

Fruit Paper Model

César San Martín, Sang-Woon Kim

An Orange in January Dianna Hutts Aston, 2007-10-18 Plump, juicy oranges are one of the great pleasures of winter—and one that is usually taken for granted. Now here's an eloquent, celebratory picture of how those oranges have found their way to the grocery store shelves, and then into kids—tummies! With vivid, glowing paintings, this unique picture book offers a poetic lesson about a plant's growth cycle and about the produce industry. We follow an orange from blossom to ripe fruit, from tree to truck to market . . . and into the hands of a boy who shares this treat with his friends on the playground, —so that everyone could taste the sweetness of an orange in January. In the tradition of Apple Farmer Annie and Red Leaf, Yellow Leaf, this is a satisfying, celebratory look at an everyday object with a remarkable life story.

Reading for Our Lives Maya Payne Smart, 2022-08-02 An award-winning journalist and literacy advocate provides a clear, step-by-step guide to helping your child thrive as a reader and a learner. When her child went off to school, Maya Smart was shocked to discover that a good education in America is a long shot, in ways that few parents fully appreciate. Our current approach to literacy offers too little, too late, and attempting to play catch-up when our kids get to kindergarten can no longer be our default strategy. We have to start at the top. The brain architecture for reading develops rapidly during infancy, and early language experiences are critical to building it. That means parents' work as children's first teachers begins

from day one too—and we need deeper knowledge to play our positions. Reading for Our Lives challenges the bath-book-bed mantra and the idea that reading aloud to our kids is enough to ensure school readiness. Instead, it gives parents easy, immediate, and accessible ways to nurture language and literacy development from the start. Through personal stories, historical accounts, scholarly research, and practical tips, this book presents the life-and-death urgency of literacy, investigates inequity in reading achievement, and illuminates a path to a true, transformative education for all.
