alphabetically by fruit -- from apples to strawberries -- and including helpful essays on selecting, storing, and preparing fruit, this book will help you make the very most of fresh fruits from season to season. Illustrated with beautiful color relief prints by Patricia Curtan, Chez Panisse Fruit is a book to savor and to treasure.

That is when plant life evolved along with animal life. And that is how the surface of the earth was covered with lush fruitful vegetation, which flourished and evolved in different climates. As time went by, climatic changes also changed the nature and the appearance of these plants. From multicelled algae and fungi, they became huge multicelled giant trees, like the Sequoia, which are remnants of those glorious days of giant Green trees gone by. And soon man found out that trees were very useful to give him shelter, to give him food, and to provide him with essential fruit, leaves, and seeds to supplement his diet. That was because he was imitating the animals around him. They nibbled at leaves, he did the same thing. Sometimes he ended up with a tummy ache. Sometimes the animals ended up sick while he was left hale and hearty. But down the ages, and through lots of trial and error, he found out that every single plant out there could be put into use, even those plants we consider weeds today. The mythological and historical hanging Gardens of Babylon, which were supposed to have been built by Nebuchadnezzar, but in actuality were built by Sennacherib in Nineveh, Assyria, about 300 km away from Babylon. These were lush with green trees from all over the world. And historians who are not really bothered about historic authenticity and the names of kings, did not bother much about the locality or the creator of one of the seven wonders of the ancient world. First-hand accounts of that time were not available, and when Babylon conquered Assyria, they called it the new Babylon. And so centuries later historians wrote about the wonders of marvelous trees and green vegetation, growing in Babylon. So that is the reason why since ancient times, trees, especially fruit trees have been an important part of cultured and civilized landscaping. They were and are planted in gardens for the pleasure of the general public or for your own private enjoyment. You can grow one kind of fruit or another in almost any garden. Even the smallest garden can produce apples and strawberries. If you have plenty of land you are lucky because you have the space to allow your trees to spread their wings and flourish.
